Abstract: All manufacturers and importers of coatings and coating components subject to 40 CFR part 59, subpart B (National Volatile Organic Compound Emission Standards for Automobile Refinish Coatings) must submit an initial report. The initial report must include the name and mailing address of the manufacturer or importer. The rule requires that containers of all subject automobile

refinish coatings and coating components display the date of manufacture or a code indicating the date of manufacture. All manufacturers and importers of subject coatings and coating components must submit an explanation of all date codes used on automobile refinish coating and coating component containers. Date code explanations can be submitted with the initial report. Thereafter, respondents must submit explanations of any new date codes within 30 days of their first use.

The information collection includes initial and periodic reporting necessary for the EPA to ensure compliance with the promulgated federal rule for automobile refinish coatings. The rule will be enforced through random sampling of coatings to determine VOC content. Respondents are manufacturers and importers of automobile refinish coatings and coating components.

Form Numbers: None.

Respondents/affected entities: Manufacturers and importers of automobile refinish coatings and coating components.

Respondent's obligation to respond: Mandatory (40 CFR part 59, subpart B).

Estimated number of respondents: 32 (total).

Frequency of response: Initially and occasionally.

Total estimated burden: 14 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$1,850 (per year). There are no annualized capital/startup and/or operation & maintenance costs.

Changes in the Estimates: The increase in burden from the most-recently approved ICR is an adjustment due to an increase in the number of respondents due to growth in the industry.

Courtney Kerwin,

Director, Regulatory Support Division.

SUPPLEMENTARY INFORMATION: This is a proposed extension of the ICR which is currently approved through February 29, 2024. An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

Public comments were previously requested via the **Federal Register** on

April 26, 2023, during a 60-day comment period (88 FR 25401). This notice allows for an additional 30 days for public comments. Supporting documents, which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202–566–1744. For additional information about EPA’s public docket, visit <http://www.epa.gov/dockets>.

Abstract: This ICR renewal will cover the information collection activities associated with the reporting and recordkeeping requirements for individuals, firms and state and local government entities conducting lead-based paint (LBP) activities or renovations of target housing and child-occupied facilities (COFs); training providers; and states/territories/tribes/Alaskan native villages.

Form numbers: 8500–25, 8500–27, 747–B–99–002, 9600–050, 9600–051, and 9600–052.

Respondents/affected entities: Entities potentially affected by this ICR include persons who are engaged in LBP activities and/or perform renovations of target housing or COFs for compensation, dust sampling, or dust testing; or who perform LBP inspections, lead hazard screens, risk assessments or abatements in target housing or COFs; or who provide training or operate a training program for individuals who perform any of these activities; or state, territorial or Native American agencies that administer LBP activities and/or renovation programs.

Respondent’s obligation to respond: Mandatory (40 CFR part 745).

Estimated number of respondents: 441,034 (total).

Frequency of response: On occasion.
Total estimated burden: 6,273,748 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$360,166,618 (per year), which includes \$17,400,556 annualized capital or operation & maintenance costs.

Changes in the estimates: There is an increase of 1,022,428 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This increase reflects several adjustments to the estimates including revisions to the estimated number of respondents based on the number of respondents reporting to EPA for the prior information collection and revisions based on other market factors.

Changes in burden estimates reflect changes within the housing renovation market, as measured by EPA’s FLPP database, which tracks LBP and RRP activity over time, as reported to the Agency. This change is an adjustment.

Director, Information Engagement Division.
