

**III.**

Accordingly, pursuant to sections 161b, 161i, 161o, and 184 of the Atomic Energy Act of 1954, as amended, 42 USC 2201(b), 2201(i), 2201(o), and 2234; and 10 CFR 50.80 and 10 CFR 72.50, it is hereby ordered that the application regarding the indirect license transfers referenced above is approved, subject to the following conditions:

(1) Following the completion of the indirect license transfers approved by this Order, PGE shall provide the Director of the Office of Nuclear Reactor Regulation and the Director of the Office of Nuclear Material Safety and Safeguards a copy of any application, at the time it is filed, to transfer (excluding grants of security interests or liens) from PGE to its parent, or to any other affiliated company, facilities for the production, transmission, or distribution of electric energy having a depreciated book value exceeding ten percent (10%) of PGE's consolidated net utility plant, as recorded on its books of account.

(2) Should the proposed stock purchase not be completed by March 31, 2003, this Order shall become null and void, provided, however, upon application and for good cause shown, such date may be extended.

This Order is effective upon issuance.

**IV.**

For further details with respect to this Order, see the initial application dated December 6, 2001, supplemental letter dated January 31, 2002, and the safety evaluation dated March 26, 2002, which are available for public inspection at the Commission's Public Document Room, located at One White Flint North, 11555 Rockville Pike (first floor), Rockville, Maryland, and accessible from the Agencywide Documents Access and Management System's (ADAMS) Public Electronic Reading Room on the internet at the NRC Web site, <http://www.nrc.gov>.

Dated at Rockville, Maryland, this 26th day of March 2002.

For the Nuclear Regulatory Commission.

BILLING CODE 7590-01-M

**NUCLEAR REGULATORY COMMISSION****Biweekly Notice; Applications and Amendments to Facility Operating Licenses Involving No Significant Hazards Considerations****I. Background**

Pursuant to Public Law 97-415, the U.S. Nuclear Regulatory Commission (the Commission or NRC staff) is publishing this regular biweekly notice. Public Law 97-415 revised section 189 of the Atomic Energy Act of 1954, as amended (the Act), to require the Commission to publish notice of any amendments issued, or proposed to be issued, under a new provision of section 189 of the Act. This provision grants the Commission the authority to issue and make immediately effective any amendment to an operating license upon a determination by the Commission that such amendment involves no significant hazards consideration, notwithstanding the pendency before the Commission of a request for a hearing from any person.

This biweekly notice includes all notices of amendments issued, or proposed to be issued from March 8, 2002 through March 21, 2002. The last biweekly notice was published on March 19, 2002 (67 FR 12597).

**Notice of Consideration of Issuance of Amendments to Facility Operating Licenses, Proposed No Significant Hazards Consideration Determination, and Opportunity for a Hearing**

The Commission has made a proposed determination that the following amendment requests involve no significant hazards consideration. Under the Commission's regulations in 10 CFR 50.92, this means that operation of the facility in accordance with the proposed amendment would not (1) involve a significant increase in the probability or consequences of an accident previously evaluated; or (2) create the possibility of a new or different kind of accident from any accident previously evaluated; or (3) involve a significant reduction in a
