Information Collection Requirement

Title: Sensitive Security Information Threat Assessment Application.

Type of Request: Extension of a currently approved collection.

OMB Control Number: 1652–0042.

Form(s): TSA Forms 2817A and 2817B.

Affected Public: Individuals seeking access to SSI Information.

Abstract: TSA is required to prohibit the disclosure of information that would be detrimental to transportation safety or security. *See* 49 U.S.C. 114(r) and 44912(d). *See also* TSA’s regulations stipulating requirements for the protection of SSI at 49 CFR part 1520. The regulations restrict access to SSI to “covered individuals” with a “need to know”.

Pursuant to the requirements in Section 525(d) of the DHS Appropriations Act, 2007, Public Law 109–295 (120 Stat 1355, 1382, Oct. 4, 2006), as reenacted,¹ TSA must establish a process by which a party seeking access to SSI in a civil proceeding in federal district court can make a request to receive a record designated as SSI. TSA’s process applies to parties who demonstrate a substantial need for relevant SSI in preparation of the party’s case and not having the record would create an undue hardship to obtain the substantial equivalent of the information by other means.² Under

¹ Consolidated and Further Continuing Appropriations Act, 2013, Public Law 113–6, Div. D., Title V., sec. 510 (March 26, 2013).

² That in civil proceedings in the United States District Courts, where a party seeking access to SSI demonstrates that the party has substantial need of relevant SSI in the preparation of the party’s case and that the party is unable without undue

this process, the party's representative may request and be granted conditional access to the SSI at issue in the case. TSA may grant court reporters and experts access to the SSI under similar terms and conditions.

Under 49 CFR 1520.11 and 1520.15, TSA may also consider individuals who are (1) prospective bidders to a Request for Proposal; (2) involved in the performance of non-traditional contractual agreements (e.g., bailments) or other transaction agreements; or (3) receiving access to SSI as a conditional disclosure under 49 CFR 1520.15(e) in this process.

Under 49 CFR 1520.11(c), TSA may make an individual's access to SSI contingent upon satisfactory completion of a security threat assessment (STA), including evaluation of a fingerprint-based criminal history records check (CHRC); and/or a name-based check against federal law enforcement, terrorism, and immigration databases; and/or other procedures and requirements for safeguarding SSI that are satisfactory to TSA. *See also* 49 U.S.C. 114(f)(4). To conduct this STA, TSA collects identifying information, an explanation supporting the individuals' need for the information, and other information related to safeguarding SSI to conduct the STAs. For individuals who have received a comparable STA from TSA (such as being a member of the TSA PreCheck® Application Program), TSA may also use the known traveler number issued by TSA to inform an individual's eligibility to access SSI, or otherwise honor the comparable STA. TSA uses the results of the STA to make a final determination on whether the individual may be granted access to SSI. TSA also uses the information as part of

hardship to obtain the substantial equivalent of the information by other means, the party or party's counsel shall be designated as a covered person under 49 CFR part 1520.7 in order to have access to the SSI at issue in the case, provided that the overseeing judge enters an order that protects the SSI from unauthorized or unnecessary disclosure and specifies the terms and conditions of access, unless upon completion of a criminal history check and terrorist assessment like that done for aviation workers on the persons seeking access to SSI, or based on the sensitivity of the information, the Transportation Security Administration or DHS demonstrates that such access to the information for the proceeding presents a risk of harm to the nation: Provided, That notwithstanding any other provision of law, an order granting access to SSI under this section shall be immediately appealable to the United States Courts of Appeals, which shall have plenary review over both the evidentiary finding and the sufficiency of the order specifying the terms and conditions of access to the SSI in question: Provided further, That notwithstanding any other provision of law, the Secretary may assess a civil penalty of up to \$50,000 for each violation of 49 CFR part 1520 by persons provided access to SSI under this provision.

its determination as to whether provision of access to specific SSI would present a risk of harm to the nation.

In addition, TSA uses the information from individuals who have recently (i.e., within 2 years or as determined appropriate by the program office) successfully undergone a federal background investigation (i.e., Tier 1) or hold an active security clearance granting access to classified national security information to facilitate the STA. TSA will use this information as part of its determination as to whether provision of access to specific SSI would be detrimental to transportation security.

Applicants seeking access to SSI in federal district court litigation must complete TSA Form 2817A, *SSI Access Threat Assessment Questionnaire—Litigation*. Bidders and certain other applicants are required to complete TSA Form 2817B, *SSI Access Threat Assessment Questionnaire—Standard* in order to have a STA completed before they can receive the requested SSI. The data points consist of identifying information, including, but not limited to, full name (including any aliases), date of birth, place of birth, gender, Social Security number (optional), employer name (optional); country of citizenship, Known Traveler Number (if using TSA PreCheck as a comparable STA), level and date of security clearance (if available), and information regarding the need for the information (litigant, bidder, etc.).

In addition to the information required for conducting STAs, TSA requires contract bidders to provide a certification from each company/entity that its employees/personnel who are provided access to SSI are properly trained; a Non-Disclosure Agreement for each individual who is granted access to SSI; and an affirmation that each company/entity will designate a senior official who can certify that all appropriate protections will be followed, only authorized individuals will have access to the sensitive information, and that those individuals adequately understand their responsibilities to protect the information. TSA may also require these items for other contractual agreements (e.g., bailments), other transaction agreements, or conditional SSI disclosures, on a case-by-case basis.

In the case of a party seeking access to SSI in a civil proceeding in federal court, TSA will gather the information required for individual vetting, including fingerprinting to conduct a CHRC and also require these individuals to respond to questions to verify

individuals' history in safeguarding sensitive information, including good standing with bar membership or sanctions; and to agree to abide by TSA instructions concerning the handling of SSI in connection with the court proceeding.

Estimated Number of Respondents: 263.

Estimated Annual Burden Hours: 104.53.³
