

(4) The vessel operator complies with the HSFCA permit and all NAFO conservation and enforcement measures while fishing in the NAFO Regulatory Area.

### U.S. 3M Effort Allocation

Expressions of interest in harvesting the U.S. portion of the 2002 NAFO 3M shrimp effort allocation (1 vessel/100 days) will be accepted from owners of U.S. vessels in possession of a valid HSFCA permit. All expressions of interest should be directed in writing to Patrick E. Moran in the NMFS Office of Sustainable Fisheries (see **DATES** and **ADDRESSES**).

Letters of interest from U.S. vessel owners should include the name, registration and home port of the applicant vessel as required by NAFO in advance of fishing operations. In the event that multiple expressions of interest are made by U.S. vessel owners, NMFS may need to promulgate regulations designed to choose one U.S. applicant from among expressions of interest.

### NAFO Conservation and Management Measures

Relevant NAFO Conservation and Enforcement Measures include, but are not limited to, maintenance of a fishing logbook with NAFO-designated entries; adherence to NAFO hail system requirements; presence of an on-board observer; deployment of a functioning, autonomous vessel monitoring system; and adherence to all relevant minimum size, gear, bycatch, and other requirements. Further details regarding these requirements are available from the NMFS Northeast Regional Office, and can also be found in the current NAFO Conservation and Enforcement Measures on the Internet (see **ADDRESSES**).

### Chartering Arrangements

In the event that no adequate expressions of interest in harvesting the U.S. portion of the 2002 NAFO 3L shrimp quota allocation and/or 3M shrimp effort allocation are made on behalf of U.S. vessels, expressions of interest will be considered from U.S. fishing interests intending to make use of vessels of other NAFO Parties under chartering arrangements to fish the 2002 U.S. quota allocation for 3L shrimp and/or the effort allocation for 3M shrimp. Under NAFO rules in effect through 2002, a vessel registered to another NAFO Contracting Party may be chartered to fish the U.S. allocations provided that written consent for the charter is obtained from the vessel's flag state and the U.S. allocations are

transferred to that flag state. Such a transfer must be adopted by NAFO Parties through a mail voting process.

A NAFO Contracting Party wishing to enter into a chartering arrangement with the U.S. must be in full current compliance with the requirements outlined in the NAFO Convention and Conservation and Enforcement Measures including, but not limited to, submission of the following reports to the NAFO Executive Secretary: Provisional monthly catches within 30 days following the calendar month in which the catches were made; provisional monthly fishing days in Division 3M within 30 days following the calendar month in which the catches were made; provisional daily catches of shrimp taken from Division 3L; observer reports within 30 days following the completion of a fishing trip; and an annual statement of actions taken in order to comply with the NAFO Convention. Furthermore, the U.S. may also consider a Contracting Party's previous compliance with the NAFO incidental catch limits, as outlined in the NAFO Conservation and Enforcement Measures, before entering into a chartering arrangement.

Expressions of interest from U.S. fishing interests intending to make use of vessels from another NAFO Party under chartering arrangements should include information required by NAFO regarding the proposed chartering operation, including: the name, registration and flag of the intended vessel; a copy of the charter; the fishing opportunities granted; a letter of consent from the vessel's flag State; the date from which the vessel is authorized to commence fishing on these opportunities; and the duration of the charter (not to exceed 6 months). More details on NAFO requirements for chartering operations are available from NMFS (see **ADDRESSES**). In addition, expressions of interest for chartering operations should be accompanied by a detailed description of anticipated benefits to the United States. Such benefits might include, but are not limited to, the use of U.S. processing facilities/personnel; the use of U.S. fishing personnel; other specific positive effects on U.S. employment; evidence that fishing by the chartered vessel would actually take place; and documentation of the physical characteristics and economics of the fishery for future use by the U.S. fishing industry.

In the event that multiple expressions of interest are made by U.S. fishing interests proposing the use of chartering operations, the information submitted regarding benefits to the United States

will be used in making a selection. In the event that applications by U.S. fishing interests proposing the use of chartering operations are considered, all applicants will be made aware of the allocation decision as soon as possible. Once the allocation has been awarded for use in a chartering operation, NMFS will immediately take appropriate steps to transfer the U.S. 3M shrimp effort allocation to the vessel (pending approval by NAFO).

