

7. Absence of an appropriate assessment and documentation of the consumer's ability to repay the loan in accordance with its terms, commensurate with the type of loan, as required by Appendix A of this part.

8. Mandatory arbitration clauses or agreements, particularly if the eligibility of the loan for purchase in the secondary market is thereby impaired.

9. Pricing terms that result in the loan's being subject to the provisions of the Home Ownership and Equity Protection Act. 15 U.S.C. 1639 *et seq.*

10. Original principal balance of the loan in excess of appraised value.

11. Payment schedules that consolidate more than two periodic payments and pay them in advance from the loan proceeds.

12. Payments to home improvement contractors under a home improvement contract from the proceeds of a residential mortgage loan other than by an instrument payable to the consumer, jointly to the consumer and the contractor, or through an independent third party escrow agent.

C. Enhanced Care to Avoid Abusive Loan Terms, Conditions, and Features in Certain Mortgages. A bank may face heightened risks when it solicits or offers loans to consumers who are not financially sophisticated, have language barriers, or are elderly, or have limited or poor credit histories, are substantially indebted, or have other characteristics that limit their credit choices. In connection with such consumers, a bank should exercise enhanced care if it employs the residential mortgage loan terms, conditions, and features described in paragraph B of this section III, and should also apply appropriate heightened internal controls and monitoring to any line of business that does so.

D. Avoidance of Consumer Misunderstanding. A bank's residential mortgage lending activities should include provision of timely, sufficient, and accurate information to a consumer concerning the terms and costs, risks, and benefits of the loan. Consumers should be provided with information sufficient to draw their attention to these key terms.

E. Purchased and Brokered Loans. With respect to consumer residential mortgage loans that the bank purchases, or makes through a mortgage broker or other intermediary, the bank's residential mortgage lending activities should reflect standards and practices consistent with those applied by the bank in its direct lending activities and include appropriate measures to mitigate risks, such as the following:

1. Criteria for entering into and continuing relationships with intermediaries and originators, including due diligence requirements.

2. Underwriting and appraisal requirements.

3. Standards related to total loan compensation and total compensation of intermediaries, including maximum rates, points, and other charges, and the use of overages and yield-spread premiums, structured to avoid providing an incentive to originate loans with predatory or abusive characteristics.

4. Requirements for agreements with intermediaries and originators, including with respect to risks identified in the due diligence process, compliance with appropriate bank policies, procedures and practices and with applicable law (including remedies for failure to comply), protection of the bank against risk, and termination procedures.

5. Loan documentation procedures, management information systems, quality control reviews, and other methods through which the bank will verify compliance with agreements, bank policies, and applicable laws, and otherwise retain appropriate oversight of mortgage origination functions, including loan sourcing, underwriting, and loan closings.

6. Criteria and procedures for the bank to take appropriate corrective action, including modification of loan terms and termination of the relationship with the intermediary or originator in question.

F. Monitoring and Corrective Action. A bank's consumer residential mortgage lending activities should include appropriate monitoring of compliance with applicable law and the bank's lending standards and practices, periodic monitoring and evaluation of the nature, quantity and resolution of customer complaints, and appropriate evaluation of the effectiveness of the bank's standards and practices in accomplishing the objectives set forth in these Guidelines. The bank's activities also should include appropriate steps for taking corrective action in response to failures to comply with applicable law and the bank's lending standards, and for making adjustments to the bank's activities as may be appropriate to enhance their effectiveness or to reflect changes in business practices, market conditions, or the bank's lines of business, residential mortgage loan programs, or customer base.

Dated: January 31, 2005.

Julie L. Williams,

Acting Comptroller of the Currency.

BILLING CODE 4810-33-P

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 71

[Docket No. FAA-2005-20060; Airspace Docket No. 05-ACE-2]

Modification of Class E Airspace; Rolla, MO

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Direct final rule; request for comments.

SUMMARY: This action amends Title 14 Code of Federal Regulations, part 71 (14 CFR 71) by revising Class E airspace at Rolla, MO. A review of controlled airspace for Rolla Downtown Airport revealed it does not comply with the criteria for 700 feet above ground level (AGL) airspace required for diverse departures. The area is modified and enlarged to conform to the criteria in FAA Orders.

DATES: This direct final rule is effective on 0901 UTC, May 12, 2005. Comments for inclusion in the Rules Docket must be received on or before March 2, 2005.

