

attachments must clearly identify the respondent's electronic submission by name, date, and subject, so that they can be attached to the correct submission.

FOR FURTHER INFORMATION CONTACT: Richard E. Fairfax, Occupational Safety and Health Administration, Directorate of Enforcement Programs, Room N-3119, U.S. Department of Labor, 200 Constitution Avenue, NW., Washington, DC 20210, Telephone 202-693-2100. For electronic copies of this **Federal Register** notice, contact OSHA's Web page on the Internet at <http://www.osha.gov>.

SUPPLEMENTARY INFORMATION: OSHA published a request for comments on its nationwide site-specific targeting (SST) inspection program on May 6, 2004 (69 FR 25445). In that notice, OSHA provided a 60-day period for the public to submit comments, extending through July 6, 2004. OSHA received a request from the United States Chamber of Commerce to extend the comment period for submitting comments. OSHA is interested in obtaining the best possible information that it can from the public. Accordingly, written comments must now be submitted by August 11, 2004.

Authority: This document is issued under sec. 8(a) and 8(b), Pub. L. 91-596, 84 Stat. 1599 (29 U.S.C. 656).

Signed At Washington, DC this 6th day of July, 2004.

John L. Henshaw,

Assistant Secretary of Labor.

BILLING CODE 4510-26-M

MILLENNIUM CHALLENGE CORPORATION

[FR 04-07]

Notice of July 20, 2004 Millennium Challenge Corporation Board of Directors Meeting; Sunshine Act Meeting

AGENCY: Millennium Challenge Corporation.

TIME AND DATE: 10-12 p.m., July 20, 2004.

PLACE: Department of State, C Street Entrance, Washington, DC 20520.

FOR FURTHER INFORMATION CONTACT: Information on the meeting may be obtained from Adaisha Garrison at (202) 521-3881.

STATUS: Meeting will be open to the public from 10 a.m. until conclusion of the administrative session; a closed session will commence immediately following the conclusion of the open session, at approximately 10:20 a.m.

MATTERS TO BE CONSIDERED: The Board of Directors (the "Board") of the Millennium Challenge Corporation ("MCC") intends to hold a quarterly meeting of the Board to: Initiate the FY 2005 country selection process by identifying countries that will be candidates for Millennium Challenge Account ("MCA") assistance in FY 2005 based on the per capita income and other requirements of Section 606(a) of the Millennium Challenge Act of 2003 (Pub. L. 108-199 (Division D)) (the "Act") and considering the FY 2005 selection criteria and methodology that will be used to determine which of these candidate countries will be eligible for MCA assistance under the requirements of Section 607 of the Act; and discuss and take action on certain administrative and personnel-related matters. The majority of the meeting will be devoted to a discussion of the FY 2005 country selection process, including a discussion of the candidate countries and the selection criteria and methodology, which is likely to involve the discussion of classified information related to U.S. foreign policy and will be closed to the public. Any personnel-related matters would also be conducted during this session. A brief open session relating to certain administrative matters and an update for the Board on MCC operations will precede the closed session.

Due to the quorum requirement in Section 604(c)(6) of the Act, an official meeting of the Board will require the presence of at least one Board member nominated by the President and confirmed by the Senate pursuant to Section 604(c)(3)(B) of the Act. If at least one of these members has not been confirmed by the Senate and formally appointed by the President as of the time of the meeting, the Board will not be in a position to take official Board action and the meeting may be cancelled. In the event of cancellation, MCC will notify the MCA mailing list and post a notice of cancellation on the MCC Web site (www.mcc.gov) at least 24 hours prior to the Board meeting. Interested members of the public may join the MCA mailing list on the MCC Web site at http://www.mcc.gov/contact_maillist.html.

Due to security requirements at the meeting location, all individuals wishing to attend the open portion of the meeting must notify Adaisha Garrison at (202) 521-3881 (garrisonam@mcc.gov) of their intention to attend the meeting by noon on Friday, July 17, 2004, and must comply with all relevant security requirements of the Department of State, including providing the necessary information to

obtain any required clearance. Seating for the brief open session will be available on a first come, first served basis.

Dated: July 8, 2004.

Jon A. Dyck,

*Vice President and General Counsel,
Millennium Challenge Corporation.*

BILLING CODE 9210-01-P

NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50-413 and 50-414]

Duke Energy Corporation, et al., Catawba Nuclear Station, Units 1 and 2; Notice of Opportunity To Comment and Proposed No Significant Hazards Consideration Determination

The U.S. Nuclear Regulatory Commission (the Commission) is reviewing an application for amendment to Facility Operating License Nos. NPF-35 and NPF-52, issued to Duke Power Company, *et al.* (the licensee), for operation of the Catawba Nuclear Station (Catawba), Units 1 and 2, located in York County, South Carolina. A Notice of Consideration of Issuance of Amendment to Facility Operating License and Opportunity for a Hearing was published in the **Federal Register** on July 25, 2003.

The proposed amendments, requested by the licensee in a letter dated February 27, 2003, as supplemented by letters dated September 15, September 23, October 1 (two letters), October 3 (two letters), November 3 and 4, December 10, 2003, February 2, 2004, (two letters), March 1 (two letters), March 9 (two letters), and March 16, (two letters), March 26, March 31, April 13, April 16, May 13 and June 17, 2004, would revise the Technical Specifications to allow the use of four mixed oxide (MOX) fuel lead test assemblies (LTAs). The term "MOX" arises from the following: the low enriched uranium (LEU) fuel used in U.S. reactors heretofore consists mostly of uranium oxides wherein the concentration of U-235 is increased during manufacture, such that U-235 constitutes up to four to five percent of the uranium by weight. In fresh unirradiated LEU fuel, U-235 is the fissionable component and it has no significant plutonium concentration. During irradiation, however, U-238 absorbs neutrons produced by the fission of U-235 and transmutes to the various isotopes of plutonium. Some of these plutonium isotopes are fissionable
