SUPPLEMENTARY INFORMATION:

Background

The FAA published a notice of proposed rulemaking (NPRM) on December 31, 1996 entitled "Noise Limitations for Aircraft Operations in the Vicinity of Grand Canyon National Park" (Noise Limitations NPRM, 61 FR 69334; Notice 96-15). This NPRM proposed to establish noise efficiency limitations for certain aircraft operations in the vicinity of Grand Canyon National Park (GCNP). Given the length of time since the issuance of the NPRM, the FAA and the National Park Service (NPS) determined that an SNPRM should be issued to provide the public an opportunity to comment again in light of developments since 1996. The standards for quiet technology proposed in this SNPRM would assist the NPS achieve its statutory mandate to provide for the substantial restoration of natural quiet and experience in the GCNP. The SNPRM would also respond to the comments that the FAA received pertaining to the Noise Limitations NPRM.

A copy of a working draft of the SNPRM ("working draft") was released to an industry representative contrary to Department of Transportation policy. We regret this action. To ensure that the rulemaking process is open and fair to all, we are placing a copy of the working draft in the public docket. the **ADDRESSES** section above provides information about where you may obtain a copy of the working draft.

The FAA, DOT, NPS and Office of Management and Budget (OMB) management have not completed review of the working draft. Therefore, it may not accurately represent the agency's final proposal, if one is issued. Because the working draft is not yet a formal proposal, and may or may not be published, it is premature for the FAA to request comments on this document. We have filed the working draft in the public docket solely to ensure that all interested persons have access to

information that was released by the FAA and to ensure that the fairness and integrity of the rulemaking process is not compromised.

Issued in Washington, DC, December 7, 2001.

Paul Dykeman,

Acting Director, Office of Environment and Energy.

RIN 2115-AE84

Regulated Navigation Area; Savannah River, Georgia

AGENCY: Coast Guard, DOT.

ACTION: Supplemental notice of proposed rulemaking.

SUMMARY: The Coast Guard proposes to create a Regulated Navigation Area (RNA) on a portion of the Savannah River to regulate waterway traffic when vessels carrying Liquefied Natural Gas (LNG) are transiting or moored on the Savannah River. This action is necessary because of the size, draft, and volatile cargo of LNG tankships. This rule enhances public and maritime safety by minimizing the risk of collision, allision or grounding and the possible release of LNG.

DATES: Comments and related material must reach the Coast Guard on or before February 12, 2002.

ADDRESSES: You may mail comments and related material to Marine Safety Office Savannah, Juliette Gordon Low Federal Building, Suite 1017, 100 W. Oglethorpe, Savannah, Georgia, 31401. Marine Safety Office Savannah maintains the public docket for this rulemaking. Comments and material received from the public, as well as documents indicated in this preamble as being available in the docket [CGD07-01-037], will become part of this docket and will be available for inspection or copying at Marine Safety Office Savannah between 7:30 a.m. and 4:30 p.m., Monday through Friday, except Federal holidays.
