

remainder of the rule, EPA may adopt as final those provisions of the rule that are not the subject of an adverse comment.

III. Statutory and Executive Order Reviews

Under the Clean Air Act, the Administrator is required to approve a SIP submission that complies with the provisions of the Act and applicable Federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, EPA's role is to approve State choices, provided that they meet the criteria of the Clean Air Act. Accordingly, this action merely approves State law as meeting Federal requirements and does not impose additional requirements beyond those imposed by State law. For that reason, this action:

- Is not a "significant regulatory action" subject to review by the Office of Management and Budget under Executive Order 12866 (58 FR 51735, October 4, 1993);
- does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);
- is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);
- does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104-4);
- does not have Federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
- is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);
- is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);
- is not subject to requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the Clean Air Act; and
- does not provide EPA with the discretionary authority to address disproportionate human health or environmental effects with practical, appropriate, and legally permissible methods under Executive Order 12898 (59 FR 7629, February 16, 1994).

In addition, this rule does not have tribal implications as specified by

Executive Order 13175 (65 FR 67249, November 9, 2000), because the SIP is not approved to apply in Indian country located in the State, and EPA notes that it will not impose substantial direct costs on tribal governments or preempt tribal law.

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. EPA will submit a report containing this action and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. A major rule cannot take effect until 60 days after it is published in the **Federal Register**. This action is not a "major rule" as defined by 5 U.S.C. 804(2).

Under section 307(b)(1) of the Clean Air Act, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by April 13, 2015. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this action for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. Parties with objections to this direct final rule are encouraged to file a comment in response to the parallel notice of proposed rulemaking for this action published in the Proposed Rules section of today's **Federal Register**, rather than file an immediate petition for judicial review of this direct final rule, so that EPA can withdraw this direct final rule and address the comment in the proposed rulemaking. This action may not be challenged later in proceedings to enforce its requirements (see section 307(b)(2)).

List of Subjects in 40 CFR Part 52

Environmental protection, Air pollution control, Carbon monoxide, Incorporation by reference, Intergovernmental relations, Reporting and recordkeeping requirements, Volatile organic compounds.

Dated: December 12, 2014.

Jared Blumenfeld,
Regional Administrator, Region IX.

Part 52, Chapter I, Title 40 of the Code of Federal Regulations is amended as follows:

PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

- 1. The authority citation for Part 52 continues to read as follows:

Authority: 42 U.S.C. 7401 *et seq.*

Subpart F—California

- 2. Section 52.220 is amended by adding paragraphs (c)(441)(i)(D) and (c)(442)(i)(D) to read as follows:

§ 52.220 Identification of plan.

BILLING CODE 6560-50-P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Parts 52 and 81

[EPA-R10-OAR-2014-0808; FRL 9922-81-Region 10]

Approval and Promulgation of Air Quality Implementation Plans; Washington; Redesignation to Attainment for the Tacoma-Pierce County Nonattainment Area and Approval of Associated Maintenance Plan for the 2006 24-Hour Fine Particulate Matter Standard

AGENCY: Environmental Protection Agency.

ACTION: Final rule.

SUMMARY: The Environmental Protection Agency (EPA) is redesignating to attainment the entire Tacoma-Pierce County nonattainment area (hereafter "the Tacoma area" or "the area") for the 2006 24-hour fine particulate matter (PM_{2.5}) national ambient air quality

standard (NAAQS). The EPA is also approving as a revision to the Washington State Implementation Plan (SIP), the associated maintenance plan that provides for continued compliance of the 2006 24-hour PM_{2.5} NAAQS. Additionally, the EPA is approving the 2017 and 2026 motor vehicle emissions budgets included in Washington's maintenance plan for PM_{2.5} and nitrogen oxides.

DATES: This final rule is effective on March 12, 2015.

