

the Committee's 45th annual session in mid-2024.

This property has been selected from the U.S. World Heritage Tentative List, which comprises properties that appear to qualify for World Heritage status, and which may be considered for nomination by the United States to the World Heritage List, as required by the World Heritage Committee's *Operational Guidelines*.

The U.S. World Heritage Tentative List appeared in a **Federal Register** notice on January 11, 2021 (86 FR 1999), as required by 36 CFR 73.7(c) with a request for public comment on possible nominations from the 19 sites on the Tentative List. A summary of the comments received, the Department of the Interior's responses to them and the Department's decision to request preparation of this nomination appeared in a subsequent **Federal Register** notice published on February 1, 2022 (87 FR 5498–5499). These are the First and Second Notices required by 36 CFR 73.7(c) and (f).

In making the decision to submit this U.S. World Heritage nomination, pursuant to 36 CFR 73.7(h) and (i), the Department's Assistant Secretary for Fish and Wildlife and Parks evaluated the draft nomination and the recommendations of the Federal Interagency Panel for World Heritage. She determined that the property meets the prerequisites for nomination by the United States to the World Heritage List that are detailed in 36 CFR part 73. The properties are nationally significant, being part of a National Historic Landmark district designated by the Department of the Interior. The owners of the properties have concurred in writing with the nomination, and each property is well protected legally and functionally as documented in the nomination. It appears to meet two of the World Heritage criteria for cultural properties.

"Moravian Church Settlements" are nominated under World Heritage cultural criteria (iii) and (iv), as provided in 36 CFR 73.9(b)(1), as a group, or "series," that collectively appears to justify criterion (iii) as an exceptional testimony to the Moravian Church's distinct religious and social ideals which are expressed in the towns' layouts, architecture, and craftsmanship, as well as the fact that numerous buildings are still used either for their original function or the continuation of Moravian Church activities and traditions. The series also justifies criterion (iv) as an outstanding example of intentional religious town planning within the Protestant tradition; each settlement bears witness to the

Moravian Church vision of a unified and coherent urban design, inspired by ancient and biblical concepts of the 'ideal city' and anticipating Enlightenment ideals of equality and social improvement that became a reality only much later in many places. The settlements, both individually and as a group, also meet the World Heritage requirements for integrity and authenticity.

The World Heritage List is an international list of cultural and natural properties nominated by the signatories to the World Heritage Convention (1972). The World Heritage Committee, composed of representatives of 21 nations elected as the governing body of the World Heritage Convention, makes the final decisions on which nominations to accept on the World Heritage List at its annual meeting each summer. Although the United States is not a member of UNESCO, it continues to participate in the World Heritage Convention, which is an independent treaty. There are 1,154 World Heritage sites in 167 of the 194 signatory countries. The United States has 24 sites inscribed on the World Heritage List.

U.S. participation and the role of the Department of the Interior are authorized by title IV of the National Historic Preservation Act Amendments of 1980, Public Law 96–515, 94 Stat. 2987, 3000, codified as amended at 54 U.S.C. 307101, and conducted by the Department through the National Park Service in accordance with the regulations at 36 CFR part 73 which implement the Convention pursuant to the 1980 Amendments.

Neither inclusion in the Tentative List nor inscription as a World Heritage Site imposes legal restrictions on owners or neighbors of sites, nor do they give the United Nations any management authority or ownership rights in U.S. World Heritage Sites, which continue to be subject only to U.S. federal and local laws, as applicable.

Authority: 54 U.S.C. 307101; 36 CFR part 73.

Shannon A. Estenoz,

Assistant Secretary for Fish and Wildlife and Parks.

BILLING CODE 4312–52–P

DEPARTMENT OF THE INTERIOR

Bureau of Ocean Energy Management

[Docket No. BOEM–2023–0011]

Notice of Availability of a Draft Environmental Impact Statement for SouthCoast Wind Energy, LLC's (Formerly Mayflower Wind Energy, LLC) Proposed Wind Energy Facility Offshore Massachusetts

AGENCY: Bureau of Ocean Energy Management (BOEM), Interior.

