

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities for an additional 3 years.

This notice includes a description of the information collection requirements currently approved by OMB under numbers 0579-0007 (National Poultry Improvement Plan) and 0579-0305 (Low Pathogenic Avian Influenza; Voluntary Control Program and Payment of Indemnity). After OMB approves and combines the burden for both collections under a single collection (number 0579-0007), the Department will retire number 0579-0305.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; e.g., permitting electronic submission of responses.

Estimate of burden: The public reporting burden for this collection of information is estimated to average 0.6159046 hours per response.

Respondents: Flock owners, breeders, hatchery operators, commercial table-egg layer producers, meat-type chicken slaughter plants, turkey slaughter plants, and State veterinary medical officers.

Estimated annual number of respondents: 12,222.

Estimated annual number of responses per respondent: 13.772541.

Estimated annual number of responses: 168,328.

Estimated total annual burden on respondents: 103,674 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 15th day of December 2008.

Kevin Shea,

Acting Administrator, Animal and Plant Health Inspection Service.

Notice of Request for Extension of Approval of an Information Collection; Revision of Fruits and Vegetables Import Regulations

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Extension of approval of an information collection; comment request.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, this notice announces the Animal and Plant Health Inspection Service's intention to request an extension of approval of an information collection associated with regulations to allow importation of new fruits and vegetables into the United States.

DATES: We will consider all comments that we receive on or before February 17, 2009.

ADDRESSES: You may submit comments by either of the following methods:

- *Federal eRulemaking Portal:* Go to <http://www.regulations.gov/fdmspublic/component/main?main=DocketDetail&d=APHIS-2008-0134> to submit or view comments and to view supporting and related materials available electronically.

- *Postal Mail/Commercial Delivery:* Please send two copies of your comment to Docket No. APHIS-2008-0134, Regulatory Analysis and Development, PPD, APHIS, Station 3A-03.8, 4700 River Road Unit 118, Riverdale, MD 20737-1238. Please state that your comment refers to Docket No. APHIS-2008-0134.

Reading Room: You may read any comments that we receive on this docket in our reading room. The reading room is located in room 1141 of the USDA South Building, 14th Street and Independence Avenue, SW., Washington, DC. Normal reading room hours are 8 a.m. to 4:30 p.m., Monday through Friday, except holidays. To be sure someone is there to help you, please call (202) 690-2817 before coming.

Other Information: Additional information about APHIS and its programs is available on the Internet at <http://www.aphis.usda.gov>.

FOR FURTHER INFORMATION CONTACT: For information on the importation of new fruits and vegetables, contact Ms. Donna West, Senior Import Specialist, Commodity Import Analysis and Operations, PPQ, APHIS, 4700 River Road Unit 133, Riverdale, MD 20737-1231; (301) 734-8758. For copies of more detailed information on the information collection, contact Mrs. Celeste Sickles, APHIS* Information Collection Coordinator, at (301) 851-2908.

SUPPLEMENTARY INFORMATION:

Title: Revision of Fruits and Vegetables Import Regulations.

OMB Number: 0579-0293.

Type of Request: Extension of approval of an information collection.

Abstract: As authorized by the Plant Protection Act (PPA, 7 U.S.C. 7701 *et seq.*), the Secretary of Agriculture may prohibit or restrict the importation, entry, exportation, or movement in interstate commerce of any plant, plant product, biological control organism, noxious weed, means of conveyance, or other article if the Secretary determines that the prohibition or restriction is necessary to prevent a plant pest or noxious weed from being introduced into or disseminated within the United States. This authority has been delegated to the Animal and Plant Health Inspection Service, which administers regulations to implement the PPA.

The regulations in Subpart—Fruits and Vegetables (7 CFR 319.56-1 through 319.56-47) allow a number of fruits and vegetables to be imported into the United States, under specified conditions, from certain parts of the world. The regulations in §§ 319.56-4 and 319.56-5 provide for a notice-based process for recognizing pest-free areas and for approving the importation of certain new commodities that, based on the findings of a pest risk analysis, can be safely imported into the United States subject to designated phytosanitary measures. Importation of new commodities under this process requires the use of information collection activities, including the issuance of permits and phytosanitary certificates.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as

affected agencies) concerning this information collection activity. These comments will help us:

(1) Evaluate whether the information collection is necessary for the proper performance of our agency's functions, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the information collection, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies, e.g., permitting electronic submission of responses.