ADDRESSES: The EPA has established a docket for this action under Docket ID No. EPA-R10-OAR-2014-0808. All documents in the docket are listed on the www.regulations.gov Web site. Although listed in the index, some information is not publicly available, e.g., Confidential Business Information (CBI) or other information the disclosure of which is restricted by statute. Certain other material, such as copyrighted material, is not placed on the Internet and will be publicly available only in hard copy form. Publicly available docket materials are available either electronically through www.regulations.gov or in hard copy at the Air Programs Unit, Office of Air Waste and Toxics, EPA Region 10, 1200 Sixth Avenue, Seattle, WA 98101. The EPA requests that if at all possible, you contact the individual listed in the **FOR FURTHER INFORMATION CONTACT** section to view the hard copy of the docket. You may view the hard copy of the docket Monday through Friday, 8:00 a.m. to 4:00 p.m., excluding Federal holidays.

FOR FURTHER INFORMATION CONTACT: Jeff Hunt at (206) 553-0256, hunt.jeff@epa.gov, or by using the above EPA, Region 10 address.

SUPPLEMENTARY INFORMATION:

Definitions

For the purpose of this document, we are giving meaning to certain words or initials as follows:

- (i) The words or initials "Act" or "CAA" mean or refer to the Clean Air Act, unless the context indicates otherwise.
- (ii) The words "EPA," "we," "us" and "our" mean or refer to the Environmental Protection Agency.
- (iii) The initials "SIP" mean or refer to State Implementation Plan.
- (iv) The words "Washington" and "State" mean the State of Washington.

- I. Background Information
- II. Final Action
- III. Statutory and Executive Orders Review

I. Background Information

The first air quality standards for PM_{2.5} were established on July 16, 1997

(62 FR 38652, July 18, 1997). The EPA promulgated an annual standard at a level of 15 micrograms per cubic meter (µg/m³), based on a three-year average of annual mean PM_{2.5} concentrations (the 1997 annual PM_{2.5} standard). In the same rulemaking action, the EPA promulgated a 24-hour standard of 65 µg/m³, based on a three-year average of the 98th percentile of 24-hour concentrations. On October 17, 2006 (71 FR 61144), the EPA retained the annual average standard at 15 µg/m³, but revised the 24-hour standard to 35 µg/m³, based again on the three-year average of the 98th percentile of 24-hour concentrations (the 2006 24-hour PM_{2.5} standard or daily standard). On November 13, 2009, the EPA published designations for the 2006 24-hour PM_{2.5} NAAQS, which became effective on December 14, 2009 (74 FR 58688). In that rulemaking action, the EPA designated the Tacoma area as nonattainment for the 2006 24-hour PM_{2.5} NAAQS (see 77 FR 58774 and 40 CFR 81.348).

On September 4, 2012, the EPA determined that the Tacoma area had attained the 2006 24-hour PM_{2.5} NAAQS based upon complete, quality-controlled, certified 2009–2011 ambient air monitoring data available in the EPA's Air Quality System database (77 FR 53772). Pursuant to 40 CFR 51.1004(c), in effect at that time, the requirements for the Tacoma area to submit an attainment demonstration and associated reasonably available control measures, a reasonable further progress plan, contingency measures, and other planning SIPs related to the attainment of the 2006 24-hour PM_{2.5} NAAQS are suspended until such time as: The area is redesignated to attainment, at which time the requirements no longer apply; or the EPA determines that the area has again violated the standard, at which time such plans are required to be submitted. On September 19, 2013, the EPA finalized a subsequent determination of attainment, updated with 2010–2012 data, considering the effect of the D.C. Circuit Court's January 4, 2013 decision to remand the implementation rule containing the provisions of 40 CFR 51.1004(c) on the area (78 FR 57503). *Natural Resources Defense Council v. EPA*, 706 F.3d 428 (2013). A full description of the EPA's rationale for the determination of attainment is contained in the proposal for that action (78 FR 42095, July 18, 2013).

