SUPPLEMENTARY INFORMATION:

Title: Application and Reporting Elements for Participation in the Tanker Security Program.

OMB Control Number: 2133–0554.

Type of Request: Renewal of a previously approved information collection.

Abstract: The National Defense Authorization Act for Fiscal Year 2021 (FY21 NDAA) authorized the Secretary of Transportation to establish the Tanker Security Program (TSP) comprised of a fleet of active, commercially viable, militarily useful, privately owned product tank vessels of the United States. The fleet will meet national defense and other security requirements and maintain a United States presence in international commercial shipping. The National Defense Authorization Act for Fiscal Year 2022 (FY22 NDAA) made minor adjustments related to the participation of long-term charters in the TSP. OMB 2133–0554 (Application and Reporting Elements for Participation in the Tanker Security Program) provides for enrollment of eligible tank vessels in the program for FY 2022 through FY 2035.

This information collection supports the Department of Transportation's

strategic goal for National Security. A fuel tanker study required by the fiscal year 2020 National Defense Authorization Act (FY20 NDAA) examined the sufficiency of the U.S.-flagged tanker fleet to meet National Defense Strategy (NDS) requirements. The report's summary found there to be a substantial risk to the nation's defense associated with a heavy reliance on foreign-flagged tankers, particularly within a contested environment. The location, timing, and specific missions associated with some tanker requirements dictate the need for U.S.-flagged assets, for which there currently are insufficient numbers available. The report's gap analysis found a clear and critical need for a tanker security program to increase U.S.-flagged tanker capacity, to reduce the risk of reliance on foreign-flagged tankers for the most important fuel missions, and to ensure the Department of Defense (DoD) has sufficient tanker capabilities to meet NDS objectives.

In response to the FY20 NDAA Fuel Tanker Study, Congress directed in the FY21 NDAA, with minor adjustments in the FY22 NDAA, that the Secretary of Transportation, in consultation with the Secretary of Defense, establish a fleet of active, commercially viable, militarily useful, privately owned product tanker vessels to meet national defense and other security requirements and maintain a United States presence in international commercial shipping. The Maritime Administration worked with the DoD's United States Transportation Command to identify and shape TSP requirements and timelines.

If MARAD determines, in accordance with 46 U.S.C. 12121 and MARAD’s regulations at 46 CFR part 388, that the employment of the vessel in the coastwise trade to carry no more than 12 passengers will have an unduly adverse effect on a U.S.-vessel builder or a business that uses U.S.-flag vessels in that business, MARAD will not issue an approval of the vessel’s coastwise endorsement eligibility. Comments should refer to the vessel name, state the commenter’s interest in the application, and address the eligibility criteria given in section 388.4 of MARAD’s regulations at 46 CFR part 388.
