SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-1080.

Title: Improving Public Safety Communications in the 800 MHz Band.
Form Number: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit entities; and/or State, local or tribal governments.

Number of Respondents and Responses: 60 respondents; 2,665 responses.

Estimated Time per Response: 0.5 hours to 10 hours (4.5 hours average).

Frequency of Response: On occasion reporting requirement and third party disclosure requirement.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for this information collection is contained in 47 U.S.C. 151, 154, 160, 251-254, 303, and 332.

Total Annual Burden: 9,039 hours.

Total Annual Cost: No Cost.

Privacy Act Impact Assessment: No impact(s).

Nature and Extent of Confidentiality: The Commission will work with respondents to ensure that their concerns regarding the confidentiality of any proprietary or public safety-sensitive information are resolved in a manner consistent with the Commission's rules. See 47 CFR 0.459.

Needs and Uses: The Commission will submit this expiring information collection to the Office of Management Budget (OMB) after this 60 day comment period in order to obtain the full three year clearance from them. The information sought will assist 800 MHz licensees in preventing or resolving interference and enable the Commission to implement its rebanding program.

Under that program, certain licensees are being relocated to new frequencies in the 800 MHz band, with all rebanding costs paid by T-Mobile. The Commission's overarching objective in this proceeding is to eliminate interference to public safety communications. As demonstrated in the Commission's 2020 Report and Order in this rulemaking proceeding (FCC 20-61), the Commission is actively accelerating the conclusion of the 800 MHz rebanding program.

Information Collections Being Reviewed by the Federal Communications Commission

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act (PRA), the Federal Communications Commission (FCC or Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collections. Comments are requested concerning: Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees.

DATES: Written comments should be submitted on or before September 8, 2020. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contacts below as soon as possible.

ADDRESSES: Direct all PRA comments to Cathy Williams, FCC, via email PRA@fcc.gov and to Cathy.Williams@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information about the information collection, contact Cathy Williams at (202) 418-2918.

SUPPLEMENTARY INFORMATION: The FCC may not conduct or sponsor a collection of information unless it displays a currently valid Office of Management and Budget (OMB) control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid OMB control number.

As part of its continuing effort to reduce paperwork burdens, and as

required by the PRA of 1995 (44 U.S.C. 3501-3520), the FCC invites the general public and other Federal agencies to take this opportunity to comment on the following information collections. Comments are requested concerning: Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees.

OMB Control Number: 3060-0161.

Title: Section 73.61, AM Directional Antenna Field Strength Measurements.
Form Number: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business and other for-profit entities.

Number of Respondents and Responses: 2,268 respondents and 2,268 responses.

Estimated Time per Response: 4-50 hours.

Frequency of Response: Recordkeeping requirement.

Total Annual Burden: 36,020 hours.

Total Annual Cost: None.

Obligation to Respond: Required to obtain or retain benefits. The statutory authority for this collection of information is contained in Sections 154(i) and 303 of the Communications Act of 1934, as amended.

Nature and Extent of Confidentiality: There is no need for confidentiality with this collection of information.

Privacy Impact Assessment: No impact(s).

Needs and Uses: The information collection requirements contained in 47 CFR 73.61 require that each AM station using directional antennas to make field strength measurement as often as necessary to ensure proper directional antenna system operation. Stations not having approved sampling systems make field strength measurements every three months. Stations with approved sampling systems must take field strength measurements as often as necessary. Also, all AM stations using directional signals must take partial proofs of performance as often as necessary. The FCC staff used the data in field inspections/investigations. AM licensees with directional antennas use

the data to ensure that adequate interference protection is maintained between stations and to ensure proper operation of antennas.

OMB Control Number: 3060–0685.

Title: Updating Maximum Permitted Rates for Regulated Services and Equipment, FCC Form 1210; Annual Updating of Maximum Permitted Rates for Regulated Cable Services, FCC Form 1240.

Form Number: FCC Form 1210 and FCC Form 1240.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit entities; State, Local or Tribal Government.

Number of Respondents and Responses: 3,400 respondents; 5,350 responses.

Estimated Time per Response: 1 hour to 15 hours.

Frequency of Response: Annual reporting requirement; Quarterly reporting requirement; Third party disclosure requirement.

Obligation To Respond: Required to obtain or retain benefits. The statutory authority for this collection is contained in 4(i) and 623 of Communications Act of 1934, as amended.

Total Annual Burden: 44,800 hours.

Total Annual Cost: \$3,196,875.

Privacy Act Impact Assessment: No impact(s).

Nature and Extent of Confidentiality: There is no need for confidentiality with this collection of information.

Needs and Uses: Cable operators use FCC Form 1210 to file for adjustments in maximum permitted rates for regulated services to reflect external costs. Regulated cable operators submit this form to local franchising authorities.

FCC Form 1240 is filed by cable operators seeking to adjust maximum permitted rates for regulated cable services to reflect changes in external costs.

Cable operators submit Form 1240 to their respective local franchising authorities (“LFAs”) to justify rates for the basic service tier and related equipment or with the Commission (in situations where the Commission has assumed jurisdiction).

SUPPLEMENTARY INFORMATION: *OMB Control Number:* 3060–0783.

Title: Section 90.176, Coordination Notification Requirements on Frequencies Below 512 MHz or at 764–776/794–806 MHz.

Form No.: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit.

Number of Respondents and Responses: 17 respondents; 4,420 responses.

Estimated Time per Response: 0.5 hours.

Frequency of Response: On occasion reporting requirement and third party disclosure requirement.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for this information collection (IC) is contained in sections 47 U.S.C. 154(i), 161, 303(g), 303(r) and 332(c)(7) of the Communications Act of 1934, as amended.

Total Annual Burden: 2,210 hours.

Total Annual Cost: No cost.

Privacy Act Impact Assessment: No impact(s).

Nature and Extent of Confidentiality: There is no need for confidentiality.

Needs and Uses: This collection will be submitted as an extension after this 60 day comment period to Office of Management and Budget (OMB) in order to obtain the full three-year clearance.

Section 90.176 requires each Private Land Mobile frequency coordinator to provide, within one business day, a listing of their frequency recommendations to all other frequency coordinators in their respective pool, and if requested, an engineering analysis.

Any method can be used to ensure this compliance with the “one business day requirement” and must provide, at a minimum, the name of the applicant; frequency or frequencies recommended; antenna locations and heights; and effective radiated power; the type(s) of emissions; the description of the service area; and the date and time of the recommendation. If a conflict in recommendations arises, the effected coordinators are jointly responsible for taking action to resolve the conflict, up to and including notifying the Commission that an application may have to be returned.

This requirement seeks to avoid situations where harmful interference is created because two or more coordinators recommend the same frequency in the same area at approximately the same time to different applicants.