ACTION: Notice of availability; request for comments.

SUMMARY: BOEM announces the availability of the draft environmental impact statement (DEIS) for the construction and operations plan (COP) submitted by SouthCoast Wind Energy, LLC (SouthCoast Wind) for its proposed SouthCoast Wind Project (Project) offshore Massachusetts. The DEIS analyzes the potential environmental impacts of the Project as described in the COP (the proposed action) and the alternatives to the proposed action. This notice of availability (NOA) announces the start of the public review and comment period, as well as the dates and times for public hearings on the DEIS. After BOEM holds the public hearings and addresses comments provided, BOEM will publish a final environmental impact statement (EIS). The EIS will inform BOEM's decision whether to approve, approve with modifications, or disapprove the COP. **DATES:** Comments must be received no later than April 3, 2023. BOEM will conduct three virtual public hearings. BOEM's virtual public hearings will be held on the following dates at the times (eastern time) indicated:

- Monday, March 20, 2023; 5 p.m.
- Wednesday, March 22, 2023; 1 p.m.
- Monday, March 27, 2023; 5 p.m.

Registration for the virtual public hearings is required and may be completed at <https://www.boem.gov/renewable-energy/state-activities/southcoast-wind> or by calling (703) 787–1532. Meeting information will be sent to registrants via their email address provided during registration.

ADDRESSES: The DEIS and detailed information about the Project, including the COP, can be found on BOEM's website at: <https://www.boem.gov/renewable-energy/state-activities/southcoast-wind>. Comments can be submitted in any of the following ways:

- Orally or in written form during any of the virtual public hearings identified in this NOA.
- In written form by mail or any other delivery service, enclosed in an

envelope labeled “SouthCoast Wind DEIS” and addressed to Chief, Office of Renewable Energy Programs, Bureau of Ocean Energy Management, 45600 Woodland Road, Sterling, VA 20166.

- Through the *regulations.gov* web portal: Navigate to <http://www.regulations.gov> and search for Docket No. BOEM–2023–0011. Click on the “Comment” button below the document link. Enter your information and comment, then click “Submit Comment.”

For more information about submitting comments, please see “Information on Submitting Comments” under the **SUPPLEMENTARY INFORMATION** heading below.

FOR FURTHER INFORMATION CONTACT:

Jessica Stromberg, BOEM Office of Renewable Energy Programs, 45600 Woodland Road, Sterling, Virginia 20166, (703) 787–1722 or jessica.stromberg@boem.gov.

SUPPLEMENTARY INFORMATION:

Proposed Action: SouthCoast Wind seeks approval to construct, own, operate, and maintain the Project: a wind energy facility and its associated export cables on the Outer Continental Shelf (OCS) offshore Massachusetts. The Project would be developed within the range of design parameters outlined in the SouthCoast Wind COP, subject to applicable mitigation measures.

The Project would be located about 26 nautical miles (nm) (48 kilometers) south of Martha’s Vineyard and 20 nm (37 kilometers) south of Nantucket in the area defined in BOEM’s renewable energy lease OCS–A 0521 (Leased Area). The Leased Area covers approximately 127,388 acres. The Project would comprise up to 149 positions in the Leased Area to be occupied by up to 147 wind turbine generators and up to 5 offshore substation platforms. The 149 positions will conform to a 1 nm x 1 nm grid layout with an east-west and north-south orientation, which lessees agreed will apply across all the Massachusetts and Rhode Island wind energy areas. The Project would include two export cable corridors. One corridor would be used by multiple export cables making landfall and interconnecting to the ISO New England Inc. grid in Falmouth, Massachusetts. The other corridor would be used by multiple export cables making landfall and interconnecting to the ISO New England Inc. grid at Brayton Point in Somerset, Massachusetts.

