

**FEDERAL COMMUNICATIONS
COMMISSION**
47 CFR Part 73

[DA 03-367, Docket No. 02-125, RM-10447]

**Radio Broadcasting Services; Sutton,
NE**

AGENCY: Federal Communications
Commission.

ACTION: Proposed rule, dismissal.

SUMMARY: This document dismisses a pending petition for rulemaking to add an FM allotment in Sutton, Nebraska. The Commission had requested comment on a petition filed by Sutton Radio Company, proposing the allotment of Channel 278C2 at Sutton, Nebraska. See 67 FR 41364, June 18, 2002. The petitioner filed comments in support of the proposal. No other comments were received. On November 5, 2002, petitioner filed a request for dismissal of its pending petition. This document grants that request, dismissing the petition and terminating the proceeding.

ADDRESSES: Federal Communications
Commission, Washington, DC 20554.

FOR FURTHER INFORMATION CONTACT:
Deborah A. Dupont, Media Bureau (202)
418-7072.

SUPPLEMENTARY INFORMATION: This is a synopsis of the Commission's Report and Order, MM Docket No. 02-125, adopted February 5, 2002, and released February 7, 2003. The full text of this Commission decision is available for inspection and copying during normal business hours in the FCC Reference Information Center (Room CY-A257), 445 12th Street, SW., Washington, DC. The complete text of this decision may also be purchased from the Commission's copy contractor, Qualex International, Portals II, 445 12th Street, SW., Room CY-B402, Washington, DC 20554, telephone (202) 863-2893.

Federal Communications Commission.

John A. Karousos,

*Assistant Chief, Audio Division, Media
Bureau.*

BILLING CODE 6712-01-P

DEPARTMENT OF THE INTERIOR
Fish and Wildlife Service
50 CFR Part 17

RIN 1018-AI48

**Endangered and Threatened Wildlife
and Plants; Designation of Critical
Habitat for the Arizona Distinct
Population Segment of the Cactus
Ferruginous Pygmy-owl (*Glaucidium
brasilianum cactorum*)**

AGENCY: Fish and Wildlife Service,
Interior.

ACTION: Proposed rule; extension of
comment period.

SUMMARY: We, the U.S. Fish and
Wildlife Service (Service), announce the
extension of the public comment period
for the proposal to designate critical
habitat pursuant to the Endangered
Species Act of 1973, as amended (Act),
for the Arizona distinct population
segment of the cactus ferruginous
pygmy-owl (*Glaucidium brasilianum
cactorum*), and for the draft economic
analysis for the proposed designation.
We are extending the comment period
for the proposal and for the draft
economic analysis to allow all
interested parties additional time to
provide comments. Comments
previously submitted need not be
resubmitted, because they will be
incorporated into the public record as
part of this extended comment period,
and will be fully considered in the final
rule.

DATES: We will accept comments on
both the proposed critical habitat
designation and the draft economic
analysis until April 25, 2003.

ADDRESSES: Send comments and
information concerning the proposed
critical habitat designation and draft
economic analysis to the Field
Supervisor, Arizona Ecological Services
Office, 2321 West Royal Palm Road,
Suite 103, Phoenix, AZ 85021. You also
may send written comments by
facsimile to 602/242-2513. For
instructions on submitting comments by
electronic mail (e-mail), see Public
Comments Solicited in the
SUPPLEMENTARY INFORMATION section of
this notice.

You may obtain a copy of the draft
economic analysis on the Internet at
<http://arizonaes.fws.gov/cactus.htm>, or
you may write the Field Supervisor at
the above address, or call 602/242-0210
to have a copy mailed to you or made
available for you to pick up at the
address above. Comments and materials
received will be available for public

inspection, by appointment, during
normal business hours at the above
address.

FOR FURTHER INFORMATION CONTACT:

Steve Spangle, Field Supervisor (see
ADDRESSES), at telephone 602/242-0210;
or by facsimile at 602/242-2513.

