### **DEPARTMENT OF ENERGY**

## Agency Information Collection Extension

AGENCY: U.S. Department of Energy.
ACTION: Submission for Office of
Management and Budget (OMB) review;
request comments.

SUMMARY: The Department of Energy (DOE) has submitted an information collection request to the OMB for extension under the provisions of the Paperwork Reduction Act of 1995. The information collection requests a three-year extension of its collection, titled Contracting, OMB Control Number 1910–5190. The proposed collection will collect information related to BPA's management and oversight of contracting requirements in fulfillment of BPA's vendor contracts.

**DATES:** Comments regarding this collection must be received on or before December 15, 2023. If you anticipate that you will be submitting comments but find it difficult to do so within the period allowed by this notice, please advise the OMB Desk Officer of your intention to make a submission as soon as possible. The Desk Officer may be telephoned at (202) 881–8585.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function.

#### FOR FURTHER INFORMATION CONTACT:

Requests for additional information or copies of the information collection instrument and instructions should be directed to Attn: Stephanie Noell, Privacy Program, by email at privacy@bpa.gov, or by phone at (503) 230–3881.

**SUPPLEMENTARY INFORMATION:** This information collection request contains:

- (1) OMB No.: 1910-5190;
- (2) Information Collection Request Title: Contracting;
  - (3) Type of Request: Extension;
- (4) Purpose: this information collection is associated with BPA's management and oversight of contracting requirements in fulfillment of BPA vendor contracts;
- (5) Annual Estimated Number of Respondents: 835;
- (6) Annual Estimated Number of Total Responses: 5,115;
- (7) Annual Estimated Number of Burden Hours: 1,240;
- (8) Annual Estimated Reporting and Recordkeeping Cost Burden: \$0.

Statutory Authority: The Bonneville Project Act codified in 16 U.S.C. 832a; the Federal Columbia River Transmission System Act of 1974 in 16 U.S.C. 838 et seq.; and the Pacific Northwest Electric Power Planning and Conservation Act in 16 U.S.C. 839 et seq.; IRS Code 26 U.S.C. 6109; and Department of Energy Establishment Act 42 U.S.C. 7101 et seq.

Signing Authority: This document of the Department of Energy was signed on November 1, 2023, by Rachel L. Hull, Information collection Clearance Manager, Bonneville Power Administration, pursuant to delegated authority from the Secretary of Energy. That document with the original signature and date is maintained by DOE. For administrative purposes only, and in compliance with requirements of the Office of the Federal Register, the undersigned DOE Federal Register Liaison Officer has been authorized to sign and submit the document in electronic format for publication, as an official document of the Department of Energy. This administrative process in no way alters the legal effect of this document upon publication in the Federal Register.

Signed in Washington, DC, on November 9, 2023.

#### **DEPARTMENT OF ENERGY**

[GDO Docket No. EA-287-D]

Application for Renewal of Authorization To Export Electric Energy; Emera Energy U.S. Subsidiary No. 1, Inc.

**AGENCY:** Grid Deployment Office, Department of Energy.

**ACTION:** Notice of application.

**SUMMARY:** Emera Energy U.S. Subsidiary No. 1, Inc. (the Applicant or EE US No. 1) has applied for renewed authorization to transmit electric energy from the United States to Canada pursuant to the Federal Power Act.

**DATES:** Comments, protests, or motions to intervene must be submitted on or before December 15, 2023.

**ADDRESSES:** Comments, protests, motions to intervene, or requests for more information should be addressed by electronic mail to *Electricity.Exports@hq.doe.gov.* 

## FOR FURTHER INFORMATION CONTACT:

Christina Gomer, (240) 474–2403, *Electricity.Exports@hq.doe.gov.* 

SUPPLEMENTARY INFORMATION: The United States Department of Energy (DOE) regulates electricity exports from the United States to foreign countries in accordance with section 202(e) of the Federal Power Act (FPA) (16 U.S.C. 824a(e)) and regulations thereunder (10 CFR 205.300 et seq.). Sections 301(b) and 402(f) of the DOE Organization Act (42 U.S.C. 7151(b) and 7172(f)) transferred this regulatory authority, previously exercised by the now-defunct Federal Power Commission, to DOE.

Section 202(e) of the FPA provides that an entity which seeks to export electricity must obtain an order from DOE authorizing that export. (16 U.S.C. 824a(e)). On April 10, 2023, the authority to issue such orders was delegated to the DOE's Grid Deployment Office (GDO) by Delegation Order No. S1–DEL–S3–2023 and Redelegation Order No. S3–DEL–GD1–2023.

In April 2004, DOE issued Order No. EA–287, authorizing EE US No. 1 to transmit electric energy from the United States to Canada as a power marketer. This authority was renewed in 2009 (Order No. EA–287–A), in 2014 (Order

No. EA–287–B), and in 2019 (Order No. EA–287–C). On October 12, 2023, EE US No. 1 filed an application with DOE (Application or App.) for renewal of their export authority for a five-year term. App at 1.

In its Application, EE US No. 1 states that it is a wholly-owned subsidiary of Emera Incorporated (Emera). App. at 1. The Application represents that EE US No. 1 is authorized to export energy from the United States to Canada and has market-based authority from FERC to provide wholesale and retail marketing services as a power marketer. Id. The Applicant notes that Emera holds ownership interests in various subsidiaries that provide energy services. See id. at 2-6. Although some of Emera's subsidiaries own and control electric power generation and transmission facilities, the Applicant asserts that EE US No. 1 "does not own or control any electric power generation or transmission facilities and does not have a franchised electric power service area." App. at 6.