A determination of attainment does not relieve a state from submitting, and the EPA from approving, certain planning SIP revisions for the 2006 PM_{2.5} NAAQS. On November 28, 2012,

Washington submitted a 2008 baseline emissions inventory for direct PM_{2.5} and precursors to the formation of PM_{2.5} including nitrogen oxides (NO_x), volatile organic compounds (VOCs), ammonia (NH₃), and sulfur dioxide (SO₂) to meet the comprehensive emissions inventory requirement of Clean Air Act (CAA) section 172(c) for the 2006 24-hour PM_{2.5} NAAQS. Also included in Washington's submittal were SIP strengthening rules to implement the recommendations of the Tacoma-Pierce County Clean Air Task Force, an advisory committee of community leaders, citizen representatives, public health advocates, and other affected parties, formed to develop PM_{2.5} reduction strategies. These SIP strengthening rules were focused on controlling PM_{2.5} emissions from residential wood combustion, which at that time comprised 74% of direct PM_{2.5} emissions on winter days when 24-hour PM_{2.5} NAAQS exceedances were most likely. The EPA approved the 2008 baseline emissions inventory and SIP strengthening rules on May 29, 2013 (78 FR 32131).

On November 3, 2014, Ecology submitted a request to redesignate the Tacoma area from nonattainment to attainment for the 2006 24-hour PM_{2.5} NAAQS. The submittal included a maintenance plan as a SIP revision to ensure continued attainment of the standard over the next 10 years. On December 11, 2014, the EPA proposed to redesignate the entire Tacoma area, including tribal trust and non-trust lands, from nonattainment to attainment for the 2006 24-hour PM_{2.5} NAAQS (79 FR 73525).¹ The EPA also proposed to approve the associated maintenance plan, including motor vehicle emission budgets for 2017 and 2026. An explanation of the CAA requirements, a detailed explanation of the revisions, and the EPA's reasons for approval were provided in the notice of proposed rulemaking, and will not be restated here. The public comment period for the proposed rule ended on January 12, 2015. We did not receive any comments on the proposal.

II. Final Action

The EPA is changing the official designation of the Tacoma area for the 2006 24-hour PM_{2.5} NAAQS found at 40 CFR part 81, from nonattainment to

¹ Control measures on tribal trust land will continue to be regulated pursuant to 40 CFR part 49, which includes the Federal Implementation Plans under the Clean Air Act for Indian Reservations in Idaho, Oregon and Washington (70 FR 18074, April 8, 2005) and Review of New Sources and Modifications in Indian Country (76 FR 38748, July 1, 2011).

attainment, because the area meets the criteria set forth in CAA section 107(d)(3)(E). This final action was reached after offering consultation to the Puyallup Tribe of Indians and after reviewing technical analyses, emissions inventories, and monitoring data covering the entire area, including tribal trust and non-trust lands as described in the proposed rule. The EPA is also approving and incorporating into the Washington SIP the associated maintenance plan ensuring continued attainment of the 2006 24-hour PM_{2.5} NAAQS in the area for the next 10 years. For transportation conformity purposes, the EPA is approving the 2017 and 2026 motor vehicle emissions budgets included in Washington's maintenance plan for PM_{2.5} and nitrogen oxides.

III. Statutory and Executive Orders Review

Under the CAA, the Administrator is required to approve a SIP submission that complies with the provisions of the Act and applicable Federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, the EPA's role is to approve State choices, provided that they meet the criteria of the Clean Air Act. Accordingly, this action merely approves State law as meeting Federal requirements and does not impose additional requirements beyond those imposed by State law. For that reason, this action:

- Is not a "significant regulatory action" subject to review by the Office of Management and Budget under Executive Order 12866 (58 FR 51735, October 4, 1993);
- Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);
- Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);
- Does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104-4);
- Does not have Federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
- Is not an economically significant regulatory action based on health or

safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);

- Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);
- Is not subject to requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because this action does not involve technical standards; and
- Does not provide the EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).

