

regarding the individual's medical suitability for Antarctic deployment.

6. *Other information requested:* In addition to the numbered forms and other information mentioned above, the USAP medical screening package includes the following:

- the Medical Risks for NSF-Sponsored Personnel Traveling to Antarctica.
- the NSF Privacy Notice.
- the Medical Screening for Blood-borne Pathogens/Consent for HIV Testing.
- the NSF Authorization for Treatment of Field-Team Member/Participant Under the Age of 18 Years. This should only be sent to the individuals who are under 18 years of age.
- the Dear Doctor and Dear Dentist letters, which provide specific laboratory and x-ray requirements, as well as other instructions.

7. *There are two other, non-medical forms included in the mailing:*

- the Personal Information Form—NSF Form Number 1458 includes a Privacy Act Notice. This form is used to collect information on current address and contact numbers, date and place of birth, nationality, citizenship, emergency point of contact information, travel dates, clothing sizes so that we may properly outfit those individuals who deploy, work-site information and prior deployment history.
- the Participant Notification—Important Notice for Participants—NSF Form 1457 in the United States Antarctic Program. This form provides information on the laws of the nations through which program participants must transit in route to Antarctica, regarding the transport, possession and use of illegal substances and the possibility of criminal prosecution if caught, tried and convicted.

Estimate of Burden: Public reporting burden for this collection of information varies according to the overall health of the individual, the amount of time it takes to access the forms online and print them, the amount of research required to complete the forms, the time it takes to make an appointment, take the examination and schedule and complete any follow-up medical, dental or psychological requirements and the completeness of the forms submitted. The estimated time is up to six weeks from the time the individual receives the forms until he or she is notified by the contractor of their final clearance status. An additional period of up to eight weeks may be required for the individual who was disqualified to be notified of the disqualification, to

request and receive the waiver packet, to obtain employer support and complete the waiver request, to do any follow-up testing, to return the waiver request to the contractor plus any follow-up information, for the contractor to get the completed packet to the National Science Foundation, and for the NSF to make and promulgate a decision.

Respondents: All individuals deploying to the Antarctic under the auspices of the United States Antarctic Program and certain Arctic areas must complete these forms. There are approximately 3,600 submissions per year, with a small percentage (c.3%) under the age of 40 who provide annual submissions but with less information.

Estimated Number of Responses per Form: Responses ranges from 2 to approximately 238 responses.

Estimated Total Annual Burden on Respondents: 40,536 hours.

Frequency of Responses: Individuals must complete the forms annually to be current within 12 months of their anticipated deployment dates. Depending on individual medical status some persons may require additional laboratory results to be current within two to six-weeks of anticipated deployment.

Dated: September 19, 2007.

Suzanne H. Plimpton,

Reports Clearance Officer, National Science Foundation.

BILLING CODE 7555-01-M

NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50-334 and 50-412]

FirstEnergy Nuclear Operating Company; Notice of Receipt and Availability of Application for Renewal of Beaver Valley Power Station, Units 1 and 2 Facility Operating License Nos. DPR-66 and NPF-73 for an Additional 20-Year Period

The U.S. Nuclear Regulatory Commission (NRC or Commission) has received an application, dated August 27, 2007, from FirstEnergy Nuclear Operating Company, filed pursuant to Section 104b for Unit 1 and Section 103 for Unit 2, of the Atomic Energy Act of 1954, as amended, and Title 10 of the *Code of Federal Regulations* Part 54 (10 CFR Part 54), to renew the operating licenses for the Beaver Valley Power Station (BVPS), Units 1 and 2. Renewal of the licenses would authorize the applicant to operate each facility for an additional 20-year period beyond the

period specified in the respective current operating licenses. The current operating license for BVPS, Unit 1 (DPR-66), expires on January 29, 2016. BVPS, Unit 1, is a pressurized-water reactor designed by Westinghouse. The current operating license for BVPS, Unit 2 (NPF-73), expires on May 27, 2027. BVPS, Unit 2, is a pressurized-water reactor designed by Westinghouse. Both units are located near Shippingport, Pennsylvania. The acceptability of the tendered application for docketing, and other matters including an opportunity to request a hearing, will be the subject of subsequent **Federal Register** notices.

Copies of the application are available to the public at the Commission's Public Document Room (PDR), located at One White Flint North, 11555 Rockville Pike, Rockville, MD 20852 or through the internet from the NRC's Agencywide Documents Access and Management System (ADAMS) Public Electronic Reading Room under Accession Number ML072430913. The ADAMS Public Electronic Reading Room is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>. In addition, the application is available at <http://www.nrc.gov/reactors/operating/licensing/renewal/applications.html>. Persons who do not have access to the Internet or who encounter problems in accessing the documents located in ADAMS should contact the NRC's PDR reference staff at 1-800-397-4209, extension 4737, or by e-mail to pdr@nrc.gov.

A copy of the license renewal application for the BVPS, Units 1 and 2, is also available to local residents near the site at the Beaver Area Memorial Library, 100 College Avenue, Beaver, Pennsylvania 15009.

Dated at Rockville, Maryland, this 18th day of September, 2007.

For the Nuclear Regulatory Commission.

Pao-Tsin Kuo,

Director, Division of License Renewal, Office of Nuclear Reactor Regulation.
