I. Background and Authority

The Department renewed the CINTAC charter on August 13, 2014 for an additional two years, pursuant to the Department of Commerce authority under 15 U.S.C. 1512 and the Federal Advisory Committee Act (FACA), as amended, 5 U.S.C. App. The CINTAC functions solely as an advisory committee in accordance with the provisions of FACA. As noted in the **SUMMARY**, CINTAC advises the Secretary of Commerce regarding the development and administration of programs to expand U.S. exports of civil nuclear goods and services for use by the Department in its role as a member of the Civil Nuclear Trade Working Group of the Trade Promotion Coordinating Committee and the Department's active participation in the Atoms for Prosperity interagency group to promote U.S. civil nuclear trade. In particular, the Committee advises on matters including, but not limited to:

(1) Matters concerning trade policy development and negotiations relating to U.S. civil nuclear exports;

(2) The effect of U.S. Government policies, regulations, programs, and foreign government policies and practices on the export of U.S. civil nuclear goods and services;

(3) The competitiveness of U.S. industry and its ability to compete for civil nuclear products and services opportunities in international markets, including specific problems in exporting, and provide specific recommendations regarding U.S. Government and public/private actions to assist civil nuclear companies in expanding their exports;

(4) The identification of priority civil nuclear products and services markets with the potential for high immediate returns for U.S. exports, as well as emerging markets with a longer-term potential for U.S. exports;

(5) Strategies to increase private sector awareness and effective use of U.S. Government export promotion programs, and recommendations on how U.S. Government programs may be more efficiently designed and coordinated;

(6) The development of complementary industry and trade association export promotion programs, including ways for greater and more effective coordination of U.S. Government efforts with private sector organizations' civil nuclear industry export promotion efforts; and

(7) The development of U.S. Government programs to encourage producers of civil nuclear products and services to enter new foreign markets, in connection with which CINTAC may advise on how to gather, disseminate, and promote awareness of information on civil nuclear exports and related trade issues.
