

“RAP” identifier is added to the first line of the route description; the type of fix for the EFFEX fix and the type of NAVAID facility for Grand Island, NE, are corrected; and the geographic coordinates of each route point are updated to be expressed in degrees, minutes, seconds, and hundredths of a second.

Regulatory Notices and Analyses

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore: (1) Is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under Department of Transportation (DOT) Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that only affects air traffic procedures and air navigation, it is certified that this rule, when promulgated, does not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

The FAA has determined that this airspace action of removing VOR

Federal airway V-61 and extending RNAV route T-286 in its place has no potential to cause any significant environmental impacts, and no extraordinary circumstances exist that warrant preparation of an environmental assessment. Therefore, this airspace action has been categorically excluded from further environmental impact review in accordance with the National Environmental Policy Act (NEPA) and its implementing regulations at 40 CFR parts 1500–1508, and in accordance with FAA Order 1050.1F, Environmental Impacts: Policies and Procedures, paragraph 5–6.5a, which categorically excludes from further environmental impact review rulemaking actions that designate or modify classes of airspace areas, airways, routes, and reporting points (see 14 CFR part 71, Designation of Class A, B, C, D, and E Airspace Areas; Air Traffic Service Routes; and Reporting Points). In accordance with FAA Order 1050.1F, paragraph 5–2 regarding Extraordinary Circumstances, the FAA has reviewed this action for factors and circumstances in which a normally categorically excluded action may have a significant environmental impact requiring further analysis. The FAA has determined no extraordinary circumstances exist that warrant preparation of an environmental assessment or environmental impact study.

DEPARTMENT OF JUSTICE

28 CFR Part 28

[Docket Number OAG–164; AG Order No. 4646–2020]

RIN 1105–AB56

DNA-Sample Collection From Immigration Detainees

AGENCY: Office of the Attorney General, Department of Justice.

ACTION: Final rule.

SUMMARY: The Department of Justice is amending regulations that require DNA-sample collection from individuals who are arrested, facing charges, or convicted, and from non-United States persons who are detained under the authority of the United States. The amendment removes a provision authorizing the Secretary of Homeland Security to exempt from the sample-collection requirement certain aliens from whom collection of DNA samples is not feasible because of operational exigencies or resource limitations. This restores the Attorney General’s plenary legal authority to authorize and direct all relevant Federal agencies, including the Department of Homeland Security, to collect DNA samples from individuals who are arrested, facing charges, or convicted, and from non-United States persons who are detained under the authority of the United States.

DATES: This rule is effective April 8, 2020.

FOR FURTHER INFORMATION CONTACT: David J. Karp, Senior Counsel, Office of Legal Policy, United States Department of Justice, Washington, DC, 202–514–3273.

SUPPLEMENTARY INFORMATION: This rule finalizes a proposed rule, DNA-Sample Collection from Immigration Detainees (OAG 164; RIN 1105–AB56) (published October 22, 2019, at 84 FR 56397), to amend regulations requiring DNA-sample collection from individuals who are arrested, facing charges, or convicted, and from non-United States persons who are detained under the authority of the United States. Specifically, the rule removes 28 CFR 28.12(b)(4), which authorizes the Secretary of Homeland Security to exempt certain detained aliens from the DNA-sample collection requirement. As a result, the rule restores the Attorney General’s plenary authority to authorize and direct all relevant Federal agencies, including the Department of Homeland Security (“DHS”), to collect DNA samples from such individuals.

Background and Purpose

The DNA Fingerprint Act of 2005, title X of Public Law 109–162, authorizes the Attorney General to collect DNA samples from individuals who are arrested, facing charges, or convicted, and from non-United States persons who are detained under the authority of the United States. *See* 34 U.S.C. 40702(a)(1)(A). The statute further authorizes the Attorney General to delegate the function of collecting DNA samples to other agencies, and to direct their discharge of this function, thereby empowering the Attorney
