BILLING CODE 4710-05-P

DEPARTMENT OF STATE

[Public Notice 6347]

Overseas Security Advisory Council (OSAC) Renewal

The Department of State has renewed the Charter of the Overseas Security Advisory Council. This advisory council will continue to interact on overseas security matters of mutual interest between the U.S. Government and the American private sector. The Council's initiatives and security publications provide a unique contribution to protecting American private sector interests abroad. The Under Secretary for Management has determined that the Council is necessary and in the public interest.

The Council consists of representatives from four (4) U.S. Government agencies and thirty (30) American private sector companies and organizations. The Council will follow the procedures prescribed by the Federal Advisory Committee Act (FACA) (Pub. L. 92-463). Meetings will be open to the public unless a determination is made in accordance with Section 10(d) of the FACA, 5 U.S.C. 552b(c)(1) and (4), that a meeting or a portion of the meeting should be closed to the public. Notice of each meeting will be provided in the **Federal Register** at least 15 days prior to the meeting.

For more information contact Marsha Thurman, Overseas Security Advisory Council, Bureau of Diplomatic Security, U.S. Department of State, Washington, DC 20522-2008, phone: 571-345-2214.

Dated: October 28, 2008.

SUPPLEMENTARY INFORMATION:

Title: Disclosure of Change-of-Gauge Services.

OMB Control Number: 2105-0538.

Expiration Date: December 31, 2008.

Type of Review: Renewal and Approval of a previously approved collection.

Respondents: All U.S. air carriers, foreign air carriers, computer reservations systems (CRSs), and travel agents doing business in the United States, and the traveling public.

Number of Respondents: 16,000, excluding air travelers

Number of Responses: 18,200,000

Total Annual Burden: 227,288 hours

Abstract: Change-of-gauge service is scheduled passenger air transportation for which the operating carrier uses one single flight number even though passengers do not travel in the same aircraft from origin to destination but must change planes at an intermediate stop. In addition to one-flight-to-one-flight change-of-gauge services, change-of-gauge services can also involve aircraft changes between multiple flights on one side of the change point and one single flight on the other side. As with one-for-one change-of-gauge services, the carrier assigns a single flight number for the passenger's entire itinerary even though the passenger changes planes, but in addition, the single flight to or from the exchange point itself has multiple numbers, one for each segment with which it connects and one for the local market in which it operates.

The Department recognizes various public benefits that can flow from change-of-gauge services, such as a lowered likelihood of missed connections. However, although change-of-gauge flights can offer valuable consumer benefits, they can be confusing and misleading unless consumers are given reasonable and timely notice that they will be required to change planes during their journey.

Section 41712 of Title 49 of the U.S. code authorizes the Department to decide if a U.S. air carrier or foreign air carrier or ticket agent (including travel agents) has engaged in unfair or deceptive practices. Under this authority, the Department has adopted various regulations and policies to prevent unfair or deceptive practices or unfair methods of competition. The Department requires as a matter of policy that customers be given notice of aircraft changes for change-of-gauge flights. (See Department Order 89-1-31, page 5.) The Department proposed to adopt the extant regulations, however, because it was not convinced that these rules and policies resulted in effective disclosure all of the time.

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; (b) the accuracy of the Department's estimate of burden of the proposed information collection; (c) ways to enhance the quality, utility, and clarity of the information collection; (d) ways to minimize the burden of the collection of information on respondents, by the use of electronic means, including the use of automated collection techniques
