A. Overview of Information Collection

Title of Information Collection: Continuum of Care Program Homeless Assistance Application—Technical Submission.

OMB Approval Number: 2506-0183.

Type of Request: Reinstatement of currently approved collection.

Form Number: HUD-40090-3a.

Description of the need for the information and proposed use: This

submission is to request an extension of a currently approved collection for reporting burden associated with the Technical Submission phase of the Continuum of Care (CoC) Program Application. This submission is limited to the Technical Submission process under the CoC Program interim rule, as authorized by the HEARTH Act. Applicants who are successful in the CoC Program Competition are required to submit more detailed technical information before grant agreement. The information to be collected will be used to ensure that technical requirements are met prior to the execution of a grant agreement. The technical requirements relate to a more extensive description of the budgets for administration costs, timelines for project implementation, match documentation and other project specific documentation, and information to support the resolution of grant conditions. HUD will use this detailed information to determine if a project is financially feasible and whether all proposed activities are eligible. All information collected is used to carefully consider conditional applicants for funding. If HUD collects less information, or collected it less frequently, the Department could not make a final determination concerning the eligibility of applicants for grant funds and conditional applicants would not be eligible to sign grant agreements and receive funding. To see the regulations for the CoC Program and applicable supplementary documents, visit HUD's Homeless Resource Exchange page at <https://www.hudexchange.info/programs/coc/>. The statutory provisions and the implementing interim rule (also found at 24 CFR part 587) that govern the program require the information provided by the Technical Submission.

Abstract: The U.S. Geological Survey (USGS) manages eight Department of the Interior (DOI) Regional Climate Adaptation Science Centers (CASCs). Each CASC involves a cooperative agreement with a host institution. The host institution agreements are periodically re-competed, requiring collection of information from potential host institutions. In addition, this information collection addresses

quarterly and annual reporting required of host institutions.

Title of Collection: Department of the Interior Regional Climate Adaptation Science Centers.

OMB Control Number: 1028-0096.

Form Number: N/A.

Type of Review: Extension of currently approved collection.

Respondents/Affected Public:

Institutions that are expected to propose to serve as CASC host or partner institutions include state, local government, and tribal entities, including academic institutions. Existing host institutions are state academic institutions.

Total Estimated Number of Annual Respondents: USGS expects to request proposals for a maximum of three CASCs in any year, and to receive an average of 5 proposals per CASC-request, for a total of 15 proposals in any single year. The USGS expects to enter into hosting agreements with a minimum of eight CASC host institutions.

Total Estimated Number of Annual Responses: The USGS would request quarterly financial statements and annual progress reports covering host agreements from eight institutions. In addition, the USGS expects to have in place approximately 40 cooperative agreements per year addressing specific research projects funded under these hosting agreements. Each of these 40 agreements requires quarterly financial statements and one annual progress report.

Estimated Completion Time per Response: Each proposal for CASC hosting is expected to take 200 hours to complete. The time required to complete quarterly and annual reports for any specific host cooperative agreement or research project agreement is expected to total 2.5 hours per report.

Total Estimated Number of Annual Burden Hours: A maximum of 3,120 hours in years when proposals are requested, and 120 hours in those years with only quarterly and annual reporting.

Respondent's Obligation: Required to Obtain or Retain a Benefit.

Frequency of Collection: Information will be collected one time every five years (approximately) for each CASC, to enable re-competition of CASC hosting agreements. In addition, host institutions are required to fill four quarterly financial statements and one annual progress report.

Total Estimated Annual Nonhour Burden Cost: There are no "non-hour cost" burdens associated with this collection of information.
