BILLING CODE 3510–16–P

CONSUMER PRODUCT SAFETY COMMISSION

[Docket No. CPSC–2012–0054]

Agency Information Collection Activities; Extension of Collection; Comment Request; Safety Standard for Automatic Residential Garage Door Operators

AGENCY: Consumer Product Safety Commission.

ACTION: Notice of Information Collection; Request for Comment.

SUMMARY: As required by the Paperwork Reduction Act of 1995 (PRA), the Consumer Product Safety Commission (CPSC or Commission) requests comments on a proposed extension of approval of information collection requirements associated with the Safety Standard for Automatic Residential Garage Door Operators. The Office of Management and Budget (OMB) previously approved the collection of information under control number 3041–0125. OMB's most recent extension of approval will expire on September 30, 2025. The Commission will consider all comments received in response to this notice before requesting an extension of this collection of information from OMB.

DATES: Submit comments on the collection of information by August 22, 2025.

ADDRESSES: You may submit comments, identified by Docket No. CPSC–2012–0054, within 60 days of publication of

this notice by any of the following methods:

Electronic Submissions: Submit electronic comments to the Federal eRulemaking Portal at: <https://www.regulations.gov>. Follow the instructions for submitting comments. Do not submit through this website: confidential business information, trade secret information, or other sensitive or protected information that you do not want to be available to the public. The Commission typically does not accept comments submitted by email, except as described below.

Mail/Hand Delivery/Courier/Written Submissions: CPSC encourages you to submit electronic comments by using the Federal eRulemaking Portal. You may, however, submit comments by mail/hand delivery/courier to: Office of the Secretary, U.S. Consumer Product Safety Commission, 4330 East-West Highway, Bethesda, MD 20814; telephone (301) 504–7479.

Instructions: All submissions received must include the agency name and docket number for this notice. CPSC may post all comments without change, including any personal identifiers, contact information, or other personal information provided, to: <https://www.regulations.gov>. If you wish to submit confidential business information, trade secret information, or other sensitive or protected information that you do not want to be available to the public, you may submit such comments by mail, hand delivery, or courier, or you may email them to cpsc-os@cpsc.gov.

Docket: For access to the docket to read background documents or comments received, go to: <https://www.regulations.gov>, insert docket number CPSC–2012–0054 into the “Search” box, and follow the prompts.

FOR FURTHER INFORMATION CONTACT: Cynthia Gillham, Consumer Product Safety Commission, 4330 East-West Highway, Bethesda, MD 20814; (301) 504–7791, or by email to: pra@cpsc.gov.

SUPPLEMENTARY INFORMATION: CPSC seeks to renew the following currently approved collection of information:

Title: Standard for Automatic Residential Garage Door Operators.

OMB Number: 3041–0125.

Type of Review: Renewal of collection.

Frequency of Response: On occasion.

Affected Public: Manufacturers, importers, and private labelers of automatic residential garage door operators.

General Description of Collection: On December 22, 1992, the Commission issued rules prescribing requirements

for a reasonable testing program to support certificates of compliance with the Safety Standard for Automatic Residential Garage Door Operators (57 FR 60449). These regulations also require manufacturers, importers, and private labelers of residential garage door operators to establish and maintain records to demonstrate compliance with the requirements for testing to support certification of compliance. 16 CFR part 1211, subparts B and C.

Estimated Number of Respondents: An estimated 17 firms that conduct performance tests and maintain records based on the test results to retain UL certification and verify compliance with the rule.

Estimated Time per Response: Based on staff's review of industry sources, each respondent will spend an estimated 40 hours (35 hours for PRA burden associated with testing and 5 hours for recordkeeping) annually on the collection of information related to the rule.

Total Estimated Annual Burden: 680 hours (17 firms × 40 hours).

Total Estimated Annual Cost to Respondents: Using compensation data available from the U.S. Bureau of Labor Statistics (BLS), Employer Costs for Employee Compensation (December 2024, https://www.bls.gov/news.release/archives/eccec_03142025.pdf), staff estimates that the total annual cost of the PRA burden associated with the testing requirement is estimated to be about \$45,101, based on an hourly rate of \$75.80 as total compensation for management, professional, and related occupations in goods-producing private industries (17 firms × 35 hours × \$75.80). Staff also estimates that the total annual cost of the recordkeeping burden is estimated to be about \$3,472 based on an hourly rate of \$40.85 for sales and office workers (17 firms × 5 hours × \$40.85). Therefore, the total burden cost is about \$48,573 (\$45,101 + \$3,472). This estimate includes professional and clerical time that may be spent to retrieve product data from automated or other records systems, explain firm practices/policies intended to assure compliance with the standard, or accompany Commission personnel during inspections.

Request for Comments: The Commission solicits written comments from all interested persons about the proposed collection of information. The Commission specifically solicits information relevant to the following topics:

- whether the collection of information described above is necessary for the proper performance of the Commission's functions, including

whether the information would have practical utility;

- whether the estimated burden of the proposed collection of information is accurate;
- whether the quality, utility, and clarity of the information to be collected could be enhanced; and
- whether the burden imposed by the collection of information could be minimized by use of automated, electronic or other technological collection techniques, or other forms of information technology.

Alberta E. Mills,

Secretary, Consumer Product Safety Commission.

BILLING CODE 6355–01–P

DEPARTMENT OF DEFENSE

Department of the Navy

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

Notice of Public Meetings for Pacific Missile Range Facility and Kōke'e Park Geophysical Observatory Environmental Impact Statement (ID# EISX-007-17-USN-1749043386)

AGENCY: Department of the Navy (DoN), Department of Defense (DoD); National Aeronautics and Space Administration (NASA).