All individuals/companies submitting expressions of interest to NMFS will be contacted once the allocation has been awarded. Please note that once the U.S. portion of the 2002 NAFO 3L or 3M shrimp allocation is awarded to a U.S. vessel or a specified chartering operation, it may not be transferred without the express, written consent of NMFS.

Dated: March 21, 2002.

## DEPARTMENT OF COMMERCE

### National Oceanic and Atmospheric Administration

#### 50 CFR Part 679

[Docket No. 011218304-1304-01; I.D. 032502B]

### Fisheries of the Exclusive Economic Zone Off Alaska; Pacific Cod by Vessels Catching Pacific Cod for Processing by the Offshore Component in the Central Regulatory Area of the Gulf of Alaska

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Closure.

**SUMMARY:** NMFS is prohibiting directed fishing for Pacific cod by vessels catching Pacific cod for processing by the offshore component in the Central Regulatory Area of the Gulf of Alaska (GOA). This action is necessary to prevent exceeding the A season amount of the Pacific cod total allowable catch (TAC) apportioned to vessels catching Pacific cod for processing by the offshore component of the Central Regulatory Area of the GOA.

**DATES:** Effective 1200 hrs, Alaska local time (A.l.t.), March 25, 2002, until 1200 hrs, A.l.t., September 1, 2002.

**FOR FURTHER INFORMATION CONTACT:** Mary Furuness, 907-586-7228.

**SUPPLEMENTARY INFORMATION:** NMFS manages the groundfish fishery in the GOA exclusive economic zone according to the Fishery Management Plan for Groundfish of the Gulf of Alaska (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson-Stevens Fishery Conservation and Management Act. Regulations governing fishing by U.S. vessels in accordance with the FMP appear at subpart H of 50 CFR part 600 and 50 CFR part 679.

The 2002 A season Pacific cod TAC apportioned to vessels catching Pacific cod for processing by the offshore component in the Central Regulatory Area is 1,487 metric tons (mt) as established by an emergency rule implementing 2002 harvest specifications and associated management measures for the groundfish fisheries off Alaska (67 FR 956, January 8, 2002).

In accordance with § 679.20(d)(1)(i), the Administrator, Alaska Region, NMFS (Regional Administrator), has determined that the A season amount of the Pacific cod TAC apportioned to vessels catching Pacific cod for processing by the offshore component of

the Central Regulatory Area of the GOA will be reached. In accordance with § 679.20(a)(11)(iii), Pacific cod bycatch taken between the closure of the A season and opening of the B season shall be deducted from the B season TAC apportionment. Therefore, the Regional Administrator is establishing a directed fishing allowance of 1,487 mt. In accordance with § 679.20(d)(1)(iii), the Regional Administrator finds that this directed fishing allowance will soon be reached. Consequently, NMFS is prohibiting directed fishing for Pacific cod by vessels catching Pacific cod for processing by the offshore component in the Central Regulatory Area of the GOA.

Maximum retainable bycatch amounts may be found in the regulations at § 679.20(e) and (f).

#### **Classification**

This action responds to the best available information recently obtained from the fishery. The Assistant Administrator for Fisheries, NOAA, finds that the need to immediately implement this action to prevent exceeding the amount of the 2002 A season Pacific cod TAC specified for the offshore component in the Central

Regulatory Area of the GOA constitutes good cause to waive the requirement to provide prior notice and opportunity for public comment pursuant to the authority set forth at 5 U.S.C. 553(b)(3)(B) and 50 CFR 679.20(b)(3)(iii)(A), as such procedures would be unnecessary and contrary to the public interest. Similarly, the need to implement these measures in a timely fashion to prevent exceeding the 2002 A season Pacific cod TAC specified for the offshore component in the Central Regulatory Area of the GOA constitutes good cause to find that the effective date of this action cannot be delayed for 30 days. Accordingly, under 5 U.S.C. 553(d), a delay in the effective date is hereby waived.

This action is required by § 679.20 and is exempt from review under Executive Order 12866.

**Authority:** 16 U.S.C. 1801 *et seq.*

Dated: March 25, 2002.