ADDRESSES: Send comments on this proposal to the Docket Management System, U.S. Department of Transportation, Room Plaza 401, 400 Seventh Street, SW., Washington, DC 20590-0001. You must identify the docket number FAA-2005-20060/ Airspace Docket No. 05-ACE-2, at the beginning of your comments. You may also submit comments on the Internet at <http://dms.dot.gov>. You may review the public docket containing the proposal, any comments received, and any final disposition in person in the Dockets Office between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays. The Docket Office (telephone 1-800-647-5527) is on the plaza level of the Department of Transportation NASSIF Building at the above address.

FOR FURTHER INFORMATION CONTACT: Brenda Mumper, Air Traffic Division, Airspace Branch, ACE-520A, DOT Regional Headquarters Building, Federal Aviation Administration, 901 Locust, Kansas City, MO 64106; telephone: (816) 329-2524.

SUPPLEMENTARY INFORMATION: This amendment to 14 CFR 71 modifies the Class E airspace area extending upward

from 700 feet above the surface at Rolla, MO. An examination of controlled airspace for Rolla Downtown Airport revealed it does not meet the criteria for 700 feet AGL airspace required for diverse departures as specified in FAA Order 7400.2E, Procedures for Handling Airspace Matters. The criteria in FAA Order 7400.2E for an aircraft to reach 1200 feet AGL, taking into consideration rising terrain, is based on a standard climb gradient of 200 feet per mile plus the distance from the airport reference point to the end of the outermost runway. Any fractional part of a mile is converted to the next higher tenth of a mile. This amendment expands the airspace area from a 6-mile radius to a 7.8-mile radius of Rolla Downtown Airport and brings the legal description of the Rolla, MO Class E airspace area into compliance with FAA Order 7400.2E. This area will be depicted on appropriate aeronautical charts. Class E airspace areas extending upward from 700 feet or more above the surface of the earth are published in paragraph 6005 of FAA Order 7400.9M, Airspace Designations and Reporting Points, dated August 30, 2004, and effective September 16, 2004, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published subsequently in the Order.

The Direct Final Rule Procedure

The FAA anticipates that this regulation will not result in adverse or negative comment and, therefore, is issuing it as a direct final rule. Previous actions of this nature have not been controversial and have not resulted in adverse comments or objections. Unless a written adverse or negative comment, or a written notice of intent to submit an adverse or negative comment is received within the comment period, the regulation will become effective on the date specified above. After the close of the comment period, the FAA will publish a document in the **Federal Register** indicating that no adverse or negative comments were received and confirming the date on which the final rule will become effective. If the FAA does receive, within the comment period, an adverse or negative comment, or written notice of intent to submit such a comment, a document withdrawing the direct final rule will be published in the **Federal Register**, and a notice of proposed rulemaking may be published with a new comment period.

Comments Invited

Interested parties are invited to participate in this rulemaking by submitting such written data, views, or

arguments, as they may desire. Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in developing reasoned regulatory decisions on the proposal. Comments are specifically invited on the overall regulatory, aeronautical, economic, environmental, and energy-related aspects of the proposal. Communications should identify both docket numbers and be submitted in triplicate to the address listed above. Commenters wishing the FAA to acknowledge receipt of their comments on this notice must submit with those comments a self-addressed, stamped postcard on which the following statement is made: "Comments to Docket No. FAA-2005-20060/Airspace Docket No. 05-ACE-2." The postcard will be date/time stamped and returned to the commenter.

Agency Findings

The regulations adopted herein will not have a substantial direct effect on the States, on the relationship between the national Government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, it is determined that this final rule does not have federalism implications under Executive Order 13132.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this regulation—(1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of the airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority since it contains aircraft executing instrument approach procedures to Rolla Downtown Airport.

List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

Adoption of the Amendment

■ Accordingly, the Federal Aviation Administration amends 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, CLASS B, CLASS C, CLASS D, AND CLASS E AIRSPACE AREAS; AIRWAYS; ROUTES; AND REPORTING POINTS

■ 1. The authority citation for part 71 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40103, 40113, 40120; E.O. 10854, 24 FR 9665, 3 CFR, 1959–1963 Comp., p. 389.

§ 71.1 [Amended]

■ 2. The incorporation by reference in 14 CFR 71.1 of Federal Aviation Administration Order 7400.9M, dated August 30, 2004, and effective September 16, 2004, is amended as follows:

Paragraph 6005 Class E airspace areas extending upward from 700 feet or more above the surface of the earth.

* * * * *

ACE MO E5 Rolla, MO

Rolla Downtown Airport, MO
(Lat. 37°56'08" N., long. 91°48'49" W.)

That airspace extending upward from 700 feet above the surface within a 7.8-mile radius of Rolla Downtown Airport.
