

(OMB) for review and approval in accordance with the Paperwork Reduction Act. This is a proposed extension of the ICR, which is currently approved through January 31, 2023. Public comments were previously requested, via the **Federal Register**, on July 22, 2022 during a 60-day comment period. This notice allows for an additional 30 days for public comments. A fuller description of the ICR is given below, including its estimated burden and cost to the public. An agency may neither conduct nor sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

DATES: Additional comments may be submitted on or before December 28, 2022.

ADDRESSES: Submit your comments, referencing Docket ID Number EPA–HQ–OAR–2022–0077, to EPA online using <https://www.regulations.gov/> (our preferred method), or by email to docket@epa.gov, or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW, Washington, DC 20460. EPA's policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI), or other information whose disclosure is restricted by statute.

Submit written comments and recommendations to OMB for the proposed information collection within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function.

FOR FURTHER INFORMATION CONTACT:

Muntasir Ali, Sector Policies and Program Division (D243–05), Office of Air Quality Planning and Standards, U.S. Environmental Protection Agency, Research Triangle Park, North Carolina, 27711; telephone number: (919) 541–0833; email address: ali.muntasir@epa.gov.

SUPPLEMENTARY INFORMATION:

Supporting documents, which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at <https://www.regulations.gov/>, or in person, at the EPA Docket Center, WJC West

Building, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202–566–1744. For additional information about EPA's public docket, visit <http://www.epa.gov/dockets>.

Abstract: The National Emission Standards for Hazardous Air Pollutants (NESHAP) for Pulp and Paper Production (40 CFR part 63, subpart S) apply to both existing facilities and new facilities that produce pulp, paper, or paperboard by employing kraft, soda, sulfite, semi-chemical, or mechanical pulping processes using wood, or any process using secondary or non-wood fiber and that emits 10 tons per year or more of any hazardous air pollutant (HAP) or 25 tons per year or more of any combination of HAPs. Affected sources are all the HAP emission points in the pulping and bleaching system for mechanical pulping processes using wood and any process using secondary or non-wood fiber. In general, all NESHAP standards require initial notifications, performance tests, and periodic reports by the owners/operators of the affected facilities. They are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. These notifications, reports, and records are essential in determining compliance, and are required of all affected facilities subject to NESHAP.

Form Numbers: None.

Respondents/affected entities:

Owners and operators of pulp and paper production facilities.

Respondent's obligation to respond: Mandatory (40 CFR part 63, subpart S).

Estimated number of respondents: 104 (total).

Frequency of response: Semiannually.

Total estimated burden: 30,800 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$4,470,000 (per year), which includes \$766,000 in annualized capital/startup and/or operation & maintenance costs.

Changes in the Estimates: The decrease in burden from the most recently approved ICR is due to various adjustments. An adjustment decrease is due to a decrease in respondents and more accurate estimates of hours per occurrence that were used in the calculations supporting the prior renewal. The estimated number of respondents reflects Agency review of data collected from ECHO, the Agency's internal database of information collection responses from the pulp and paper industry, and current permits for

identified facilities. The hours to read and understand rule requirements were decreased for this renewal, since the prior renewal supported rule amendments. There is also a decrease in Capital/Startup vs. Operation and Maintenance (O&M) costs due to a decrease in the number of respondents.

Courtney Kerwin,

Director, Regulatory Support Division.

Information Collection Request Submitted to OMB for Review and Approval; Comment Request; NESHAP for Publicly-Owned Treatment Works (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA) has submitted an information collection request (ICR), NESHAP for Publicly-Owned Treatment Works (EPA ICR Number 1891.11, OMB Control Number 2060–0428), to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act. This is a proposed extension of the ICR, which is currently approved through January 31, 2023. Public comments were previously requested, via the **Federal Register**, on July 22, 2022 during a 60-day comment period. This notice allows for an additional 30 days for public comments. A fuller description of the ICR is given below, including its estimated burden and cost to the public. An agency may neither conduct nor sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

DATES: Additional comments may be submitted on or before December 28, 2022.

ADDRESSES: Submit your comments, referencing Docket ID Number EPA–HQ–OAR–2022–0020, to EPA online using <https://www.regulations.gov/> (our preferred method), or by email to docket@epa.gov, or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW, Washington, DC 20460. EPA's policy is that all comments received will be

included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI), or other information whose disclosure is restricted by statute.

Submit written comments and recommendations to OMB for the proposed information collection within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

SUPPLEMENTARY INFORMATION:

Supporting documents, which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at <https://www.regulations.gov>, or in person, at the EPA Docket Center, WJC West Building, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA’s public docket, visit: <http://www.epa.gov/dockets>.

