AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA is convening a half-day public workshop to discuss the Agency's draft administrative policies and procedures for completing the initial screening and testing under EPA's Endocrine Disruptor Screening Program (EDSP). In the **Federal Register** issue of December 13, 2007 (72 FR 70842) (FRL-8340-3), EPA announced the availability for public review and comment of the draft policies and procedures EPA is considering adopting for conducting the initial screening and testing under EDSP. A 1-day public workshop was held on December 17, 2007, in Arlington, VA to help the public understand the draft policies and procedures. Subsequently, EPA extended the public comment period for the draft policies and procedures by 30 days in the **Federal Register** issue of February 6, 2008 (73 FR 6963) (FRL-8351-2). The public comment period now ends March 12, 2008. The purpose of the second public workshop, announced in this notice, is to provide another opportunity for the public to ask questions about the draft EDSP policies and procedures.

DATES: The meeting will be held on Thursday, February 28, 2008, from 9 a.m. to noon.

Special accommodations: For information on access or services for individuals with disabilities, and to request accommodation of a disability, please contact the person listed under **FOR FURTHER INFORMATION CONTACT** at least 10 days prior to the meeting to give EPA as much time as possible to process your request.

ADDRESSES: The meeting will be held at the Environmental Protection Agency, Conference Center-Lobby Level, One Potomac Yard (South Bldg.), 2777 S. Crystal Dr., Arlington, VA 22202.

SUPPLEMENTARY INFORMATION:

I. Who Should Attend?

You may be interested in attending this workshop if you produce, manufacture, use, or import pesticide/agricultural chemicals and other chemical substances; or if you are or may otherwise be involved in the testing of chemical substances for potential endocrine effects. To determine whether you or your business may have an interest in this workshop, you should carefully examine section 408(p) of the Federal Food, Drug, and Cosmetic Act (FFDCA) (21 U.S.C. 346a(p)).

II. Why Hold a Second Workshop?

EPA is holding a half-day workshop to facilitate the public's comments on the draft policies and procedures that EPA is considering for conducting the initial screening and testing of chemicals under the EDSP. The workshop is a second opportunity for the public, stakeholders, and the regulated community to discuss the draft EDSP policies and procedures currently available for public comment. Although the workshop is not intended to collect oral comments, the Agency intends to consider the discussion and will be documenting the discussion for the public docket.

In addition to attending this workshop, EPA invites you to provide comments on the draft policies and procedures for initial EDSP screening and testing. The December 13, 2007 **Federal Register** document that announced the availability of draft policies and procedures for public comment included a specific list of questions on which the Agency is specifically seeking comment. This list, along with an agenda for the workshop, will be posted on the Agency's website at <http://www.epa.gov/scipoly/oscpendo/index.htm> and provided at the workshop. SUPPLEMENTARY INFORMATION: EPA is submitting the Draft Nanomaterial Research Strategy for independent, external peer review. Public comments received in the docket will be shared with the external peer review panel for their consideration. Although EPA is under no obligation to do so, EPA may consider comments received after the close of the comment period. The public release of this draft document is solely for the purpose of seeking public comment and peer review. This draft research strategy does not represent and should not be construed to represent any EPA policy, viewpoint, or determination.

The Draft Nanomaterial Research Strategy identifies research needs and outlines research for environmental implications; recognizing the latter need for exploring environmental applications of nanotechnology that can inform the appropriate regulatory and policy decisions for nanotechnology. The draft research strategy provides a discussion of research to be conducted both in-house and extramurally to understand the impact of engineered nanomaterials. The purpose of this strategy is to guide the EPA's Office of Research and Development (ORD) program in nanomaterial research. The strategy builds on and is consistent with the foundation of scientific needs identified in the report by the Nanotechnology Environmental and Health Implications (NEHI) Workgroup (NSTC, 2006), and on the EPA White Paper on Nanotechnology (EPA, 2007). Special attention is given to EPA's role among Federal Agencies in addressing data needs for hazard assessment, risk assessment, and risk management relevant to the EPA mission and regulatory responsibilities. ORD will use the NRS and incorporate these research activities into the multi-year planning process.

ORD has identified four key research themes and seven key scientific questions addressing each of the research themes where we can provide leadership for the Federal government research program and support the science needs of the Agency. The themes are: (1) Sources, fate, transport, and exposure; (2) human health and

ecological research; (3) risk assessment methods and case studies; and (4) preventing and Mitigating Risks. Supplemental information is provided in a number of appendices. Following the expert external peer review, EPA plans to issue a final research strategy on nanotechnology in mid-2008.

Dated: February 1, 2008.

Kevin Teichman,

Acting Deputy Assistant Administrator for Science, Office of Research and Development.
