for workers of the subject firm. The workers were engaged in cutting fabric for the apparel industry. New information shows that worker separations occurred at the laundry facility of the subject firm and will continue until its closing in November, 2000. The workers provided laundry services supporting the cutting room operation which closed in 1999. The laundry facility workers were inadvertently omitted from the certification.

The intent of the Department's certification is to include all workers of Sun Apparel of Texas, Ltd., Armour Plant Cutting Room who were adversely affected by increased imports from Mexico.

Accordingly, the Department is amending the certification to include workers of Sun Apparel of Texas, Ltd., Armour Plant Cutting Room, and Laundry Facility, El Paso, Texas. The amended notice applicable to NAFTA-02847 is hereby issued as follows:

"All workers of Sun Apparel of Texas, Ltd., Armour Plant Cutting Room and Laundry Facility, El Paso, Texas who became totally or partially separated from employment on or after March 22, 1999 through March 22, 2001 are eligible to apply for NAFTA-TAA under Section 250 of the Trade Act of 1974."

Signed at Washington, DC this 10th day of October, 2000.

Workers at the subject firm were engaged in employment related to the production of stud lumber. The workers are not separately identifiable by product line.

Sales, production and employment at the Wallowa facility declined during the relevant time period; the facility closed in June 2000.

The initial investigation resulted in a negative determination because there was no shift in production to Mexico or Canada and the company did not purchase imported stud lumber from Mexico or Canada. In addition, the Department conducted a survey of major customers which revealed that customers of the subject firm were not increasing their purchases of imported stud lumber.

The customer information provided by the company in its request for administrative reconsideration, and verified by the Department, reveals that a major customer increased purchases of imported stud lumber from Canada while reducing purchases from the subject firm.

**Conclusion**

After careful review of the facts obtained on reconsideration, I conclude that increased imports of articles like or directly competitive with stud lumber contributed importantly to the declines in sales or production and to the total or partial separation of workers of Wallowa Forest Products, Wallowa, Oregon. In accordance with the provisions of the Trade Act, I make the following certification:

"All workers of Wallowa Forest Products, Wallowa, Oregon who became totally or partially separated from employment on or after June 27, 1999 are eligible to apply for NAFTA-TAA under Section 250 of the Trade Act of 1974."

Signed in Washington, D.C. this 6th day of October 2000.
