SUPPLEMENTARY INFORMATION:

Public Disclosure

Our practice is to make comments, including names and home addresses of respondents, available for public review. Individual respondents may request that we withhold their home address from public disclosure, which we will honor to the extent allowable by law. There also may be circumstances in which we would withhold a respondent's identity from public disclosure, as allowable by law. If you wish us to withhold your name and/or address, you must state this prominently at the beginning of your comment. We will make all submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, available for public disclosure in their entirety.

Background

Reclamation has undertaken this study as one potential means to augment instream flow in the lower Yakima River and benefit anadromous fish under the authority of Title XII, Phase 2 of the Yakima River Basin Water Enhancement Project, in Public Law 103-434 (Title XII), which was passed by the Congress on October 31, 1994. Public Law 106-372, which

amended Title XII, authorized an engineering feasibility report of the Chandler Pump Exchange, as well as electrifying the pumps at the Chandler Pumping Plant at Prosser Diversion Dam, Washington. Alternatives being considered include either a partial or full Yakima-Columbia River water exchange, or the electrification of the Chandler Pumping Plant.

Water exchange would entail pumping water from the Columbia River near the mouth of the Yakima River into the Kennewick Irrigation District (KID) and Columbia Irrigation District (CID) canals and reducing the amount of water diverted from the Yakima River at the current points of diversion. One of the alternatives being considered is a partial exchange of KID's full Yakima River diversion. It would involve diverting about 2/3 of KID's total 333 cfs diversion from the Columbia River and continuing to divert the remainder at Prosser Dam on the Yakima River. Another alternative is a full exchange which would totally eliminate the diversion of water from the Yakima River to the KID canal. Both alternatives would involve pumping approximately 116 cfs of CID's total existing Yakima River diversion from the Columbia River.

The alternative of electrification of the Chandler Pumping Plant would involve replacing the existing hydraulic pumps in the pumping plant with electric pumps to pump Yakima River water into KID's main canal at the current point of diversion. The Chandler Pumping Plant is located at the end of the Chandler Canal into which water is diverted at Prosser Dam. Replacing the hydraulic pumps with electric pumps would eliminate the need to divert water at Prosser Dam to drive the hydraulic pumps leaving up to 450 cfs in the 11 mile reach of the Yakima River from Prosser Dam to the Chandler Pumping Plant. No exchange with CID would take place under this alternative.

Public Involvement

Reclamation plans to conduct public scoping meetings to solicit input on the alternatives developed to address stream flows in the lower Yakima River between Prosser Dam and the mouth of the river, and impacts associated with those alternatives. Reclamation will summarize comments received during the scoping meetings and written comments received during the scoping period, identified under **DATES**, into a scoping summary document which will be made available to the public.

BILLING CODE 7020-02-M

DEPARTMENT OF JUSTICE

Federal Bureau of Investigation

Agency Information Collection Activities: Proposed Collection: Comment Request

ACTION: 30-day notice of information collection under review: Extension of a

currently approved collection; application for employment/Federal Bureau of Investigation.

The Department of Justice (DOJ), Federal Bureau of Investigation, has submitted the following information collection request to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act of 1995. The proposed information collection is published to obtain comments from the public and affected agencies. This proposed information collection was previously published in the **Federal Register** on February 6, 2002, Volume 67, Number 25, Pages 5617–5618, allowing for a 60-day comment period.

The purpose of this notice is to allow for an additional 30 days for public comment until May 20, 2002. This process is conducted in accordance with 5 CFR 1320.10. Written comments and/or suggestions regarding the items contained in this notice, especially regarding the estimated public burden and associated response time, should be directed to Office of Management, Office of Regulatory Affairs, Attention: Department of Justice Desk Officer, Washington, DC 20530. Comments may also be submitted to the Department of Justice (DOJ), Justice Management Division, Information Management and Security Staff, Attention: Department Clearance Officer, Suite 1600, 601 D Street, NW, Washington, DC, 20530. Written comments and suggestions from the public and affected agencies are encouraged. Your comments should address one or more of the following points:

(1) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and the assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Evaluate whether the data collection instrument will minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Overview of this information collection:

(1) *Type of information collection:* Extension of a Currently Approved Collection.

(2) *The title of the Form/Collection.* Application for Employment/Federal Bureau of Investigation.

(3) *The agency form number, if any, and the applicable component of the Department sponsoring the collection:* Form Number: FD-140. Application Component: Federal Bureau of Investigation, Department of Justice.

(4) *Affected public who will be asked or required to respond, as well as a brief abstract.* Primary: Individuals and households. Other: None. Abstract: The FD-140, Application for Employment, is utilized to collect pertinent background information on all applicants for FBI positions. The FD-140 is issued in lieu of Standard Form 86, Questionnaire for National Security Positions, to address suitability and security concerns beyond the scope of the SF-86. Furthermore, the FD-406, Authority to Release Information, it also incorporated into the FD-140 in order for the FBI to obtain necessary records.

(5) *An estimate of the total number of respondents and the estimated amount of time for an average person to respond or reply:* 50,000 respondents with the average response rate of 10 hours.

(6) *An estimate of the total public burden (in hours) associated with the collection:* 500,000 annual burden hours.

If additional information is required contact: Mr. Robert Briggs, Clearance Officer, United States Department of Justice, Information Management and Security Staff, Justice Management Division, Suite 1600, Patrick Henry Building, 601 D Street, NW, Washington, DC 20530.

Dated: April 15, 2002.