SUPPLEMENTARY INFORMATION: Our
proposal to designate critical habitat for
the Arizona distinct population segment
of the cactus ferruginous pygmy-owl
(*Glaucidium brasilianum cactorum*)
(pygmy-owl) was published on
November 27, 2002 (67 FR 71032). In
the November proposal we also
announced the availability of the draft
economic analysis for the proposed
designation of critical habitat. The
current comment period on these two
documents is scheduled to close on
February 25, 2003.

A court order issued on September 21,
2001, vacated the critical habitat
established previously for the pygmy-
owl and remanded the previous
designation to us for preparation of a
new analysis of the economic and other
effects of the designation (*National
Association of Home Builders et al. v.
Norton*, Civ. No. 00-903-PHX-SRB).
The proposed designation that we
published in November of 2002 totals
approximately 488,863 hectares (ha)
(1,208,000 acres (ac)) in portions of
Pima and Pinal Counties, Arizona, and
includes approximately 9 percent of the
recognized historical range of the
pygmy-owl in Arizona.

On February 3, 2003, the United
States District Court for the District of
Arizona ordered us to extend the
comment period to allow the Plaintiffs
and Intervenor in *National Home
Builders Association v. Norton*, Civ. No.
00-0903-PHX-SRB (D. Az.), 60
additional days to review and comment
on materials used by us to develop our
critical habitat determination for the
pygmy-owl. Therefore, we are extending
the public comment period for 60 days,
until April 25, 2003.

Public Comments Solicited

We are extending the comment period
in order to accept the best and most
current scientific and commercial data
available regarding the proposed critical
habitat designation for the pygmy-owl
and the draft economic analysis of the
proposal. The Public Comments
Solicited section of the preamble to our
proposed rule includes a list of topics
for which we are particularly seeking
comments. Previously submitted
comments need not be resubmitted. You
may submit written comments by any of
several methods:

You may mail or hand-deliver written comments to the Field Supervisor, Arizona Ecological Services Office (see **ADDRESSES** section). Hand deliveries must be made during normal business hours.

You may send comments by e-mail to cfpo_habitat@fws.gov. If you submit comments by e-mail, please submit them as an ASCII file and avoid the use of special characters and any form of encryption. Please also include a return address in your e-mail message.

You may send written comments by facsimile to 602/242-2513.

Prior to making a final determination on this proposed rule, we will take into consideration all relevant comments and additional information received during the comment period. You may inspect comments and materials received, as well as supporting documentation used in preparation of the proposal to designate critical habitat, by appointment during normal business hours at our office listed in the **ADDRESSES** section.

Authority

The authority for this action is the Endangered Species Act of 1973 (16 U.S.C. 1531 *et seq.*).

Dated: February 20, 2003.

Julie A. MacDonald,

Acting Assistant Secretary for Fish and Wildlife and Parks.

BILLING CODE 4310-55-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 648

[Docket No. 030210027-3027-01; I.D. 012103E]

RIN 0648-AQ35

Fisheries of the Northeastern United States; Northeast Multispecies Fishery; Framework Adjustment 37 to the Northeast Multispecies Fishery Management Plan

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Proposed rule; request for comments.

SUMMARY: NMFS issues this proposed rule to implement measures contained in Framework Adjustment 37 (Framework 37) to the Northeast Multispecies Fishery Management Plan

(FMP) to eliminate the Year-4 default measure for whiting in both stock areas; reinstate the Cultivator Shoal whiting fishery (CSWF) season through October 31; eliminate the 10-percent restriction on red hake incidental catch in the CSWF; adjust the incidental catch allowances in Small Mesh Areas 1 and 2 so that they are consistent with those in the Cape Cod Bay raised footrope trawl fishery; clarify the transfer-at-sea provisions for small-mesh multispecies for use as bait; and slightly modify the Cape Cod Bay raised footrope trawl fishery area.

DATES: Comments on this proposed rule must be received on or before March 27, 2003.

