

General Issues

A. Is the proposed collection of information necessary for the proper performance of the functions of the agency and does the information have practical utility? Practical utility is defined as the actual usefulness of information to or for an agency, taking into account its accuracy, adequacy, reliability, timeliness, and the agency's ability to process the information it collects.

B. What enhancements can be made to the quality, utility, and clarity of the information to be collected?

As a Potential Respondent to the Request for Information

A. Are the instructions and definitions clear and sufficient? If not, which instructions need clarification?

B. Can the information be submitted by the due date?

C. Public reporting burden for each of the surveys included in the Coal Program Package is shown below as an average hour(s) per response. The estimated burden includes the total time necessary to provide the requested information. In your opinion, how accurate is this estimate?

- Form EIA-1, "Weekly Coal Monitoring Report—General Industries and Blast Furnaces" (Standby); 1.0 hour per response (previous estimate was 1 hour)
- Form EIA-3, "Quarterly Coal Consumption Report—Manufacturing Plants;" 1 hour per response (previous estimate was .4 hours)
- EIA-3A, "Annual Coal Quality Report—Manufacturing Plants;" 0 hours per response (previous estimate was 1 hour) EIA is proposing elimination of Form EIA-3A.
- Form EIA-4, "Weekly Coal Monitoring Report—Coke Plants" (Standby); 1.0 hour per response (previous estimate was 1 hour)
- Form EIA-5, "Quarterly Coal Consumption Report—Coke Plants;" 1.5 hours per response (previous estimate was .9 hours)
- Form EIA-5A, "Annual Coal Quality Report—Coke Plants;" 0 hours per response (previous estimate was 1 hour) EIA is proposing elimination of Form EIA-5A.
- Form EIA-6, "Coal Distribution Report;" 5.0 hours per response (previous estimate was 5.0 hours)
- Form EIA-6 (Schedule Q), "Quarterly Coal Report" (Standby); 1 hour per response (previous estimate was 1 hour)
- Form EIA-7A, "Coal Production Report;" .75 hours per response (previous estimate was .8 hours)

—Form EIA-20, "Weekly Telephone Survey of Coal Burning Utilities" (Standby) 1 hour per response (previous estimate was 1 hour)

The Forms EIA-1, 4, 6 (Schedule Q), and 20 are Standby surveys. The above estimates reflect the anticipated burden per response in the event these surveys are implemented.

D. The agency estimates that the only cost to a respondent is for the time it will take to complete the collection. Will a respondent incur any start-up costs for reporting, or any recurring annual costs for operation, maintenance, and purchase of services associated with the information collection?

E. What additional actions could be taken to minimize the burden of this collection of information? Such actions may involve the use of automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

F. Does any other Federal, State, or local agency collect similar information? If so, specify the agency, the data element(s), and the methods of collection.

As a Potential User of the Information To Be Collected

A. Is the information useful at the levels of detail to be collected?

B. For what purpose(s) would the information be used? Be specific.

C. Are there alternate sources for the information and are they useful? If so, what are their weaknesses and/or strengths?

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of the form. They also will become a matter of public record.

Statutory Authority: Section 3507(h)(1) of the Paperwork Reduction Act of 1995 (Pub. L. No. 104-13, 44 U.S.C. Chapter 35).

Issued in Washington, DC, July 19, 2001.

Stanley R. Freedman,

Acting Director, Statistics and Methods Group, Energy Information Administration.

BILLING CODE 6450-01-P

DEPARTMENT OF ENERGY**Federal Energy Regulatory Commission**

[Docket No. RP01-359-002]

Dominion Transmission, Inc.; Notice of Compliance Filing

July 19, 2001.

Take notice that on July 12, 2001, Dominion Transmission Inc. (DTI)

tendered for filing as part of its FERC Gas Tariff, Third Revised Volume No. 1, the following tariff sheets, with an effective date of June 27, 2001:

First Revised Sheet No. 1132

First Revised Sheet No. 1133

First Revised Sheet No. 1134

DTI states that the filing is being made in compliance with the Commission's Letter Order, dated June 27, 2001, in Docket No. RP01-359-001. DTI states that First Revised Tariff Sheets Nos. 1132-1134 eliminate the stranded cost tracking mechanism contained in Section 18.2.B of the General Terms and Conditions of DTI's FERC Gas Tariff.

Section 18.2 of the General Terms & Conditions requires DTI to make quarterly stranded cost filings. On May 15, 2001, DTI requested a waiver of the requirement to return excess collections received through the stranded cost tracking mechanism. In support of its request, DTI stated that the contracts responsible for the stranded costs have expired on their own terms. The Commission granted the waiver but directed DTI to eliminate Section 18.2.B because it was no longer needed.

DTI states that copies of its letter of transmittal and enclosures have been served upon the parties to this proceeding.

Any person desiring to protest said filing should file a protest with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, in accordance with Section 385.211 of the Commission's Rules and Regulations. All such protests must be filed in accordance with Section 154.210 of the Commission's Regulations. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Copies of this filing are on file with the Commission and are available for public inspection. This filing may also be viewed on the web at <http://www.ferc.gov> using the "RIMS" link, select "Docket#" and follow the instructions (call 202-208-2222 for assistance). Comments, protests and interventions may be filed electronically via the Internet in lieu of paper. See, 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's web site under the "e-Filing" link.

David P. Boergers,
Secretary.
