

June 12, 2013, Vol. 78, No. 113; p. 35287. There were two public comments. One of the grantees recommended HRSA/ORHP eliminate the process measures and focus on outcome measures. HRSA is currently working on revising the measures for the entire program, and, as the grantee suggested, is attempting to focus the measures more on outcomes. As noted above, HRSA/ORHP's intent in using the current measures until the next competitive grant cycle (July 2014) is to allow grantees to make adjustments to their data collection/data reporting systems, as well as revise the general

program requirements to more closely align with the statute. There will also be another period for the general public to comment on the new measures. Another grantee requested a copy of the measures, seeking clarification on what was being asked. Clarification was provided that none of the measures will be changed this year. The measures have been the same for the last several years.

Likely Respondents: Black Lung Clinics Program Grantees.

Burden Statement: Burden in this context means the time expended by persons to generate, maintain, retain, disclose or provide the information

requested. This includes the time needed to review instructions; to develop, acquire, install and utilize technology and systems for the purpose of collecting, validating and verifying information, processing and maintaining information, and disclosing and providing information; to train personnel and to be able to respond to a collection of information; to search data sources; to complete and review the collection of information; and to transmit or otherwise disclose the information. The total annual burden hours estimated for this ICR are summarized in the table below.

TOTAL ESTIMATED ANNUALIZED BURDEN—HOURS

Form name	Number of respondents	Number of responses per respondent	Total responses	Average burden per response (in hours)	Total burden hours
Name of instrument	Black Lung Clinics Program Measures	1	15	10.0	150.00
Total	1	15	10.0	150.00
