

Respondents also will be asked questions that relate to issues that were not important at the time of the 1979 survey. These issues include large scale timber harvesting on national forest and private lands; a large increase in tourist and recreational use of the Tongass National Forest; expansion of tourist use into back-country areas; economic restructuring of the area that is moving away from timber, mining, and commercial fishing toward tourism and service industries; and an increasing resident and visitor population competing for limited fish and wildlife resources.

Forest Service personnel and University of Alaska research staff will conduct a random sample survey of southeast Alaska residents, through telephone interviews.

Data gathered in this information collection are not available from other sources.

Estimate of Annual Burden: 30 minutes per respondent.

Type of Respondents: Individual residents of southeast Alaska communities.

Estimated Annual Number of Respondents: 1600 per year.

Estimated Annual Number of Responses per Respondent: 1.

Estimated Total Annual Burden on Respondents: 800 hours.

Comment Is Invited

The agency invites comments on the following: (a) Whether the proposed collection of information is necessary for the stated purposes and the proper performance of the functions of the agency, including whether the information will have practical or scientific utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including the use of automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Use of Comments

All comments received in response to this notice, including names and addresses when provided, will become a matter of public record. Comments will be summarized and included in the request for Office of Management and Budget approval.

Announcement of Intent To Initiate the Process To Designate the Northwestern Hawaiian Islands Coral Reef Ecosystem Reserve as a National Marine Sanctuary; Intent To Prepare a Draft Environmental Impact Statement and Management Plan

AGENCY: Marine Sanctuaries Division (MSD), National Ocean Service (NOS), National Oceanic and Atmospheric Administration, Department of Commerce (DOC).

ACTION: Notice

SUMMARY: On December 4, 2000, President William Clinton signed Executive Order 13178 establishing the Northwestern Hawaiian Islands Coral Reef Ecosystem Reserve, pursuant to the National Marine Sanctuaries Amendments Act of 2000. The Reserve extends approximately 1200 nautical miles long and 100 nautical miles wide. Pursuant to this Act and the Executive Order, NOAA, on behalf of the Secretary is initiating the process to designate the Reserve as a national marine sanctuary and will proceed with the subsequent steps of the designation process. In designating the sanctuary, the Executive Order directs NOAA to supplement or complement the existing Reserve.

NOAA will prepare an environmental impact statement and management plan which will examine the management, boundary and regulatory alternatives associated with sanctuary designation. NOAA will hold scoping meetings to solicit information and comments on the range and significance of issues related to sanctuary designation and management.
