

2014. The Department renewed the Council charter on April 5, 2014 for an additional two years pursuant to the Department of Commerce authority under 15 U.S.C. 1512 and the Federal Advisory Committee Act (FACA), as amended, 5 U.S.C. App.

The Council advises the Secretary of Commerce on matters relating to the U.S. manufacturing industry, including on government policies and programs that affect the U.S. manufacturing industry and identifying and recommending programs and policies to help United States manufacturers maintain competitiveness both at home and abroad.

The Council provides a means of ensuring regular contact between the U.S. Government and the manufacturing sector, acting as a liaison among the stakeholders represented by the membership, and may provide a forum for those stakeholders on current and emerging issues in the manufacturing sector. The Council shall recommend ways to ensure that the United States remains the preeminent destination for investment in manufacturing throughout the world.

The Council shall report to the Secretary on its activities and recommendations regarding United States manufacturing. In creating the reports, the Council should: survey and evaluate the manufacturing activities of the stakeholders represented by the membership; identify and examine specific problems facing the manufacturing industry; examine the needs of the industry to inform the Council's efforts; and recommend specific solutions to these problems and needs.

The Council functions solely as an advisory committee in accordance with the provisions of FACA.

Members will be selected in accordance with applicable Department of Commerce guidelines based on each individual's ability to advise the Secretary of Commerce on matters relating to the U.S. manufacturing sector, to act as a liaison among the stakeholders represented by the membership, and to represent the viewpoint of those stakeholders on current and emerging issues in the manufacturing sector. In assessing this ability, the Department will consider such factors as, but not limited to, the candidate's proven experience in promoting, developing and marketing programs in support of manufacturing industries, job creation in the manufacturing sector, and the candidate's proven abilities to manage manufacturing organizations. Given the duties and objectives of the Council, the

Department particularly seeks applicants who are active manufacturing executives (Chief Executive Officer, President, or a comparable level of responsibility) who are leaders within their local manufacturing communities and industry sectors. The Council's membership shall reflect the diversity of American manufacturing by representing a balanced cross-section of the U.S. manufacturing industry in terms of industry sectors, geographic locations, demographics, and company size, particularly seeking the representation of small- and medium-sized enterprises.

The Secretary of Commerce appoints all Council members. All Council members serve at the discretion of the Secretary of Commerce. Council members shall serve in a representative capacity, representing the views and interests of a U.S. entity in the manufacturing industry and its particular sector. For the purposes of eligibility, a U.S. entity is defined as a firm incorporated in the United States (or an unincorporated firm with its principal place of business in the United States) that is (a) majority controlled (more than 50% ownership interest and/or voting stock) by U.S. citizens or by another U.S. entity or (b) majority controlled (more than 50% ownership interest and/or voting stock) directly or indirectly by a foreign parent company.

Because Council members serve in a representative capacity, expressing the views and interests of a U.S. entity, they are therefore not Special Government Employees. Council members receive no compensation for their participation in Council activities. Members participating in Council meetings and events are responsible for their travel, living and other personal expenses. Meetings are held regularly and not less than annually, usually in Washington, DC. Members are required to attend a majority of the Council's meetings.

To be considered for membership, an applicant must provide the following information, statements and documents. Incomplete applications cannot be considered.

1. Name and title of the individual requesting consideration.
2. A sponsor letter from the applicant on his or her entity's letterhead containing a brief statement of why the applicant should be considered for membership on the Council. This sponsor letter should also address the applicant's manufacturing-related experience, including any manufacturing trade policy experience.
3. The applicant's personal resume.

4. An affirmative statement that the applicant meets all eligibility criteria.

5. An affirmative statement that the applicant is not required to register as a foreign agent under the Foreign Agents Registration Act of 1938, as amended.

6. Information regarding the ownership and control of the entity to be represented, including the governing structure and stock holdings, as appropriate, demonstrating compliance with the criteria set forth above.

7. The entity's size, place of incorporation or principal place of business, additional manufacturing, innovation and R&D locations, product line, major markets in which the entity operates, and the entity's exporting experience.

8. Information on the challenges the entity faces in staying competitive as a U.S. manufacturer, and the priorities the entity would hope to see the Council address during the term.

9. All relevant contact information, including mailing address, fax, email, phone number, and support staff information where relevant.

Dated: September 4, 2014.

Office of Advisory Committees and Industry Outreach.

SUPPLEMENTARY INFORMATION: The Committee was established by the NOAA Administrator as directed by Section 12304 of the Integrated Coastal and Ocean Observation System Act, part of the Omnibus Public Land Management Act of 2009 (Pub. L. 111-11). The Committee advises the NOAA Administrator and the Interagency Ocean Observation Committee (IOOC) on matters related to the responsibilities and authorities set forth in section 12302 of the Integrated Coastal and Ocean Observation System Act of 2009 and other appropriate matters as the Under Secretary refers to the Committee for review and advice.

The Committee will provide advice on:

- (a) Administration, operation, management, and maintenance of the System;
- (b) expansion and periodic modernization and upgrade of technology components of the System;
- (c) identification of end-user communities, their needs for information provided by the System, and the System's effectiveness in dissemination information to end-user communities and to the general public; and
- (d) any other purpose identified by the Under Secretary of Commerce for Oceans and Atmosphere or the Interagency Ocean Observation Committee.

The meeting will be open to public participation with a 15-minute public comment period on October 2, 2014, from 3:45 p.m. to 4:00 p.m. and on October 3, 2014, from 2:30 p.m. to 2:45 p.m. (Check agenda on Web site to confirm time.) The Committee expects that public statements presented at its meetings will not be repetitive of previously submitted verbal or written statements. In general, each individual or group making a verbal presentation will be limited to a total time of three (3) minutes. Written comments should be received by the Alternate Designated Federal Official by September 19, 2014 to provide sufficient time for Committee review. Written comments received after September 19, 2014 will be distributed to the Committee, but may not be reviewed prior to the meeting date. Seats will be available on a first-come, first-served basis.

Matters To Be Considered: The meeting will focus on two strategic themes: finalizing the guiding principles for the business model for U.S. IOOS and beginning a dialog on the next set of recommendations.
