NUCLEAR REGULATORY COMMISSION

[Docket No. NRC-2011-0124]

Agency Information Collection Activities: Proposed Collection; Comment Request

AGENCY: Nuclear Regulatory Commission (NRC).

ACTION: Notice of pending NRC action to submit an information collection request to the Office of Management and Budget (OMB) and solicitation of public comment.

SUMMARY: The NRC invites public comment about our intention to request the OMB's approval for renewal of an existing information collection that is summarized below. We are required to publish this notice in the **Federal Register** under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35).

Information pertaining to the requirement to be submitted:

1. *The title of the information collection:* 48 CFR 20, U.S. Nuclear Regulatory Commission Acquisition Regulation (NRCAR).
2. *Current OMB approval number:* 3150-0169.
3. *How often the collection is required:* On occasion; one time.
4. *Who is required or asked to report:* Potential contractors.
5. *The number of annual respondents:* 2,803 respondents.
6. *The number of hours needed annually to complete the requirement or request:* 21,579.5 (20,484 reporting plus 1,095.5 recordkeeping).
7. *Abstract:* The mandatory requirements of the NRCAR implement and supplement the government-wide Federal Acquisition Regulation (FAR), and ensure that the regulations governing the procurement of goods and services within the NRC satisfy the particular needs of the agency. Because of differing statutory authorities among Federal agencies, the FAR authorizes agencies to issue regulations to implement FAR policies and procedures internally and to include additional policies and procedures, solicitation provisions or contract clauses to satisfy the specific need of the agency.

Submit, by September 6, 2011, comments that address the following questions:

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility?
2. Is the burden estimate accurate?
3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?

4. How can the burden of the information collection be minimized, including the use of automated collection techniques or other forms of information technology?
