

² While the ALCO-SCREEN 02™ saliva-alcohol screening device manufactured by Chematics, Inc. passed the requirements of the Model Specifications when tested at 40 °C (104 °F), the manufacturer has indicated that the device cannot exceed storage temperatures of 27 °C (80 °F). Instructions to this effect are stated on all packaging accompanying the device. Accordingly, the device should not be stored at temperatures above 27 °C (80 °F). If the device is stored at or below 27 °C (80 °F) and used at higher temperatures (*i.e.*, within a minute), the device meets the Model Specifications and the results persist for 10–15 minutes. If the device is stored at or below 27 °C (80 °F) and equilibrated at 40 °C (104 °F) for an hour prior to sample application, the device fails to meet the Model Specifications. Storage at temperatures above 27 °C (80 °F), for even brief periods of time, may result in false negative readings.

³ Han International does not market or sell devices directly in the U. S. market. Other devices manufactured by Han International are listed under AK Solutions, Inc. and Q-3 Innovations, Inc.

⁴ The AlcoHawk ABI is the same device as that listed under Han International as the “ABI” and is manufactured for Q-3 Innovations by Han International. The Alcohawk PRO is the same device as the AlcoMate marketed and sold by AK Solutions, and also manufactured by Han International.

⁵ While this device passed all of the requirements of the Model Specifications, readings should be taken only after the time specified by the manufacturer. For valid readings, the user should follow the manufacturer's instructions. Readings should be taken one (1) minute after a sample is introduced at or above 30 °C (86 °F); readings should be taken after two (2) minutes at 18 °C–29 °C (64.4 °–84.2 °F); and readings should be taken after five (5) minutes when testing at temperatures at or below 17 °C (62.6 °F). If the reading is taken before five (5) minutes has elapsed under the cold conditions, the user is likely to obtain a reading that underestimates the actual saliva-alcohol level.

Issued on: September 13, 2005.

Marilena Amoni,

Associate Administrator for Program Development and Delivery.

DEPARTMENT OF TRANSPORTATION

Surface Transportation Board

Release of Waybill Data

The Surface Transportation Board has received a request from Baker & Miller PLLC on behalf of the Kansas City Southern Railway Company (WB595–3—9/6/2005) for permission to use certain data from the Board's 2002–2004 Carload Waybill Samples. A copy of the requests may be obtained from the Office of Economics, Environmental Analysis, and Administration.

The waybill sample contains confidential railroad and shipper data; therefore, if any parties object to these requests, they should file their objections with the Director of the Board's Office of Economics, Environmental Analysis, and Administration within 14 calendar days of the date of this notice. The rules for release of waybill data are codified at 49 CFR 1244.9.

Contact: Mac Frampton, (202) 565–1541.

[STB Finance Docket No. 34732]

Union Pacific Railroad Company— Trackage Rights Exemption—BNSF Railway Company

BNSF Railway Company (BNSF), pursuant to a modified written trackage

rights agreement entered into between BNSF and Union Pacific Railroad Company (UP), submits this verified notice for an exemption of the modified written trackage rights agreement governing UP's existing overhead trackage rights over BNSF's line of railroad between MP 365.85 at UP Jct., WA, and MP 365.14 at Fish Lake, WA, approximately 0.70 miles, on BNSF's Spokane Subdivision (the Joint Trackage).¹ The modification of trackage rights relates to UP's assumption of maintenance functions for a particular segment of the Joint Trackage, except for signal maintenance which will continue to be the responsibility of BNSF. UP will continue to have rights to use the Joint Trackage as provided in the Agreement.

The transaction was scheduled to be consummated on September 6, 2005, and operations under this exemption were planned to begin on that date.

The purpose of this transaction is to modify the Agreement to change the maintenance obligations in order to promote operating and maintenance efficiencies and better align the parties' maintenance obligations relative to usage.

As a condition to this exemption, any employees affected by the trackage rights will be protected by the conditions imposed in *Norfolk and Western Ry. Co.—Trackage Rights—BN*, 354 I.C.C. 605 (1978), as modified in *Mendocino Coast Ry., Inc.—Lease and Operate*, 360 I.C.C. 653 (1980).

This notice is filed under 49 CFR 1180.2(d)(7). If it contains false or misleading information, the exemption is void *ab initio*. Petitions to revoke the exemption under 49 U.S.C. 10502(d) may be filed at any time. The filing of

¹ UP acquired the nonexclusive right to use the Joint Trackage under an agreement dated January 27, 1972, by and between the Oregon-Washington Railroad & Navigation Company, and its lessees, UP and Burlington Northern Inc. (BNSF's predecessor in interest), as amended by a supplemental agreement dated May 6, 1982 (collectively, the Agreement).

a petition to revoke will not automatically stay the transaction.

An original and 10 copies of all pleadings, referring to STB Finance Docket No. 34732, must be filed with the Surface Transportation Board, 1925 K Street, NW., Washington, DC 20423–0001. In addition, one copy of each pleading must be served on Sarah W. Bailiff, BNSF RAILWAY COMPANY, 2500 Lou Menk Drive, P.O. Box 961039, Fort Worth, TX 76161–0039.

Board decisions and notices are available on our Web site at <http://www.stb.dot.gov>.

Decided: By the Board, David M. Konschnik, Director, Office of Proceedings.

Vernon A. Williams,

Secretary.
