ENVIRONMENTAL PROTECTION AGENCY

[FRL-9919-39-OEI]

Cross-Media Electronic Reporting: Authorized Program Revision Approval, State of Connecticut

AGENCY: Environmental Protection Agency.

ACTION: Notice.

SUMMARY: This notice announces the Environmental Protection Agency (EPA's) approval of the State of Connecticut's request to revise/modify certain of its EPA-authorized programs to allow electronic reporting.

DATES: EPA's approval is effective November 17, 2014.

FOR FURTHER INFORMATION CONTACT:

Karen Seeh, U.S. Environmental Protection Agency, Office of Environmental Information, Mail Stop 2823T, 1200 Pennsylvania Avenue NW., Washington, DC 20460, (202) 566-1175, seeh.karen@epa.gov.

SUPPLEMENTARY INFORMATION: On October 13, 2005, the final Cross-Media Electronic Reporting Rule (CROMERR) was published in the **Federal Register** (70 FR 59848) and codified as part 3 of title 40 of the CFR. CROMERR establishes electronic reporting as an

acceptable regulatory alternative to paper reporting and establishes requirements to assure that electronic documents are as legally dependable as their paper counterparts. Subpart D of CROMERR requires that state, tribal or local government agencies that receive, or wish to begin receiving, electronic reports under their EPA-authorized programs must apply to EPA for a revision or modification of those programs and obtain EPA approval. Subpart D provides standards for such approvals based on consideration of the electronic document receiving systems that the state, tribe, or local government will use to implement the electronic reporting. Additionally, § 3.1000(b) through (e) of 40 CFR part 3, subpart D provides special procedures for program revisions and modifications to allow electronic reporting, to be used at the option of the state, tribe or local government in place of procedures available under existing program-specific authorization regulations. An application submitted under the subpart D procedures must show that the state, tribe or local government has sufficient legal authority to implement the electronic reporting components of the programs covered by the application and will use electronic document receiving systems that meet the applicable subpart D requirements.

On May 28, 2013, the Connecticut Department of Energy and Environmental Protection (CT DEEP) submitted an application titled "CT DEEP e-Permitting" for revisions/modifications of its EPA-authorized programs under title 40 CFR. EPA

reviewed CT DEEP's request to revise/modify its EPA-authorized programs and, based on this review, EPA determined that the application met the standards for approval of authorized program revisions/modifications set out in 40 CFR part 3, subpart D. In accordance with 40 CFR 3.1000(d), this notice of EPA's decision to approve Connecticut's request to revise/modify its following EPA-authorized programs to allow electronic reporting under 40 CFR parts 51, 60-63, 70, 122, 261-262, 264, 266, 268, 270, 280, and 403 is being published in the **Federal Register**:

Part 52—Approval and Promulgation of Implementation Plans;

Part 60—Standards Of Performance For New Stationary Sources;

Part 61—National Emission Standards for Hazardous Air Pollutants;

Part 70—State Operating Permit Programs;

Part 123—EPA Administered Permit Programs: The National Pollutant Discharge Elimination System;

Part 272—Approved State Hazardous Waste Management Programs;

Part 282—Approved Underground Storage Tank Programs; and

Part 403—General Pretreatment Regulations For Existing And New Sources Of Pollution.

CT DEEP was notified of EPA's determination to approve its application with respect to the authorized programs listed above.

Dated: October 9, 2014.

Matthew Leopard,

Acting Director, Office of Information Collection.

ENVIRONMENTAL PROTECTION AGENCY

[FRL-9919-31-OA]

Notification of Two Public Teleconferences of the Science Advisory Board Chemical Assessment Advisory Committee Augmented for the Review of EPA's Draft Ammonia Assessment

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA) Science Advisory Board (SAB) Staff Office announces two public teleconferences of the SAB Chemical Assessment Advisory Committee Augmented for the Review of the Draft Ammonia Assessment (CAAC-Ammonia Panel) to discuss its draft report concerning EPA's draft Integrated Risk Information System (IRIS) *Toxicological Review of Ammonia* (August 2013 Revised External Review Draft).

DATES: The public teleconferences will be held on Wednesday December 17, 2014 and Friday December 19, 2014. The teleconferences will be held from 1:00 p.m. to 5:00 p.m. (Eastern Standard Time) on both days.

Location: The teleconferences will be conducted by telephone only.

