Abstract of Information Available

Human remains representing, at least, one individual have been identified from site 14LC307 in Lincoln County, KS (UBS 1991–08). The 14,520 associated funerary objects are beads, a possible shield, and wooden, metal, stone, shell, and cloth artifacts. A hilltop burial was exposed during earthmoving associated with a gravel pit operation. To our knowledge, no known hazardous substances were used to treat any of the human remains or associated funerary objects.

Cultural Affiliation

Based on the information available and the results of consultation, cultural affiliation is reasonably identified by the geographical location or acquisition history of the human remains and associated funerary objects described in this notice.

Determinations

- The KSHS has determined that:
- The human remains described in this notice represent the physical remains of one individual of Native American ancestry.
 - The 14,520 objects described in this notice are reasonably believed to have been placed intentionally with or near individual human remains at the time of death or later as part of the death rite or ceremony.
 - There is a connection between the human remains and associated funerary objects described in this notice and the Prairie Band Potawatomi Nation and the Wichita and Affiliated Tribes (Wichita, Keechi, Waco, & Tawakonie), Oklahoma.

2. Any lineal descendant, Indian Tribe, or Native Hawaiian organization not identified in this notice who shows, by a preponderance of the evidence, that the requestor is a lineal descendant or an Indian Tribe or Native Hawaiian organization with cultural affiliation.

Repatriation of the human remains and associated funerary objects

described in this notice to a requestor may occur on or after August 29, 2025. If competing requests for repatriation are received, the KSHS must determine the most appropriate requestor prior to repatriation. Requests for joint repatriation of the human remains and associated funerary objects are considered a single request and not competing requests.