ADDRESSES: Copies of the Framework 37 document, its Regulatory Impact Review (RIR), the Initial Regulatory Flexibility Analysis (IRFA) and supplement to the IRFA prepared by NMFS, the Environmental Assessment, and other supporting documents for the framework adjustment are available from Paul J. Howard, Executive Director, New England Fishery Management Council, 50 Water Street, Mill 2, Newburyport, MA 01950. These documents are also available online at <http://www.nefmc.org>.

This action is also based upon analyses conducted in support of Amendment 12 to the FMP. Copies of the Amendment 12 document, its RIR, IRFA and the July 1, 1999, supplement to the IRFA prepared by NMFS, the Final Supplemental Environmental Impact Statement (FSEIS), and other supporting documents for Amendment 12 are available from Paul J. Howard, Executive Director, New England Fishery Management Council, 50 Water Street, Mill 2, Newburyport, MA 01950. The Final Regulatory Flexibility Analysis for Amendment 12 consisted of the IRFA, public comments and responses contained in the final rule implementing Amendment 12 (65 FR 16766, March 29, 2000), and the summary of impacts and alternatives in that final rule.

Written comments on the proposed rule should be sent to Patricia A. Kurkul, Regional Administrator, NMFS, Northeast Regional Office, One Blackburn Drive, Gloucester, MA 01930. Mark the outside of the envelope "Comments on Framework 37." Comments may also be sent via facsimile (fax) to (978) 281-9135. Comments will not be accepted if submitted via e-mail or the Internet.

FOR FURTHER INFORMATION CONTACT: E. Martin Jaffe, Fishery Policy Analyst, 978-281-9272.

SUPPLEMENTARY INFORMATION:

Amendment 12 was developed to address the overfished condition of red hake and the southern stock of whiting, to reduce fishing mortality on northern whiting, which was approaching an overfished condition, and to establish management measures for offshore hake. The final rule implementing Amendment 12, which was partially approved by NMFS on behalf of the Secretary of Commerce on September 1, 1999, was published on March 29, 2000 (61 FR 16766), and became effective on April 28, 2000. The New England Fishery Management Council (Council) intended for the measures in Amendment 12 to achieve the target fishing mortality rates (F) for whiting within 4 years of implementation and to rebuild whiting and red hake stocks within 10 years.

Under Amendment 12, fishing with small mesh is regulated in the North Atlantic region through the establishment of three large "Regulated Mesh Areas." In the Gulf of Maine/ Georges Bank (GOM/GB) Regulated Mesh Area, vessels may fish for whiting with nets that have less than the minimum mesh size of 6-inch (15.24-cm) diamond mesh or 6.5-inch (16.51-cm) square mesh when participating in certain exempted fisheries. The GOM/GB exempted fisheries for whiting include: The Small Mesh Northern Shrimp Fishery, the CSWF, the Small Mesh Area 1/Small Mesh Area 2 Exemptions, and the Raised Footrope Trawl Whiting Fishery. The CSWF has a 3-inch (7.62-cm) minimum mesh size, and the Raised Footrope Trawl Whiting Fishery has a 2.5-inch (6.35-cm) minimum mesh size. In the Southern New England Regulated Mesh Area, vessels are exempt from the minimum mesh size requirement throughout the area when fishing for exempted species, which include whiting and offshore hake. Finally, in the Mid-Atlantic Regulated Mesh Area, vessels may fish for whiting and offshore hake with nets of mesh less than the minimum size when not fishing under a multispecies day-at-sea (DAS), provided that the vessel does not possess or land regulated multispecies.

Amendment 12 includes three possession limits, depending upon the minimum mesh size used. Vessels may possess and land up to a combined total of 3,500 lb (1,588 kg) of whiting and offshore hake when fishing with mesh less than 2.5 inches (6.35 cm). Vessels may possess and land up to a combined total of 7,500 lb (3,402 kg) of whiting and offshore hake when fishing with mesh equal to or greater than 2.5 inches (6.35 cm) and less than 3.0 inches (7.62
