SUPPLEMENTARY INFORMATION: Boots to Business is an entrepreneurial education initiative offered by the U.S. Small Business Administration (SBA) as a career track within the Department of Defense's revised Training Assistance Program called Transition Goals, Plans, Success (Transition GPS). The curriculum provides valuable assistance to transitioning service members exploring self-employment opportunities by leading them through the key steps for evaluating business concepts and the foundational knowledge required for developing a business plan. Participants are also introduced to SBA resources available to help access startup capital and additional technical assistance.

The Boots to Business Post Course surveys will be online, voluntary surveys that enable the Boots to Business program office to capture data related but not limited to the effectiveness of all Boots to Business courses, quality of the instructors and materials, and number of small businesses created as a result of participating in Boots to Business. Boots to Business will send an initial survey via email to all course participants

immediately following course completion to gain insight on the quality of the program. Every 6 months following course completion, a follow up survey will be sent to all participants to measure participant outcomes as we link course effectiveness to the creation of veteran owned small businesses. Participants will be surveyed twice a year for 5 years following course completion to allow time for business creation.