Alternatives: BOEM considered 17 alternatives when preparing the DEIS and carried forward 6 alternatives for further analysis in the DEIS. These six alternatives include five action

alternatives and the no action alternative. BOEM did not analyze in detail 11 of the alternatives because they did not meet the purpose and need for the proposed action or did not meet screening criteria, which are presented in chapter 2 of the DEIS. The screening criteria included consistency with law and regulations, technical and economic feasibility, environmental impact, and geographic considerations.

Availability of the DEIS: The DEIS, COP, and associated information are available on BOEM’s website at: <https://www.boem.gov/renewable-energy/state-activities/southcoast-wind>. BOEM has distributed digital copies of the DEIS to all parties listed in the DEIS appendix M, which also includes the location of all libraries receiving a copy. If you require a digital copy on a flash drive or paper copy, BOEM will provide one upon request, if supplies are available. You may request a flash drive or paper copy of the DEIS by calling (703) 787–1532.

Cooperating Agencies: The following eight Federal agencies and State governmental entities participated as cooperating agencies in the preparation of the DEIS: Bureau of Safety and Environmental Enforcement; U.S. Environmental Protection Agency; National Marine Fisheries Service; U.S. Army Corps of Engineers; U.S. Coast Guard; Massachusetts Office of Coastal Zone Management; Rhode Island Coastal Resources Management Council; and New York State Department of State.

Information on Submitting Comments: BOEM does not consider anonymous comments. Please include your name and address as part of your comment. BOEM makes your comment, including your name and address, available for public review online and during regular business hours. You may request that BOEM withhold your name, address, or any other personally identifiable information (PII) included in your comment from the public record; however, BOEM cannot guarantee that it will be able to do so. If you wish your name, address, or other PII to be withheld, you must state your request prominently in a cover letter and explain the harm that you fear from its disclosure such as unwarranted privacy invasion, embarrassment, or injury. Even if BOEM withholds your information in the context of this notice, your comment is subject to the Freedom of Information Act (FOIA) and any relevant court orders. If your comment is requested under FOIA or a relevant court order, your information will only be withheld if a determination is made that one of the FOIA’s exemptions to

disclosure applies or if the relevant court order is challenged. Such a determination will be made in accordance with the Department of the Interior’s FOIA regulations and applicable law.

Please label privileged or confidential information as “Contains Confidential Information,” and consider submitting such information as a separate attachment. Information that is not labeled as privileged or confidential may be regarded by BOEM as suitable for public release.

All submissions from organizations or businesses and from individuals identifying themselves as representatives or officials of organizations or businesses will be made available for public inspection in their entirety.

Authority: 42 U.S.C. 4231 *et seq.* (NEPA, as amended) and 40 CFR 1506.6.

Karen Baker,

Chief, Office of Renewable Energy Programs, Bureau of Ocean Energy Management.

BILLING CODE 4340–98–P

INTERNATIONAL TRADE COMMISSION

[Investigation Nos. 701–TA–684 and 731–TA–1597–1598 (Preliminary)]

Gas Powered Pressure Washers From China and Vietnam

Determinations

On the basis of the record¹ developed in the subject investigations, the United States International Trade Commission (“Commission”) determines, pursuant to the Tariff Act of 1930 (“the Act”), that there is a reasonable indication that an industry in the United States is materially injured by reason of imports of gas powered pressure washers from China and Vietnam, provided for in subheading 8424.30.90 and 8424.90.90 of the Harmonized Tariff Schedule of the United States, that are alleged to be sold in the United States at less than fair value (“LTFV”) and to be subsidized by the government of China.²

Commencement of Final Phase Investigations

Pursuant to section 207.18 of the Commission’s rules, the Commission also gives notice of the commencement of the final phase of its investigations. The Commission will issue a final phase

¹ The record is defined in § 207.2(f) of the Commission’s Rules of Practice and Procedure (19 CFR 207.2(f)).

² 88 FR 4807 and 88 FR4812 (January 25, 2023).
