

Washington, DC 20503. Commenters are encouraged to submit responses electronically by e-mail to oir_submission@omb.eop.gov or via fax to (202) 395-6974. Commenters should include the following subject line in their response "Comment: [insert OMB number], [insert abbreviated collection name, e.g., "Upward Bound Evaluation"]". Persons submitting comments electronically should not submit paper copies.

SUPPLEMENTARY INFORMATION: Section 3506 of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35) requires that the Office of Management and Budget (OMB) provide interested Federal agencies and the public an early opportunity to comment on information collection requests. OMB may amend or waive the requirement for public consultation to the extent that public participation in the approval process would defeat the purpose of the information collection, violate State or Federal law, or substantially interfere with any agency's ability to perform its statutory obligations. The IC Clearance Official, Regulatory Information Management Services, Office of Management, publishes that notice containing proposed information collection requests prior to submission of these requests to OMB. Each proposed information collection, grouped by office, contains the following: (1) Type of review requested, e.g. new, revision, extension, existing or reinstatement; (2) Title; (3) Summary of the collection; (4) Description of the need for, and proposed use of, the information; (5) Respondents and frequency of collection; and (6) Reporting and/or Recordkeeping burden. OMB invites public comment.

Abstract: The current reauthorization of IDEA (2004) instructs the Department of Education to carry out a National Assessment of the law to measure: (1) Progress in the implementation of IDEA

2004; and (2) the relative effectiveness of the law in achieving its purposes. The IDEA National Assessment Implementation Study (NAIS) will inform the National Assessment by providing a representative, national picture of the implementation of early intervention and special education policies and practices at the state and district levels with a focus on new provisions included in IDEA 2004. Data collection will include three surveys of state administrators: (1) All State Part B administrators responsible for programs providing special education services to school aged children with disabilities (6-21); (2) all State 619 coordinators who oversee preschool programs for children with disabilities ages 3-5, and; (3) all State IDEA Part C coordinators who are responsible for early intervention programs serving infants and toddlers. A fourth survey will collect district level data from a nationally representative sample of local special education administrators about preschool and school-age programs for children with disabilities ages 3-21. The U.S. Department of Education has commissioned Abt Associates to conduct this study.