The SIP is not approved to apply on any Indian reservation land in Washington except for as specifically noted below and is also not approved to apply in any other area where the EPA or an Indian tribe has demonstrated that a tribe has jurisdiction. In those areas of Indian country, the rule does not have tribal implications as specified by Executive Order 13175 (65 FR 67249, November 9, 2000), nor will it impose substantial direct costs on tribal governments or preempt tribal law. Washington's SIP is approved to apply on non-trust land within the exterior boundaries of the Puyallup Indian Reservation, also known as the 1873 Survey Area. Under the *Puyallup Tribe of Indians Settlement Act of 1989*, 25 U.S.C. 1773, Congress explicitly provided state and local agencies in Washington authority over activities on non-trust lands within the 1873 Survey Area. Consistent with EPA policy, the EPA provided a consultation opportunity to the Puyallup Tribe in a letter dated September 8, 2014. The EPA did not receive a request for consultation.

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. The EPA will submit a report containing this action and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal**

Register. A major rule cannot take effect until 60 days after it is published in the **Federal Register**. This action is not a "major rule" as defined by 5 U.S.C. 804(2).

Under section 307(b)(1) of the Clean Air Act, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by April 13, 2015. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this action for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. This action may not be challenged later in proceedings to enforce its requirements. (See section 307(b)(2).)

List of Subjects

40 CFR Part 52

Environmental protection, Air pollution control, Incorporation by reference, Intergovernmental relations, Nitrogen dioxide, Particulate matter, Reporting and recordkeeping requirements, Sulfur dioxide.

40 CFR Part 81

Environmental protection, Air pollution control, National parks, Wilderness areas.

Dated: January 28, 2015.

Dennis J. McLerran,

Regional Administrator, Region 10.

40 CFR parts 52 and 81 are amended as follows:

PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

- 1. The authority citation for Part 52 continues to read as follows:

Authority: 42 U.S.C. 7401 *et seq.*

Subpart WW—Washington

- 2. In § 52.2470, in paragraph (e), Table 2, is amended by adding at the end of the table a section heading entitled "Recently Approved Plans" followed by the entry entitled "Particulate Matter (PM_{2.5}) Maintenance Plan" to read as follows:

§ 52.2470 Identification of plan.

BILLING CODE 6560-50-P

GENERAL SERVICES ADMINISTRATION

41 CFR Parts 101–42, 101–45, and 102–40

[FMR Change–2015–01; FPMR Case 2003–101–1; FMR Case 2003–102–4; Docket 2007–0001; Sequence 6]

RIN 3090–AH21

Federal Management Regulation; Utilization and Disposition of Personal Property With Special Handling Requirements

AGENCY: Office of Government-wide Policy, General Services Administration (GSA).

ACTION: Final rule.

SUMMARY: GSA is amending the Federal Property Management Regulations (FPMR) by revising coverage regarding hazardous materials and certain categories of personal property, removing existing regulatory provisions from the FPMR, and moving coverage into the Federal Management Regulation (FMR). Upon issuance of this final rule, the FMR will address all types of personal property requiring special handling. A cross-reference is added to the FPMR to direct readers to the coverage in the FMR.

DATES: *Effective:* This final rule is effective February 10, 2015.

FOR FURTHER INFORMATION CONTACT: The Regulatory Secretariat, 1800 F Street NW., Washington, DC 20405, at (202) 501–4755 for information pertaining to status or publication schedules. For clarification of content, contact Robert Holcombe, Director, Personal Property Policy (MAD), at (202) 501–3828. Please cite FPMR Case 2003–101–1.

SUPPLEMENTARY INFORMATION:

A. Background

This final rule updates, streamlines, and clarifies content currently in FPMR part 101–42 and moves it into the FMR as part 102–40. This final rule also removes FPMR sections 101–45.001, 101–45.002, and 101–45.004. The subject matter of these sections is addressed in FMR sections 102–40.195 (disposal of items requiring demilitarization); 102–40.50 (handling of property reported to GSA so as to preserve civilian utility as far as possible); 102–40.225 (disposal of precious metals); and 102–40.140 (disposal of all-terrain vehicles (ATV)).

