ACTION: Notice.

SUMMARY: The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA95) [44 U.S.C. 3506(c)(2)(A)]. This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. The Bureau of Labor Statistics (BLS) is soliciting comments concerning the proposed extension of the "International Training Application." SUPPLEMENTARY INFORMATION:**I. Background**

The BLS is one of the largest labor statistics organizations in the world and has provided international training since 1945. Each year, the BLS Division of International Technical Cooperation (DITC) conducts seminars of 1 to 2 weeks duration at its training facilities in Washington, DC. In addition to the annual international seminars, DITC provides technical assistance upon request and organizes visits to the BLS for many international visitors each year. The seminars bring together

statisticians, economists, analysts, and other data producers and users from countries all over the world. Each seminar is designed to strengthen the participants' ability to collect and analyze economic and labor statistics.

II. Current Action

Office of Management and Budget clearance is being sought for the proposed extension of the International Training Application. Continuing the existing collection will allow the BLS to continue to conduct international seminars. No questions have been added or deleted on the form since the last Office of Management and Budget approval in 2013.

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility.
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used.