The existing international transmission facilities to be utilized by the Applicant have been previously authorized by Presidential permits issued pursuant to Executive Order 10485, as amended, and are appropriate for open access transmission by third parties. See App. at Exhibit C.

Procedural Matters: Any person desiring to be heard in this proceeding should file a comment or protest to the Application at the email address provided previously. Protests should be filed in accordance with Rule 211 of FERC's Rules of Practice and Procedure (18 CFR 385.211). Any person desiring to become a party to this proceeding should file a motion to intervene at the previously provided email address in accordance with FERC Rule 214 (18 CFR 385.214).

Comments and other filings concerning EE US No. 1's Application should be clearly marked with GDO Docket No. EA-287-D. Additional copies are to be provided directly to Keith Sutherland, Vice President, Legal & Regulatory Affairs, Emera Energy Inc., 5151 Terminal Road, Halifax, NS B3J 1A1, Canada, keith.sutherland@ emeraenergy.com, Jeffrey Jakubiak, Vinson & Elkins LLP, 1114 Avenue of the Americas, 32nd Floor, New York, NY 10036, JJakubiak@velaw.com, and Jennifer Mansh, Vinson & Elkins LLP, 2200 Pennsylvania Avenue NW, Suite 500 West, Washington, DC 20037, IMansh@velaw.com.

A final decision will be made on the requested authorization after the environmental impacts have been evaluated pursuant to DOE's National

Environmental Policy Act Implementing Procedures (10 CFR part 1021) and after DOE evaluates whether the proposed action will have an adverse impact on the sufficiency of supply or reliability of the United States electric power supply system.

Copies of this Application will be made available, upon request, by accessing the program website at https://www.energy.gov/gdo/pending-applications-0 or by emailing Electricity.Exports@hq.doe.gov.

Signing Authority: This document of the Department of Energy was signed on November 8, 2023, by Maria Robinson, Director, Grid Deployment Office, pursuant to delegated authority from the Secretary of Energy. That document with the original signature and date is maintained by DOE. For administrative purposes only, and in compliance with requirements of the Office of the Federal Register, the undersigned DOE Federal Register Liaison Officer has been authorized to sign and submit the document in electronic format for publication, as an official document of the Department of Energy. This administrative process in no way alters the legal effect of this document upon publication in the **Federal Register**.

Signed in Washington, DC, on November 9, 2023.

# **DEPARTMENT OF ENERGY**

[GDO Docket No. EA-388-B]

Application for Renewal of Authorization To Export Electric Energy; TEC Energy Inc.

**AGENCY:** Grid Deployment Office, Department of Energy.

**ACTION:** Notice of application.

**SUMMARY:** TEC Energy Inc. (the Applicant or TEC) has applied for renewed authorization to transmit electric energy from the United States to Canada pursuant to the Federal Power Act.

**DATES:** Comments, protests, or motions to intervene must be submitted on or before December 15, 2023.

**ADDRESSES:** Comments, protests, motions to intervene, or requests for more information should be addressed by electronic mail to *Electricity.Exports@hq.doe.gov.* 

## FOR FURTHER INFORMATION CONTACT:

Christina Gomer, (240) 474–2403, Electricity. Exports@hq. doe. gov.

SUPPLEMENTARY INFORMATION: The United States Department of Energy (DOE) regulates electricity exports from the United States to foreign countries in accordance with section 202(e) of the Federal Power Act (FPA) (16 U.S.C. 824a(e)) and regulations thereunder (10 CFR 205.300 et seq.). Sections 301(b) and 402(f) of the DOE Organization Act (42 U.S.C. 7151(b) and 7172(f)) transferred this regulatory authority, previously exercised by the now-defunct Federal Power Commission, to DOE.

Section 202(e) of the FPA provides that an entity which seeks to export electricity must obtain an order from DOE authorizing that export. (16 U.S.C. 824a(e)). On April 10, 2023, the authority to issue such orders was delegated to the DOE's Grid Deployment Office (GDO) by Delegation Order No. S1–DEL–S3–2023 and Redelegation Order No. S3–DEL–GD1–2023.

On December 19, 2013, DOE issued Order No. EA–388, authorizing TEC to transmit electric energy from the United States to Canada as a power marketer for a five-year term. This authority was renewed on December 19, 2018 (Order No. EA–388–A). On September 21, 2023, TEC filed an application with DOE (Application or App.) for renewal of its export authority for an additional five-year term. App. at 1.

In its Application, TEC states that it "does not own or control any electric generation or transmission facilities, nor is it affiliated with any entity that does.' App. at 2. TEC represents that the electricity it "will export, on either a firm or interruptible basis, will be purchased from a variety of sources voluntarily, such as wholesale generators, electric utilities and federal power marketing agencies." *Id.* at 3. TEC represents that "[b]y definition, such power is surplus to the system of the selling generator and, therefore, the electric power that TEC will export on either a firm or interruptible basis will not impair or tend to impede the sufficiency of the electric power supply within the U.S. or the regional coordination of electric utility planning or operations." Id.

The existing international transmission facilities to be utilized by the Applicant have been previously authorized by Presidential permits issued pursuant to Executive Order 10485, as amended, and are appropriate for open access transmission by third parties. See id. at Exhibit C.
