**SUPPLEMENTARY INFORMATION:** On November 23, 2005, Frontier Telephone of Rochester, Inc. (Frontier) filed a petition for declaratory ruling that USA Datanet (Datanet) and any similarly situated carriers must pay tariffed

originating interstate access charges for Feature Group A calls from Frontier's end users. Frontier filed its petition after the United States District Court for the Western District of New York stayed Frontier's case seeking payment of access charges from Datanet for originating Feature Group A access services. The court found it appropriate to stay the case pending the FCC's resolution of the issues raised by Frontier. In its petition, Frontier seeks a declaratory ruling that it is owed originating access charges for IP-transported Feature Group A calls for the following interstate access rate elements: (1) End office common trunk port; (2) end office local switching; (3) local transport tandem transmission—fixed; and (4) local transport tandem transmission facility. Frontier asks for consolidation of its petition with existing WC Docket No. 05–276, which is examining petitions for declaratory rulings filed by SBC and VarTec on similar IP access charge issues. We will include Frontier's petition in WC Docket No. 05–276 due to the similarity of the issues raised in the petition and in that docket.
