SUPPLEMENTARY INFORMATION: CPSC seeks to renew the following currently approved collection of information:

Title: Safety Standard for Multi-Purpose Lighters.

OMB Number: 3041–0130.

Type of Review: Renewal of collection.

Frequency of Response: On occasion.

Affected Public: Manufacturers and importers of multi-purpose lighters.

Estimated Number of Respondents: Based on five years of data, there are an estimated 47 firms that import, distribute, or sell multi-purpose lighters in the United States. Based on past experience, CPSC expects that firms will conduct recordkeeping and reporting activities for an average of two multi-purpose lighter models each year.

Estimated Time per Response: The costs associated with the rule include reporting, recordkeeping, and other certification-related activities. CPSC estimates that the burden per model is 10 hours to generate test data, record it, and enter the data into a computerized dataset; five hours for annual review and removal of records; and five hours for responding to CPSC records requests—for a total of 20 hours per model.

Total Estimated Annual Burden:

Based on CPSC's estimates that 47 firms will each conduct recordkeeping and reporting activities for an average of two models per year, and that a total of 20 hours will be required per model, CPSC estimates that the total annual burden of this collection is 1,880 hours. The annualized cost to respondents for the information collection is \$63,318 (1,880 hours × \$33.68/hr), as estimated from total compensation data available from the U.S. Bureau of Labor Statistics.¹

¹ Total hourly compensation for office and administrative support occupations in goods-producing industries is estimated by the U.S.

General Description of Collection: The Commission issued a safety standard for multi-purpose lighters in 1999 (16 CFR part 1212). The standard and section 14(a)(1) of the Consumer Product Safety Act (CPSA) require that manufacturers, including importers, of multi-purpose lighters issue certificates of compliance based on a reasonable testing program. The standard also requires manufacturers and importers to establish and maintain records to demonstrate successful completion of all required tests to support the certificates of compliance that they issue. Respondents must comply with these testing, certification, and recordkeeping requirements for multi-purpose lighters.

Request for Comments:

The Commission solicits written comments from all interested persons about the proposed collection of information. The Commission specifically solicits information relevant to the following topics:

- whether the collection of information described above is necessary for the proper performance of the Commission's functions, including whether the information would have practical utility;
- whether the estimated burden of the proposed collection of information is accurate;
- whether the quality, utility, and clarity of the information to be collected could be enhanced; and
- whether the burden imposed by the collection of information could be minimized by use of automated, electronic or other technological collection techniques, or other forms of information technology.

SUPPLEMENTARY INFORMATION:

Title; Associated Form; and OMB Number: Health Care Survey of DoD Beneficiaries; OMB Control Number: 0720-HCSD.

Needs and Uses: Legal authority for this information collection is found in the 1993 National Defense Authorization Act (NDAA) (Pub. L. 102-484). The Health Care Survey of DoD

Beneficiaries (HCSDB) is the only population-based Consumer Assessment of Healthcare Providers and Systems (CAHPS) Health Plan Survey (v5.0) administered to a statistically representative, world-wide sample of all eligible DoD beneficiaries by the DHA. The instrument includes an additional module that is the only population-based measurement of Healthy People 2030 goals and health metrics reflecting the priorities of senior health leaders. The HCSDB is a population-based survey, not a healthcare encounter-based survey. As such, the HCSDB is the only survey able to measure access to care and other metrics for beneficiaries who may not be using the TRICARE health system due to barriers to care they encounter. This information collection, which began in 2008, continues to be of critical importance to DHA and Congress in assessing Military Health System (MHS) and Managed Care Support Contractor performance by allowing for trending by various beneficiary categories over time.

Title; Associated Form; and OMB

Number: TRICARE Select Survey of Beneficiaries (TSS-B); OMB Control Number: 0720-TSSB.

Needs and Uses: The TSS-B is a population-based survey, not a healthcare encounter-based survey; this makes it unique as the only survey of the entire TSS-B beneficiary population regardless of whether they have had a recent health care encounter. TSS-B is the sole source for Consumer Assessment of Healthcare Providers and Systems (CAHPS) which captures patient experience of the TSS-B population. This information collection, which began in 2009, is used in reports to Congress and by working groups within the DHA. The TSS-B data is required by DHA for Contract Data
