SUPPLEMENTARY INFORMATION:

Background

Section 204(d) of the Magnuson-Stevens Act (16 U.S.C. 1824(d)) authorizes the Secretary of Commerce (Secretary) to issue a transshipment permit authorizing a vessel other than a vessel of the United States to engage in fishing consisting solely of transporting fish or fish products at sea from a point within the United States Exclusive Economic Zone (EEZ) or, with the concurrence of a state, within the boundaries of that state, to a point outside the United States.

Section 204(d)(3)(D) of the Magnuson-Stevens Act provides that an application to transship from U.S. waters to another country using non-U.S. vessels may not be approved until the Secretary determines that “no owner or operator of a vessel of the United States which has adequate capacity to perform the transportation for which the application is submitted has indicated . . . an interest in performing the transportation at fair and reasonable rates.” NMFS is publishing this notice as part of its effort to make such a determination with respect to the application described below and specifically seeks comment from any owner or operator of a vessel of the United States, which has

adequate capacity to perform the transportation of fish described below at fair and reasonable prices.

Summary of Application

NMFS received an application from True North Salmon Limited Partnership and 697002 NB, Inc., requesting authorization to transfer salmon from United States farm pens in Maine to four Canadian vessels for the purpose of transporting the salmon to Black’s Harbour, Canada for processing.

The transshipment operations will occur within the boundaries of the State of Maine and within 12 nautical miles from Maine’s seaward boundary.
