SUPPLEMENTARY INFORMATION: This ICR seeks PRA authority for the Request for Intervention, Longshore and Harbor Workers' Compensation Act information collection. Parties to LHWCA claims ask OWCP District Directors (DD), who administer claims, to take a variety of routine actions, each depending on the claim. Currently, there is no uniform method for either requesting DD action or submitting the information necessary for the DD to evaluate the request. Parties submit the information in various formats. Capturing the required information in one form will save time, effort and cost for the federal government and simplify filing for the parties. The forms will also help OWCP properly classify different types of documents as it moves into a fully electronic case file environment and speed delivery of services to stakeholders.

This proposed information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless the OMB, under the PRA, approves it and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information if the collection of information does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6. For additional information, see the related notice published in the

Federal Register on August 07, 2019 (84 FR 38672).

Interested parties are encouraged to send comments to the OMB, Office of Information and Regulatory Affairs at the address shown in the **ADDRESSES** section within thirty (30) days of publication of this notice in the **Federal Register**. In order to help ensure appropriate consideration, comments should mention OMB ICR Reference Number 201910–1240–001. The OMB is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.
