

contract for each location of contract, including subcontract, performance.

For contractors registered in SAM, the Defense Logistics Agency (DLA) CAGE Branch shall only modify data received from SAM in the CAGE master file if the contractor initiates those changes via update of its SAM registration.

Contractors undergoing a novation or change-of-name agreement shall notify the contracting officer in accordance with FAR subpart 42.12. The contractor shall communicate any change to the CAGE code to the contracting officer within 30 days after the change, so that a modification can be issued to update the CAGE code on the contract.

Contractors located in the U.S. or its outlying areas that are not registered in SAM shall submit written change request to the DLA CAGE Branch. Contractors located outside the U.S. and its outlying areas that are not registered in SAM shall contact the appropriate National Codification Bureau points of contact to request CAGE changes.

6. FAR 52.204–17, Ownership or Control of Offeror. This provision requires offerors to represent whether they are owned or controlled by another entity, and if so, to provide the CAGE code and name of such entity.

The CAGE code system may be used, among other things, to—

(a) Exchange data with another contracting activity, including contract administration activities and contract payment activities;

(b) Exchange data with another system that requires the unique identification of a contractor entity; or

(c) Identify when offerors are owned or controlled by another entity.

7. FAR 52.204–20, Predecessor of Offeror. This provision requires offerors to identify if the offeror is, within the last three years, a successor to another entity that received a Federal Government award and, if so, to provide the CAGE code and legal name of the predecessor.

The information on predecessors is used to identify such entities in the Federal Awardee Performance and Integrity Information System (FAPIS) to allow retrieval of integrity and performance data on the most recent predecessor of an apparent successful offeror to whom award is anticipated. FAR 9.104–6 requires contracting officers to consult FAPIS before awarding a contract that exceeds the simplified acquisition threshold.

8. FAR 52.204–23, Prohibition on Contracting for Hardware, Software, and Services Developed or Provided by Kaspersky Lab Covered Entities. This clause requires contractors to report, in writing, to the contracting officer or, in

the case of DoD, to the website at <https://dibnet.dod.mil>, any instance when the contractor identifies a covered article provided to the Government during contract performance, or if contractors are notified of such an event by subcontractors at any tier or any other source.

Agency personnel will use the collected information to identify and remove prohibited hardware, software, or services from Government use. This information collection is required to comply with section 1634 of Division A of the National Defense Authorization Act for Fiscal Year 2018 (Pub. L. 115–91).

DEPARTMENT OF DEFENSE

GENERAL SERVICES ADMINISTRATION

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[OMB Control No. 9000–0152; Docket No. 2025–0053; Sequence No. 2]

Information Collection; Service Contracting

AGENCY: Department of Defense (DOD), General Services Administration (GSA), and National Aeronautics and Space Administration (NASA).

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, and the Office of Management and Budget

(OMB) regulations, DoD, GSA, and NASA invite the public to comment on an extension concerning service contracting. DoD, GSA, and NASA invite comments on: whether the proposed collection of information is necessary for the proper performance of the functions of Federal Government acquisitions, including whether the information will have practical utility; the accuracy of the estimate of the burden of the proposed information collection; ways to enhance the quality, utility, and clarity of the information to be collected; and ways to minimize the burden of the information collection on respondents, including the use of automated collection techniques or other forms of information technology. OMB has approved this information collection for use through June 30, 2025. DoD, GSA, and NASA propose that OMB extend its approval for use for three additional years beyond the current expiration date.

DATES: DoD, GSA, and NASA will consider all comments received by May 12, 2025.

ADDRESSES: DoD, GSA, and NASA invite interested persons to submit comments on this collection through <https://www.regulations.gov> and follow the instructions on the site. This website provides the ability to type short comments directly into the comment field or attach a file for lengthier comments. If there are difficulties submitting comments, contact the GSA Regulatory Secretariat Division at 202–501–4755 or GSARegSec@gsa.gov.

Instructions: All items submitted must cite OMB Control No. 9000–0152, Service Contracting. Comments received generally will be posted without change to <https://www.regulations.gov>, including any personal and/or business confidential information provided. To confirm receipt of your comment(s), please check www.regulations.gov, approximately two-to-three days after submission to verify posting.

FOR FURTHER INFORMATION CONTACT: FARPolicy@gsa.gov or call 202–969–4075.

SUPPLEMENTARY INFORMATION:

A. OMB Control Number, Title, and Any Associated Form(s)

9000–0152, Service Contracting.

B. Need and Uses

This clearance covers the information that offerors must submit to comply with the FAR requirements at FAR 52.237–10, Identification of Uncompensated Overtime. This provision requires offerors, when professional or technical services are

acquired on the basis of the number of hours to be provided, to identify uncompensated overtime hours in excess of 40 hours per week, whether at the prime or subcontract level. This includes uncompensated overtime hours that are in indirect cost pools for personnel whose regular hours are normally charged direct.

The contracting officer will use the collected information to perform an adequate cost realism analysis of the offerors' proposed labor rates. Proposals which include unrealistically low labor rates, or which do not otherwise demonstrate cost realism, will be considered by the contracting officer in a risk assessment and evaluated appropriately. The primary purpose for obtaining the information and using it during the source selection process is to discourage the use of uncompensated overtime.

A. OMB Control Number, Title, and Any Associated Form(s)

9000-0027, Value Engineering Requirements.

B. Need and Uses

This clearance covers the information that contractors must submit to comply with the following Federal Acquisition Regulation (FAR) requirements:

- FAR 52.248-1, *Value Engineering*;
- 52.248-2, *Value Engineering-Architect-*

Engineer; and 52.248-3, *Value Engineering-Construction*. These clauses require contractors submitting Value Engineering Change Proposals (VECP's) to the Government to provide such details as: a description of the differences between the existing contract requirement and the proposed requirement, and the comparative advantages and disadvantages of each; a list and analysis of contract requirements that must be changed if the VECP is accepted; a detailed cost estimate showing anticipated reductions associated with the VECP; a statement of the time a modification accepting the VECP must be issued to achieve maximum cost reduction, and the effect on contract completion time; and identification of any previous submissions of the VECP; the agencies and contract numbers involved and previous Government actions, if known.

The Government will use the collected information to evaluate the VECP and, if accepted, to arrange for an equitable sharing plan.
