

iPod/MP3, Internet, or any other technologies capable of providing audio entertainment services?

20. We seek comment on any other issues appropriate to our inquiry regarding whether to require SDARS or any other technologies capable of providing audio entertainment services to be incorporated into HD Radio receivers.

IV. Statutory Authority

21. We seek comment on whether the Commission has the jurisdiction to mandate the inclusion of HD Radio, SDARS, or any other audio technology in receivers. Do we have express or ancillary statutory authority to require receiver manufacturers to include certain technology in receivers? To the extent that the Commission does not have the authority to require receiver manufacturers to include certain technology in receivers, do we have authority to require iBiquity, licensees of HD Radio stations, Sirius XM, and/or other entities to certify that receivers authorized to receive content include certain mandated technology? Would such a requirement be technologically feasible, particularly in the case of a non-subscription service such as HD Radio?
