

ADDRESSES section of this Notice. Public scoping meetings will be conducted virtually to explain project details. Representatives from BLM will be available to answer questions. All comments must be received by the date shown in the **DATES** section.

Lead and Cooperating Agencies

The BLM is the lead Federal agency for the supplemental EIS. The BLM has invited the following to participate as cooperating agencies: the seven counties that are entirely or partially in the planning area, municipalities that participated as cooperating agencies during the RMPs/EISs, Colorado Department of Natural Resources, Colorado Parks and Wildlife, Colorado River Water Conservation District, U.S. Fish and Wildlife Service, and U.S. Bureau of Reclamation.

Responsible Official

The Colorado State Director is the deciding official for this planning effort.

Nature of Decision To Be Made

The nature of the decision to be made will be the State Director's selection of land use planning decisions for managing BLM-administered lands under the principles of multiple use and sustained yield in a manner that best addresses the purpose and need. The decision resulting from this supplemental EIS will specify which areas are allocated as open or closed to oil and gas leasing in the decision area.

Additional Information

The BLM will identify, analyze, and consider mitigation to address the reasonably foreseeable impacts to resources from all reasonable alternatives and, in accordance with 40 CFR 1502.14(f), include appropriate mitigation measures not already included in the alternatives. Mitigation may include avoidance, minimization, rectification, reduction, or elimination over time, and compensation; and may be considered at multiple scales, including the landscape scale.

The BLM will utilize and coordinate the NEPA and land use planning processes for this planning effort to help support procedural requirements under the Endangered Species Act (16 U.S.C. 1536) and Section 106 of the National Historic Preservation Act (54 U.S.C. 306108) as provided in 36 CFR 800.2(d)(3), including public involvement requirements of Section 106. The information about historic and cultural resources and threatened and endangered species within the area potentially affected by the proposed plan will assist the BLM in identifying

and evaluating impacts to such resources.

The BLM will consult with Indian Tribes on a government-to-government basis in accordance with Executive Order 13175, BLM Manual section 1780, and other Departmental policies. Tribal concerns, including impacts on Indian trust assets and potential impacts to cultural resources, will be given due consideration. Federal, State, and local agencies, along with Tribes and stakeholders that may be interested in or affected by the supplemental EIS that the BLM is evaluating, are invited to participate in the scoping process and, if eligible, may request or be requested by the BLM to participate in the development of the environmental analysis as a cooperating agency.