Abstract: The National Emission Standards for Hazardous Air Pollutants (NESHAP) for Publicly-Owned Treatment Works (POTW) (40 CFR part 63, subpart VVV) were proposed on December 1, 1998; and promulgated on October 26, 1999; and amended on both December 22, 2008, and October 26, 2017 (82 FR 49513). These regulations apply to both existing and new Group 2 POTW located at a major source of hazardous air pollutants (HAP), or to Group 1 POTW that are either area or major sources. Group 1 POTWs are facilities that accept wastewater regulated by another NESHAP and provide treatment “as an agent” for the industrial user. Group 1 POTWs are subject to the monitoring, recordkeeping, and reporting requirements of the other regulating NESHAP but have no additional monitoring, recordkeeping, or reporting requirements under Subpart VVV. Group 2 POTWs are POTWs that do not meet the definition of a Group 1 POTW and must meet the criteria for a

pretreatment program under 40 CFR 403.8. New facilities include those that commenced either construction, or reconstruction, after the date of proposal. This information is being collected to assure compliance with 40 CFR part 63, Subpart VVV.

Form Numbers: 5900–603.

Respondents/affected entities:

Owners and operators of publicly-owned treatment works.

Respondent’s obligation to respond:

Mandatory (40 CFR part 63, Subpart VVV).

Estimated number of respondents: 13.7 (total).

Frequency of response: Initially, occasionally, semiannually and annually.

Total estimated burden: 17 hours (per year). Burden is defined as 5 CFR 1320.3(b).

Total estimated cost: \$865 (per year), which includes no annualized capital/startup and/or operation & maintenance costs.

Changes in the Estimates: The increase in burden from the most-recently approved ICR is due to an adjustment(s). The adjustment increase is due to a slight increase in the number of respondents. There is a slight increase in costs, which is due to the increased number of respondents.

Courtney Kerwin,

Director, Regulatory Support Division.

Hazardous and Solid Waste Management System: Disposal of Coal Combustion Residuals From Electric Utilities; A Holistic Approach to Closure Part A: Final Decision on Request For Extension of Closure Date Submitted by Gavin Power, LLC

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of availability (NOA) of final decision.

SUMMARY: The Environmental Protection Agency (EPA or Agency) announces the availability of the final decision denying the extension request submitted by Gavin Power, LLC (Gavin) to allow a coal combustion residuals (CCR) surface impoundment, the Bottom Ash Pond, to continue to receive CCR and non-CCR wastestreams after April 11, 2021, at the General James M. Gavin Plant located in

Cheshire, Ohio. EPA is denying the extension based on its determination that Gavin failed to demonstrate that the facility meets the requirements for an extension. As a result of this decision, Gavin is hereby required to cease receipt of waste at the Bottom Ash Pond no later than April 12, 2023 or such later date as EPA establishes to address demonstrated electric grid reliability issues.

DATES: The effective date of the final decision (“Effective Date”) is November 28, 2022.

ADDRESSES: The final decision and supporting information are available for review in the docket for this action at <https://www.regulations.gov> under Docket ID No. EPA-HQ-OLEM-2021-0590. The final decision is also posted on EPA’s website at <https://www.epa.gov/coalash>.

FOR FURTHER INFORMATION CONTACT:

Frank Behan, Materials Recovery and Waste Management Division, Office of Resource Conservation and Recovery, Environmental Protection Agency, 1200 Pennsylvania Avenue NW, MC: 5304T, Washington, DC 20460; telephone number: (202) 566-0531; email address: Behan.Frank@epa.gov. For more information on EPA’s CCR regulations, please visit <https://www.epa.gov/coalash>.

Judicial Review: Because EPA’s final action promulgates requirements under the Resource Conservation and Recovery Act (RCRA), pursuant to RCRA section 7006(a), petitions for review of this final action must be filed in the United States Court of Appeals for the District of Columbia Circuit (D.C. Circuit) within ninety days of publication of this notice in the **Federal Register**. 42 U.S.C. 6976(a)(1).

SUPPLEMENTARY INFORMATION: As documented in the final decision, EPA is taking final action to deny the request from Gavin for an extension of the date by which it must cease receipt of waste at the Bottom Ash Pond pursuant to the authority in 40 CFR 257.103(f). The Agency is denying the extension based on its determination that Gavin has not demonstrated compliance with the requirements of 40 CFR part 257, subpart D, as required in 40 CFR 257.103(f)(1)(iii).

Gavin is the owner and operator of the General James M. Gavin Plant in Cheshire, Ohio. The Gavin Plant is a coal-fired electric generation facility that generates and manages CCR on-site and is subject to the federal standards for the disposal of CCR in surface impoundments and landfills codified under 40 CFR part 257, subpart D (“regulations” or “CCR regulations”).