Estimate of burden: The public reporting burden for this collection of information is estimated to average 0.9615384 hours per response.

Respondents: Importers, exporters, and foreign national plant protection organizations.

Estimated annual number of respondents: 960.

Estimated annual number of responses per respondent: 2.16666.

Estimated annual number of responses: 2,080.

Estimated total annual burden on respondents: 2,000 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 15th day of December 2008.

Kevin Shea,

Acting Administrator, Animal and Plant Health Inspection Service.

[Docket No. APHIS-2008-0084]

Notice of Decision to Issue Permits for the Importation of Fresh White Asparagus From Senegal Into the Continental United States

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Notice.

SUMMARY: We are advising the public of our decision to begin issuing permits for the importation into the continental United States of fresh white asparagus from Senegal. Based on the findings of a pest risk analysis, which we made available to the public for review and comment through a previous notice, we believe that the application of one or more designated phytosanitary measures will be sufficient to mitigate the risks of introducing or disseminating plant pests or noxious weeds via the importation of fresh white asparagus from Senegal.

DATES: *Effective Date:* December 19, 2008.

FOR FURTHER INFORMATION CONTACT: Dr. Shirley Wager Pagé, Branch Chief, Commodity Import Analysis and Operations Staff, PPQ, APHIS, 4700 River Road, Unit 133, Riverdale, MD 20737-1231; (301) 734-8758.

SUPPLEMENTARY INFORMATION: Under the regulations in "Subpart-Fruits and Vegetables" (7 CFR 319.56 through 319.56-47, referred to below as the regulations), the Animal and Plant Health Inspection Service (APHIS) of the U.S. Department of Agriculture prohibits or restricts the importation of fruits and vegetables into the United States from certain parts of the world to prevent plant pests from being introduced into and spread within the United States.

Section 319.56-4 of the regulations contains a performance-based process for approving the importation of commodities that, based on the findings of a pest risk analysis, can be safely imported subject to one or more of the designated phytosanitary measures listed in paragraph (b) of that section. Under that process, APHIS publishes a notice in the **Federal Register** announcing the availability of the pest risk analysis that evaluates the risks associated with the importation of a particular fruit or vegetable. Following the close of the 60-day comment period, APHIS may begin issuing permits for importation of the fruit or vegetable subject to the identified designated measures if: (1) No comments were received on the pest risk analysis; (2) the comments on the pest risk analysis revealed that no changes to the pest risk analysis were necessary; or (3) changes to the pest risk analysis were made in response to public comments, but the changes did not affect the overall conclusions of the analysis and the Administrator's determination of risk.

In accordance with that process, we published a notice¹ in the **Federal Register** on August 18, 2008 (73 FR 48189-48190, Docket No. APHIS-2008-0084), in which we announced the availability, for review and comment, of a pest risk analysis that evaluates the risks associated with the importation into the continental United States of fresh white asparagus from Senegal. We solicited comments on the notice for 60 days ending on October 17, 2008. We received one comment by that date, from a State department of agriculture. The commenter agreed that the mitigation measures described in the pest risk analysis would be adequate.

Therefore, in accordance with the regulations in § 319.56-4(c)(2)(ii), we are announcing our decision to begin issuing permits for the importation into the continental United States of fresh white asparagus from Senegal subject to the following phytosanitary measures:

- Each shipment of white asparagus must be accompanied by a phytosanitary certificate bearing the following additional declaration: "The white asparagus in this consignment has been inspected and found free of *Cochliobolus pallescens* (*Curvulaia pallescens*)." The phytosanitary certificate with the additional declaration must be issued by the national plant protection organization of Senegal.

- Each shipment is subject to inspection upon arrival in the United States.

- The white asparagus must be a commercial consignment as defined in 7 CFR 319.56-2.

These conditions will be listed in the Fruits and Vegetables Import Requirements database (available at <http://www.aphis.usda.gov/favir>). In addition to those specific measures, the fresh white asparagus will be subject to the general requirements listed in § 319.56-3 that are applicable to the importation of all fruits and vegetables.

Authority: 7 U.S.C. 450, 7701-7772, and 7781-7786; 21 U.S.C. 136 and 136a; 7 CFR 2.22, 2.80, and 371.3.

Done in Washington, DC, this 15th day of December 2008.

Kevin Shea,

Acting Administrator, Animal and Plant Health Inspection Service.