ACTION: Notice.

SUMMARY: Pursuant to the National Environmental Policy Act (NEPA) and regulations implemented by the DoN and NASA, as joint lead agencies, DoN and NASA have prepared and filed with the United States (U.S.) Environmental Protection Agency a Draft Environmental Impact Statement (EIS) for retaining the use of state lands on Kaua'i, Hawai'i (HI) in support current operations that occur on these lands. The Draft EIS includes an analysis of the potential environmental effects associated with the continued long-term DoD use of 8,172 acres of State lands on Kaua'i for operational continuity and sustainment (in support of continued military training, testing, and facility operations) at the Pacific Missile Range Facility (PMRF), and the continued long-term NASA use of 23 acres of State lands on Kaua'i in support of continued operations (including measurements of the Earth's rotation and local land motion) at the Kōke'e Park Geophysical Observatory (KPGO). As the Proposed Action involves State lands, the EIS is a joint NEPA and Hawai'i Environmental Policy Act (HEPA) (as

governed by Hawai'i Revised Statutes (HRS) Chapter 343), and Hawai'i Administrative Rules (HAR) (implementing HRS Chapter 343) document; therefore, the public review processes will run concurrently and will jointly meet NEPA and HEPA requirements.

DATES: The 48-day public comment period begins June 20, 2025, and ends August 7, 2025. In support of NEPA and HEPA requirements, in-person public meetings (with some of the meetings live-broadcasted) will be held in Kaua'i, HI from July 15 through 17, 2025, to provide an overview of the Draft EIS, answer questions from the public, and provide the public an opportunity to provide oral comments. Each meeting will also provide an opportunity to learn how the DoN and NASA are complying with the Section 106 process of the National Historic Preservation Act (NHPA) and to comment on potential effects on historic properties. The public can submit comments during the Draft EIS public review and comment period at one of the public meetings, electronically via the project website (<https://pmrf-kpgo-eis.com/>), or via U.S. mail. Public comments on the Draft EIS must be postmarked or received online by 11:59 p.m. HI Standard Time (HST) Thursday, August 7, 2025, for consideration in the Final EIS.

Three in-person public meetings with a virtual component will be held as follows:

1. July 15, 2025, from 5 p.m. to 8 p.m. HST at Kaua'i Veterans Center, 3215 Kaua'i Veterans Memorial Highway, Lihue, HI 96766;

2. July 16, 2025, from 5 p.m. to 8 p.m. HST at Kekaha Neighborhood Center, 8130 Elepaio Road, Kekaha, HI 96752;

3. July 17, 2025, from 5 p.m. to 8 p.m. HST at Sheraton Coconut Beach Resort, 650 Aleka Loop, Kapa'a, HI 96746.

ADDRESSES: Comments on the Draft EIS may be provided at the public meetings, electronically through the project website at: <https://pmrf-kpgo-eis.com/>, or by U.S. mail to: Naval Facilities Engineering Systems Command, Hawai'i; Attention: PMRF and KPGO Real Estate EIS Project Manager, Ms. Kerry Ling; 400 Marshall Road, Building X-11; Pearl Harbor, HI 96860.

FOR FURTHER INFORMATION CONTACT: DoN: Commander, Navy Region Hawai'i, Attn: Mr. Daniel Sanford, Outreach Public Affairs Specialist, by telephone (808-473-2890) or email (Daniel.f.sanford.civ@us.navy.mil and chrh.pao@us.navy.mil).

NASA: Shari A. Miller, NASA; EIS Project Manager, by telephone (757-824-2327) or email (Shari.A.Miller@nasa.gov), or visit the project website: <https://pmrf-kpgo-eis.com/>.

nasa.gov), or visit the project website: <https://pmrf-kpgo-eis.com/>.

SUPPLEMENTARY INFORMATION: The DoN's purpose for the Proposed Action is to maintain long-term DoD use of 8,172 acres of State lands (including leaseholds and easement lands) on Kaua'i, HI for operational continuity and sustainment of the military readiness mission. NASA's purpose for the Proposed Action is to maintain long-term use of 23 acres of State land (including leaseholds and easement lands) on Kaua'i, HI for continued operations of KPGO. The Proposed Action is needed because the existing real estate agreements for these state lands are set to expire between 2027 and 2030. The Navy use of these state lands is required to maintain technological and safety capabilities supporting PMRF training and testing. For NASA, these state lands are critical to maintain data collection efforts of global significance.

It also ensures the continued conservation management by the DoN and NASA of natural and cultural resources on these lands.

For the State of HI Board of Land and Natural Resources (BLNR), in addition to its role as the lessor of state lands, the proposed real estate action presents an opportunity for the agency to secure a revenue source to support its management of public lands and associated environmental and conservation programs. Fees from leases and easements would be put into a state fund, as required by law. Twenty percent of ceded land revenue (fees from the leaseholds and easement lands) would go to the Office of Hawaiian Affairs, and the rest to the Special Land Development Fund, as required by law.

By ensuring continued DoN and NASA operations on Kaua'i, the real estate action would also preserve local jobs and income for the residents of Kaua'i, financially contribute to the overall economic well-being of Kaua'i, and maintain continued conservation management of natural and cultural resources on state lands at no cost to the State of HI.

The DoN and NASA are considering two Action Alternatives that are carried forward for analysis in the EIS, along with the No Action Alternative. The type of real estate agreement differentiates the alternatives.

Alternative 1 (Succeeding Current Real Estate Agreements): The DoN and NASA would secure new real estate agreements with the State of HI for the same areas they currently hold in leaseholds and easements with no change to current footprint or use of state lands.
