care environments. Non-chemical stressors, such as noise, number of windows in the child care center, tree cover, and shade cover in play area, will be included in data collection.

Community factors, such as mapping the locations of the child care facilities, roads, and agricultural operations, will be included in data collection in order to evaluate the relationship between indoor air quality and the outdoor environment.

IHS and EPA will also incorporate follow-up outreach and education with facilities to explain results and suggest corrective actions to remediate or reduce exposures from lead, allergens, pesticides, and PCBs that are detected in the facilities. The principal purpose of

this project is to provide valuable data about the levels of lead, allergens, pesticides, and PCBs in child care facilities located in Portland Area Indian Country. This project will help prioritize services and funding based on known needs and risks in order to help facilities obtain needed services. This data may help tribes secure funding from the federal Head Start program and other funding sources for repairs, rehabilitations or other corrective action. This study may also provide federal Head Start and Tribal Programs with data to improve standards and initiate policy changes, if necessary. IHS will also provide indoor air quality kits to the facilities and environmental health training to center staff to provide

methods and practices for preventing and controlling indoor environmental hazards. This project may be replicated in other IHS areas.

Agency Form Numbers: None.

Members of Affected Public: Operators of tribal child care facilities and pesticide applicators who work in child care facilities.

Status of the Proposed Information Collection: New request.

The table below provides: Types of data collection instruments, Estimated number of respondents, Number of responses per respondent, Annual number of responses, Average burden hour per response, and Total annual burden hours.

| Data collection instrument | Type of respondent | Number of respondents | Number responses per respondent | Average burden per response (hours) | Estimated burden hours |
|---|--|-----------------------|---------------------------------------|--|------------------------|
| Child Care Center Director Questionnaire Pesticide Applicator Questionnaire | Child Care Center Director Pesticide Applicator | 45 30 | 1 1 | 1.5 0.5 | 67.5 15 |
| Total | | 75 | | | 82.5 |

There are no direct costs to respondents other than their time to voluntarily complete the forms and submit them for consideration.

Comment Due Date: Comments regarding this information collection are best assured of having full effect if received within 60 days of the date of this publication.

Dated: July 13, 2016.

Elizabeth A. Fowler,

Deputy Director for Management Operations, Indian Health Service.
