**ACTION:** Notice of SEDAR Data Workshop for HMS sandbar, dusky, and blacknose sharks.

**SUMMARY:** The SEDAR assessments of the HMS stocks of sandbar, dusky, and blacknose sharks will consist of a series of workshops and webinars: a Data Workshop, a series of Assessment webinars, and a Review Workshop. See **SUPPLEMENTARY INFORMATION**.

**DATES:** The Data Workshop will take place June 21-25, 2010. See **SUPPLEMENTARY INFORMATION**.

**ADDRESSES:** The Data Workshop will be held at Embassy Suites Historic Charleston, 337 Meeting Street, Charleston, SC 29403; telephone: (843) 723-6900

**SUPPLEMENTARY INFORMATION:** The Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils, in conjunction with NOAA Fisheries and the Atlantic and Gulf States Marine Fisheries Commissions have implemented the Southeast Data, Assessment and Review (SEDAR) process, a multi-step method for determining the status of fish stocks in the Southeast Region. SEDAR is a three-step process including: (1) Data Workshop, (2) Assessment Process

utilizing webinars and (3) Review Workshop. The product of the Data Workshop is a data report which compiles and evaluates potential datasets and recommends which datasets are appropriate for assessment analyses. The product of the Assessment Process is a stock assessment report which describes the fisheries, evaluates the status of the stock, estimates biological benchmarks, projects future population conditions, and recommends research and monitoring needs. The assessment is independently peer reviewed at the Review Workshop. The product of the Review Workshop is a Summary documenting Panel opinions regarding the strengths and weaknesses of the stock assessment and input data. Participants for SEDAR Workshops are appointed by the Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils and NOAA Fisheries Southeast Regional Office and Southeast Fisheries Science Center. Participants include data collectors and database managers; stock assessment scientists, biologists, and researchers; constituency representatives including fishermen, environmentalists, and NGO's; International experts; and staff of Councils, Commissions, and state and federal agencies.

#### SEDAR 21 Data Workshop Schedule

An assessment data set and associated documentation will be developed during the Data Workshop. Participants will evaluate all available data and select appropriate sources for providing information on life history characteristics, catch statistics, discard estimates, length and age composition, and fishery dependent and fishery independent measures of stock abundance.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the Council's intent to take final action to address the emergency.

#### Solicitation of Applications for the i6 Challenge Under EDA's Economic Adjustment Assistance Program

**AGENCY:** Economic Development Administration (EDA), Department of Commerce.

**ACTION:** Notice and request for applications.

**SUMMARY:** The i6 Challenge is a new, multi-agency innovation competition led by the U.S. Department of Commerce (DOC) and its Economic Development Administration (EDA). EDA intends to fund implementation grants for technical assistance through its Economic Adjustment Assistance Program under the i6 Challenge. The DOC and EDA will coordinate this funding opportunity with the National Institutes of Health (NIH), the National Science Foundation (NSF), and the U.S. Patent and Trademark Office (USPTO) to leverage federal resources and maximize available funding to i6 Challenge winners. The i6 Challenge is designed to encourage and reward innovative, ground-breaking ideas that will accelerate technology commercialization and new venture formation across the United States, for the ultimate purpose of helping to drive economic growth and job creation. To accomplish this, the i6 Challenge targets sections of the research-to-deployment continuum that are in need of additional support, in order to strengthen regional innovation ecosystems. Applicants to the i6 Challenge are expected to propose mechanisms to fill in existing gaps in the continuum or leverage existing infrastructure and institutions, such as economic development organizations, academic institutions, or other non-profit organizations, in new and
