

these proposed directives would include appropriate site-specific environmental analysis and public involvement. The proposed directives would have no effect on the ground until designations of roads, trails, and areas are completed at the field level, with opportunity for public involvement. Section 31b of Forest Service Handbook 1909.15 (57 FR 43180, September 18, 1992) excludes from documentation in an environmental assessment or environmental impact statement "rules, regulations, or policies to establish Service-wide administrative procedures, program processes, or instructions." The agency's conclusion is that these proposed directives fall within this category of actions and that no extraordinary circumstances exist which would require preparation of an environmental assessment or environmental impact statement.

Regulatory Impact

The proposed directives have been reviewed under USDA procedures and E.O. 12866 on regulatory planning and review. The Office of Management and Budget (OMB) has determined that these proposed directives are not significant for purposes of E.O. 12866. These proposed directives would not have an annual effect of \$100 million or more on the economy, nor would they adversely affect productivity, competition, jobs, the environment, public health and safety, or State and local governments. These proposed directives would not interfere with any action taken or planned by another agency, nor would they raise new legal or policy issues. Finally, these proposed directives would not alter the budgetary impact of entitlements, grants, user fees, or loan programs or the rights and obligations of beneficiaries of such programs. Accordingly, these proposed directives are not subject to OMB review under E.O. 12866.

Regulatory Flexibility Act Analysis

These proposed directives have been considered in light of the Regulatory Flexibility Act (5 U.S.C. 602 et seq.). The proposed directives would not have any effect on small entities as defined by the Regulatory Flexibility Act. The proposed directives would require identification at the field level, with public input, of a designated system of roads, trails, and areas for motor vehicle use. The proposed directives would not directly affect small businesses, small organizations, and small governmental entities. The agency has determined that these proposed directives would not have a significant economic impact on

a substantial number of small entities pursuant to the Regulatory Flexibility Act because the directives would not impose recordkeeping requirements on them; would not affect their competitive position in relation to large entities; and would not affect their cash flow, liquidity, or ability to remain in the market.

No Takings Implications

These proposed directives have been analyzed in accordance with the principles and criteria contained in E.O. 12630. It has been determined that these directives would not pose the risk of a taking of private property.

Federalism and Consultation and Coordination With Indian Tribal Governments

The agency has considered these proposed directives under the requirements of E.O. 13132 on federalism, and has determined that the proposed directives conform with the federalism principles set out in this E.O.; would not impose any compliance costs on the States; and would not have substantial direct effects on the States, the relationship between the Federal government and the States, or the distribution of power and responsibilities among the various levels of government. Therefore, the agency has determined that no further assessment of federalism implications is necessary.

Moreover, these proposed directives would not have Tribal implications as defined by E.O. 13175, Consultation and Coordination With Indian Tribal Governments, and therefore advance consultation with Tribes is not required.

Energy Effects

These proposed directives have been reviewed under E.O. 13211 of May 18, 2001, Actions Concerning Regulations That Significantly Affect the Energy Supply. It has been determined that these proposed directives would not constitute a significant energy action as defined in the E.O.

Unfunded Mandates

Pursuant to Title II of the Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538), which the President signed into law on March 22, 1995, the agency has assessed the effects of these proposed directives on State, local, and Tribal governments and the private sector. These proposed directives would not compel the expenditure of \$100 million or more by any State, local, or Tribal government or anyone in the private sector. Therefore, a statement

under section 202 of the act is not required.

Controlling Paperwork Burdens on the Public

These proposed directives do not contain any recordkeeping or reporting requirements or other information collection requirements as defined in 5 CFR part 1320 that are not already required by law or not already approved for use. Accordingly, the review provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 et seq.) and its implementing regulations at 5 CFR part 1320 do not apply.

Therefore, for the reasons set out in this notice, the Forest Service proposes to amend FSM 2350, 7700, and 7710 and FSH 7709.55. The proposed directives are available for review on the Forest Service Web site at <http://www.fs.fed.us/recreation/programs/ohv>.

SUPPLEMENTARY INFORMATION:

Additions

On January 12, 2007, the Committee for Purchase From People Who Are

Blind or Severely Disabled published notice (72 FR 1490, 1491) of proposed additions to the Procurement List.

After consideration of the material presented to it concerning capability of qualified nonprofit agencies to provide the products and services and impact of the additions on the current or most recent contractors, the Committee has determined that the products and services listed below are suitable for procurement by the Federal Government under 41 U.S.C. 46–48c and 41 CFR 51–2.4.

Regulatory Flexibility Act Certification

I certify that the following action will not have a significant impact on a substantial number of small entities. The major factors considered for this certification were:

1. The action will not result in any additional reporting, recordkeeping or other compliance requirements for small entities other than the small organizations that will furnish the products and services to the Government.

2. The action will result in authorizing small entities to furnish the products and services to the Government.

3. There are no known regulatory alternatives which would accomplish the objectives of the Javits-Wagner-O'Day Act (41 U.S.C. 46–48c) in connection with the products and services proposed for addition to the Procurement List.

End of Certification

Accordingly, the following products and services are added to the Procurement List:
