

A. Purpose

The Data Universal Numbering System (DUNS) number is the nine-digit identification number assigned by Dun and Bradstreet Information Services to an establishment. The Government uses the DUNS number to identify contractors in reporting to the Federal Procurement Data System (FPDS). The FPDS provides a comprehensive mechanism for assembling, organizing, and presenting contract placement data for the Federal Government. Federal agencies report data on all contracts in excess of the micro-purchase threshold to the Federal Procurement Data Center which collects, processes, and disseminates official statistical data on Federal contracting. Contracting officers insert the Federal Acquisition Regulation (FAR) provision at 52.204-6, Data Universal Numbering System (DUNS) Number, in solicitations they expect will result in contracts in excess of the micro-purchase threshold and do not contain FAR 52.204-7, Central Contractor Registration. This provision requires offerors to submit their DUNS number with their offer. If the offeror does not have a DUNS number, the provision provides instructions on obtaining one.
