

wheelchairs and scooters information for flights they operate  $\times 10$  hours per response  $\times 12$  months = 2,040 hours) + (4 air carriers reporting the mishandled baggage and mishandled wheelchairs and scooters information for flights operated by their branded codeshare partners  $\times 16$  hours per response  $\times 12$  months = 768 hours) + (.00138 hours for manual data entry related to wheelchair or scooters  $\times 12,000$  manual entries = 17 hours). This estimate is based on the following information: 17 carriers reported mishandled baggage and wheelchair and scooter information to DOT in calendar years 2019, 2020, and 2021. Currently, 4 carriers report mishandled baggage and wheelchair and scooter information to DOT for their codeshare operations.

DOT estimates that respondents will encounter on average 10-hours burden per month to report the mishandled baggage and wheelchair and scooter data to DOT for the flights they operate. DOT estimates that respondents that market codeshare flights will encounter on average an additional burden of 16 hours per month to report the mishandled baggage and wheelchair and scooter data to DOT for their branded codeshare operations. The burden estimates include staff time to manage and process the data and to submit the report through DOT's electronic submission system.

In addition, the estimated total annual burden is based on the assumption that most respondents employ automated processes to record that an item enplaned is a wheelchair or scooter, for the purposes of reporting data on wheelchairs and scooters to DOT. For a carrier that manually records this information, such as by having their agent type information describing a wheelchair or scooter into the airline's system, DOT estimates that the airline would spend approximately 5 seconds (.00138 hours) per item to manually enter the data.<sup>3</sup> DOT estimates that 12,000 wheelchairs and scooters total are recorded manually per year.

value provided by the agency to members of the public. Office of Management and Budget Circular A-25 allows agencies to impose user fees for services that confer a special benefit to identifiable recipients beyond those accruing to the general public. Pursuant to 31 CFR 223.22, Treasury imposes fees on surety companies and reinsuring companies seeking to obtain or renew certification or recognition from Treasury. The fees imposed and collected cover the costs incurred by the Government for services performed reviewing, analyzing, and evaluating the companies' applications, financial statements, and other information.
