Agency Information Collection Activities; Federal Fish and Wildlife Permit Applications and Reports—Migratory Birds

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of information collection; request for comment.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, we, the U.S. Fish and Wildlife Service (Service, we), are proposing to renew an existing information collection with revisions.

DATES: Interested persons are invited to submit comments on or before December 27, 2019.

ADDRESSES: Send your comments on the information collection request by mail to the Service Information Collection Clearance Officer, U.S. Fish and Wildlife Service, MS: JAO/1N PRB/PERMA, 5275 Leesburg Pike, Falls Church, VA 22041-3803 (mail); or by email to Info_Coll@fws.gov. Please reference OMB Control Number 1018-0022 in the subject line of your comments.

FOR FURTHER INFORMATION CONTACT: To request additional information about this ICR, contact Madonna L. Baucum, Service Information Collection Clearance Officer, by email at Info_Coll@fws.gov, or by telephone at (703) 358-2503.

SUPPLEMENTARY INFORMATION: In accordance with the Paperwork Reduction Act of 1995, we provide the general public and other Federal agencies with an opportunity to comment on new, proposed, revised, and continuing collections of information. This helps us assess the impact of our information collection requirements and minimize the public's reporting burden. It also helps the public understand our information collection requirements and provide the requested data in the desired format.

We are soliciting comments on the proposed information collection request (ICR) that is described below. We are especially interested in public comment addressing the following issues: (1) Is the collection necessary to the proper functions of the Service; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Service enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Service minimize the burden of this collection on the respondents, including through the use of information technology.

Comments that you submit in response to this notice are a matter of public record. We will include or summarize each comment in our request to OMB to approve this ICR. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Abstract: Our Regional Migratory Bird Permit Offices use information that we collect on permit applications to determine the eligibility of applicants for permits requested in accordance with the criteria in various Federal wildlife conservation laws and international treaties, including:

- (1) Migratory Bird Treaty Act (16 U.S.C. 703 *et seq.*).
- (2) Lacey Act (18 U.S.C. 42; 16 U.S.C. 3371 *et seq.*).
- (3) Bald and Golden Eagle Protection Act (16 U.S.C. 668 *et seq.*).

Service regulations implementing these statutes and treaties are in chapter I, subchapter B of title 50 of the Code of Federal Regulations (CFR). These regulations stipulate general and specific requirements that, when met, allow us to issue permits to authorize activities that are otherwise prohibited.

With the exception of Forms 3-186 and 3-186a, all Service permit applications are in the 3-200 and 3-202 series of forms, each tailored to a specific activity based on the requirements for specific types of permits. For this revision, we combined Forms 3-200-10c and 3-200-10d into one form (3-200-10c) to reduce the number of application forms and help streamline the application process. Since both forms dealt with possession for education purposes, and asked

virtually the same questions of the applicant, there was no need to have separate forms. We collect standard identifier information for all permits. The information that we collect on applications and reports is the minimum necessary for us to determine if the applicant meets/continues to meet issuance requirements for the particular activity.

Proposed Revisions to This Information Collection

With this submission, we are proposing the following revisions to the existing information collection:

Transfer of Eagle Requirements to OMB Control No. 1018-0167

Information collection requirements associated with the Federal fish and wildlife permit applications and reports for both migratory birds and eagles are currently approved under a single OMB control number, 1018-0022, "Federal Fish and Wildlife Permit Applications and Reports—Migratory Birds and Eagles; 50 CFR 10, 13, 21, 22." With this submission to OMB, we are proposing to reinstate OMB Control Number 1018-0167, "Eagle Take Permits and Fees, 50 CFR 22" in order transfer the eagle requirements back in to a separate information collection. This transfer will facilitate easier management of the information collection requirements associated with eagles. We are not proposing any changes to the currently approved eagle requirements. This request will simply transfer the information collection requirements associated with eagles back in to their original collection under OMB Control Number 1018-0167.

ePermits Initiative

The Service will request OMB approval to automate certain migratory bird permit forms. The Service's new "ePermits" initiative is an automated permit application system that will allow the agency to move towards a streamlined permitting process to reduce public burden. Public burden reduction is a priority for the Service; the Assistant Secretary for Fish, Wildlife, and Parks; and senior leadership at the Department of the Interior. The intent of the ePermits initiative is to fully automate the permitting process to improve the customer experience and to reduce time burden on respondents. This new system will enhance the user experience by allowing users to enter data from any device that has internet access, including personal computers (PCs), tablets, and smartphones. It will also link the permit applicant to the *Pay.gov*