In addition, this final rule removes FPMR section 101–45.003 regarding vehicle reconditioning. This section

contains provisions that the Federal fleet community considers standard business practices, and is more prescriptive of specific tasks than is intended by this Governmentwide regulation.

The final rule is written in a plain language question and answer format. This style uses an active voice, shorter sentences, and pronouns. A question and its answer combine to establish a regulation.

The amended FMR part 102–40 includes the following specific changes from FPMR part 101–42:

1. Section 102–40.30 revises definitions previously included in FPMR part 101–42, and includes the following terms and definitions not found in section 101–42.001:
 - (a) Ammunition
 - (b) Ammunition Components
 - (c) Commerce Control List Item (CCLI)
 - (d) Demilitarization
 - (e) Electronic Product
 - (f) Safety Data Sheet (SDS)
 - (g) Medical device
 - (h) Munitions List Item
 - (i) Perishable
 - (j) Precious metals
 - (k) Radiation Safety Performance Standards
 - (l) Universal Waste(s)

2. Section 102–40.55 introduces the requirements for the disposal of perishables.

3. Section 102–40.100 revises and replaces FPMR section 101–42.401, Sales responsibilities for hazardous material, by allowing agencies to sell property with special handling requirements through Sales Centers.

4. Section 102–40.140 updates the policy on disposal of all-terrain vehicles (ATVs) and includes a certification statement to be used when donating ATVs.

5. Section 102–40.145 includes the topic of disposal of ammunition. The disposition of ammunition and ammunition components are combined in new part 102–40. The policy contained in part 102–40 allows for the sale of non-expended ammunition and ammunition components (both expended and non-expended) only to companies licensed to perform manufacturing/remanufacturing, or companies allowed to recover basic material content of the ammunition or ammunition components in accordance with Federal, state, and local laws and regulations. In addition to being sold as just described, expended ammunition cartridge cases may also be transferred or donated when the recipient certifies

that the cartridge case will be reloaded and used only for law enforcement purposes.

6. Section 102–40.150 provides the requirements for handling live animals and plants. Live animals and plants should be reported to GSA for transfer, donation, or sale, except when specific exceptions apply.

7. Section 102–40.165 is revised to remove obsolete requirements for a letter of clearance by the Food and Drug Administration (FDA) for the donation of surplus drugs, biologicals, and reagents to the state agency or designated donee and removing the requirement for the state agency or designated donee to obtain samples of surplus drugs, biologicals, and reagents from the holding agency for laboratory examination by the FDA.

8. Section 102–40.175 is revised to align policy on the disposal of surplus firearms with policy contained in part 102–36, where GSA may donate certain classes of surplus firearms to state and local government activities whose primary function is the enforcement of applicable Federal, state, and/or local laws whose compensated law enforcement officers have the authority to apprehend and arrest. It also aligns with the Bureau of Alcohol, Tobacco, Firearms and Explosives' (ATF) policy for the disposal of firearms subject to the National Firearms Act. The definition of "firearm" in Section 102–40.30 was revised to reflect the definition in 18 U.S.C. 921(a).

9. Section 102–40.190 has procedures for the disposal of medical devices. Medical devices are subject to the laws and regulations administered by the FDA.

10. Section 102–40.200 has special requirements for handling Commerce Control List Items.

11. Section 102.40–205 provides guidance on where to find procedures for handling national stockpile material. Materials acquired for the national stockpile, the supplemental stockpile, or material or equipment acquired under Section 303 of the Defense Production Act of 1950, as amended, are not covered by the FMR.

12. Section 102–40.215 provides the provision for handling ozone depleting substances (ODSs). An overview of laws and regulations covering the use and disposal of ODSs is found at the Environmental Protection Agency (EPA) Web site.

13. Section 102–40.225 includes a revision to the policy regarding the sale of precious metals. The policy requiring precious metals to be sold only under a sealed bid sale has been removed, and