FOR FURTHER INFORMATION CONTACT: Any member of the public who wants further information concerning the teleconferences may contact Dr. Suhair Shallal, Designated Federal Officer (DFO), EPA Science Advisory Board (1400R), U.S. Environmental Protection Agency, 1300 Pennsylvania Avenue NW., Washington, DC 20460; via telephone/voice mail (202) 564-2057; fax (202) 565-2098; or email at shallal.suhair@epa.gov. General information concerning the SAB can be found on the SAB Web site at <http://www.epa.gov/sab>.

SUPPLEMENTARY INFORMATION:

Background: The SAB was established pursuant to the Environmental Research, Development, and Demonstration Authorization Act (ERDDAA), codified at 42 U.S.C. 4365, to provide independent scientific and technical advice to the Administrator on the technical basis for Agency positions and regulations. The SAB is a Federal

Advisory Committee chartered under the Federal Advisory Committee Act (FACA), 5 U.S.C., App. 2. The SAB will comply with the provisions of FACA and all appropriate SAB Staff Office procedural policies. Pursuant to FACA and EPA policy, notice is hereby given that the SAB CAAC Ammonia Panel will hold public teleconferences to discuss its draft report regarding the draft IRIS *Toxicological Review of Ammonia* (August 2013 Revised External Review Draft) and responses to questions about enhancements the agency is implementing to the IRIS program. The EPA SAB Staff Office augmented the SAB CAAC with subject matter experts to provide advice through the chartered SAB regarding this IRIS assessment.

The SAB CAAC Ammonia Panel held a public meeting on July 14-16, 2014. The purpose of that meeting was to receive a briefing on the EPA's enhancements to the IRIS Program and develop responses to the peer review charge on the agency's draft IRIS *Toxicological Review of Ammonia* (August 2013 Revised External Review Draft). The purpose of these public teleconferences is for the Panel to discuss its draft report peer reviewing the agency's draft toxicological review. The two public teleconferences will be conducted as one complete meeting, beginning on December 17, 2014 and if necessary, will continue on December 19, 2014.

Availability of Meeting Materials: Additional background on this SAB activity, the teleconference agenda, draft report, and other materials for the teleconferences will be posted on the SAB Web site at http://yosemite.epa.gov/sab/sabproduct.nsf/fedrstr_activites/IRIS%20Ammonia?OpenDocument.

Procedures for Providing Public Input: Public comment for consideration by EPA's federal advisory committees and panels has a different purpose from public comment provided to EPA program offices. Therefore, the process for submitting comments to a federal advisory committee is different from the process used to submit comments to an EPA program office. Federal advisory committees and panels, including scientific advisory committees, provide independent advice to EPA. Members of the public can submit relevant comments pertaining to the group conducting this SAB activity or meeting materials. Input from the public to the SAB will have the most impact if it consists of comments that provide specific scientific or technical information or analysis for the SAB to consider. Members of the public

wishing to provide comment should contact the Designated Federal Officer for the relevant advisory committee directly.

Oral Statements: In general, individuals or groups requesting an oral presentation at a public teleconference will be limited to three minutes per speaker. To be placed on the public speaker list for the December 17, 2014 teleconference, interested parties should notify Dr. Suhair Shallal, DFO, by email no later than December 10, 2014.

Written Statements: Written statements for these teleconferences should be received in the SAB Staff Office by the same deadlines given above for requesting oral comments. Written statements should be supplied to the DFO via email (acceptable file format: Adobe Acrobat PDF, MS Word, WordPerfect, MS PowerPoint, or Rich Text files in IBM-PC/Windows 98/2000/XP format). It is the SAB Staff Office general policy to post written comments on the Web page for the advisory meeting or teleconference. Submitters are requested to provide an unsigned version of each document because the SAB Staff Office does not publish documents with signatures on its Web sites. Members of the public should be aware that their personal contact information, if included in any written comments, may be posted to the SAB Web site. Copyrighted material will not be posted without explicit permission of the copyright holder.

Accessibility: For information on access or services for individuals with disabilities, please contact Dr. Shallal at the phone number or email address noted above, preferably at least ten days prior to the teleconferences, to give the EPA as much time as possible to process your request.

Dated: November 6, 2014.

Thomas H. Brennan,

Deputy Director, EPA Science Advisory Board Staff Office.
