SUPPLEMENTARY INFORMATION:

I. Background

The Division of Coal Mine Workers' Compensation administers the Black Lung Benefits Act (30 U.S.C. 901 *et seq.*) which provides benefits to coal miners totally disabled due to pneumoniosis, and their surviving dependents. When the Division of Coal Mine Workers' Compensation (DCMWC) makes a preliminary analysis of a claimant's eligibility for benefits, and if a coal mine operator has been identified as

potentially liable for payment of those benefits, the responsible operator is notified of the preliminary analysis. Regulations require that a coal mine operator be identified and notified of potential liability as early in the adjudication process as possible. Regulatory authority is found in 20 CFR 725.410 for the CM-2970 and 20 CFR 725.408 for the CM-2970a. This information collection is currently approved for use through January 31, 2014.

II. Review Focus

The Department of Labor is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- enhance the quality, utility and clarity of the information to be collected; and
- minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated,

electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

SUPPLEMENTARY INFORMATION:

I. *Background:* Individuals filing for benefits under the Black Lung Benefits Act (BLBA) may elect to be represented or assisted by an attorney or other representative. For those cases that are approved, 30 U.S.C. 901 of the Black Lung Benefits Act and 20 CFR 725.365-6 established standards for the information and documentation that must be submitted to the Program for review to approve a fee for services. The CM-972 is used to collect the pertinent data to determine if the representative's services and amounts charged can be paid under the Black Lung Act. This information collection is currently approved for use through January 31, 2014.

II. *Review Focus:* The Department of Labor is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

III. *Current Actions:* The Department of Labor seeks the approval for the extension of this currently-approved information collection in order to gather information to determine the amounts of Black Lung benefits paid to beneficiaries. Black Lung amounts are reduced dollar for dollar, for other Black Lung related workers' compensation awards the beneficiary may be receiving from State or Federal programs.
