Abstract: This ICR that estimates the burden on states for implementation-related activities associated with the 2008 and 2015 ozone NAAQS. States with nonattainment areas for the 2008 and 2015 ozone NAAQS are implementing the NAAQS under the CAA and implementation regulations issued for that NAAQS. The state activities include, but are not limited to, developing and submitting attainment demonstrations, reasonable further progress plans, and reasonably available control technology (RACT) determinations. This ICR renewal estimates the burden for states to meet the ongoing planning requirements that apply to their remaining nonattainment areas for the 2008 and 2015 NAAQS. These requirements primarily affect 2015 ozone nonattainment areas that may fail to attain the NAAQS by their attainment date during this period and be reclassified to a higher classification with new SIP revisions required from the states. In addition, this ICR renewal includes burden estimates for state and EPA activities related to implementing second Maintenance Plans for the 2008 8-hour ozone standard.

The estimates included in this ICR renewal include both the state burden to develop and submit attainment plans to meet the requirements prescribed in CAA sections 110 and Part D, subparts 1 and 2 of Title I as interpreted by EPA's SIP requirements rules. An ozone NAAQS attainment plan contains state rules and other measures designed to improve air quality and achieve the NAAQS by the deadlines established under the CAA. It also must address several additional CAA requirements related to demonstrating timely attainment and contain contingency measures if the nonattainment area does not achieve reasonable further progress throughout the attainment period or if the area does not attain the NAAQS by its attainment date. States that have attained by the applicable attainment date may be eligible to submit a redesignation request and maintenance plan to receive a redesignation from “nonattainment to “attainment”.

Respondent's obligation to respond: Mandatory.

Estimated number of respondents: 97 (total).
